

Pulses Domestic Fundamentals:

Today's Update:

- Chana continued to improve in cash market taking clue from firm futures and improved offtake. Seed demand, restricted sale by Nafed and private trades, unwillingness to sell at current level remain supportive to cash chana market. Delhi chana was traded at Rs 4400-4450. It may cross MSP soon if current demand continues. However, market is unlikely to move up beyond MSP as there is sufficient stock in central pool.
- Urad cash market trades firm as fresh buying by private trade continues. Buying by mills and stockiest remains supportive. There is a shortage of quality urad and import volume too is restricted due to current applicable ceiling. In Mumbai market urad is being traded at Rs 5300-5350 while in Chennai market it is being traded at Rs 5550-5600.Procurement of urad has commenced. So, market may move up by Rs 100-200 more from current level.
- Indian farmers have covered 135.01 lakh ha area under pulses as on 04th, Oct-2019 against 137.32 lakh ha last year till date. It is 1.69 % lower than last year. Normal area under kharif pulses is 119.89 lakh ha. Farmers have covered 45.94 lakh ha under tur, 39.19 lakh ha under urad bean, 31.29 lakh ha under moong, 0.97 lakh ha under kulthi and 17.61 lakh ha under other pulses. It is 0.08 % up for tur, 1.53 % down for urad, 8.94 % down for moong. It is 10.26 % up for kulthi and 7.54 % up for other pulses from last year.
- India has received 968.3 mm of actual rainfall against 880.6 mm of normal rainfall during 01st June to 30thSep-2019. During the same period overall, rainfall was 10% higher than normal. However, distribution of rainfall has been uneven despite higher rains. As monsoon is expected to withdraw from mid Oct.rabi sowing might be delayed by 15 days this year.Rabi season starts from Oct. Heavy rains & flooding has affected matured crops in Rajasthan, Madhya Pradesh and Maharashtra, The kharif crop size may decline by 10% from normal expectation. However, prospects for rabi crop have improved too.
- The commerce ministry has asked pulses importers to finish their import by end Oct-2019. If they fail to do so, their quota allotment would not be valid beyond Oct. In any case date would not be enhanced. Notably, The DGFT had stated that imports should arrive on Indian ports latest by October 31 and the validity period of the allotment will not be enhanced on 11th Sep-2019.

Previous Update:

- Chana recovered as mills renewed buying and increasing demand for seeds. Recovery in futures was expected as sellers were unwilling to sell at lower level. Besides, Nafed restricted sale helped market to gain again. Chana in Delhi market traded at Rs 4350-4450 and may move up further by Rs 100 from current level. However, any major spike in chana cash market is unlikely. It may move up to MSP level in the short term.
- This year moong area is almost 9 % lower than last year as per latest sowing updates. Farmers have planted 31.16 lakh ha against 34.25 lakh ha last year. Crop loss scenario seems rather serious now with current showers of normal to heavy rains in states like Raj,Karnataka,M.P.,Mah,Guj and U.P.The major kharif moong growing states are Rajasthan (18.31 lakh ha against 19.02 last year),Maharashtra (3.28 against 4.18 lakh ha last year)Guj (0.93 against 0.63 lakh ha last year),Odisha(1.64.against1.74 lakh ha last year)Telangana (0.71 against 0.73 lakh ha),MP (3.11 against 4.11 lakh ha).Around one lakh ha is said to be washed out by flooding while 15 % crop in thses states are said to be dis-colored due to continuous rains. It may support moong price in coming weeks. Kharif moong production is bound to decline by 1 lakh MT while shortage of quality moong might be felt in Nov –Dec .Arriav is not increasing as expected at this point of time.
- Despite demand of higher import duty on Masur govt has not taken any decision on import duty. However, govt is aware of higher volume of import and may analyze the overall scenario before taking any decision on imposing higher duty. There is a continuous flow of masur from Canada and Australia and it is affecting price in domestic market.

International Market Update:

- Pulses & edible beans production in China is expected to decline by 10% this year to 44 lakh MT due to lower seeded area and unfavorable weather conditions. Lower prevailing price in local market discouraged farmers to reduce area year on year basis. China's annual pulse consumption per-capita is roughly 1.7 kilograms. Pulses demand in China is increasing due to health awareness and rising income.
- Lentils export from Turkey posted smart gains in July in comparison to June-2019 as per available statistics from Turkish Statistical Institute. Turkey exported 13,053 lentils in July against 8608 MT in June.Turkey has exported total142199 MT lentils during the calendar year so far.It is down by 7% from last year till date. Sudan brought 4406 MT, Saudi Arabia -1144MT and Iraq -999 MT in July-2019.
- Pea export from Russia decreased to 28836MT in June against 56283 MT in May-2019. Total export during calender year was registered at 2.04 lakh MT, down by 62% from last year. Turkey purchased 8,571 Pakistan MT,8,554 MT, followed by India at 3,107 MT in June.
- Chickpea & dry edible bean harvest in US has started and around 12% is said to be complete now as per NASS updates. It was 6% last week ending 13th Sep-2019. Idaho completes 37% of the crop is now in the bin, versus 65% last year, while Montana has harvested 58%, down from 76% last year and Oregon reports 45% harvested, compared to 75% last year. In North Dakota only 13% harvest is said to be complete against 72% last year till date. In other states it is in initial stages.
- As per the latest updates by Australia Bureau of Statistics chickpeas export from Australia declined in July to 16632MT against 25805 MT in June-2019. It is almost 36% down from June. Total export till July was recorded at 275,049 MT, massively down from 671,642 during the last marketing year. Pakistan, B,desh and UAE purchased 4,474 MT,4,403 MT & 2,455 MT. respectively in July-2019.

Previous Update:

- Dry peas production in Canada is expected to increase by 20 % to 43 lakh MT in comparison tolast year. The reason is attributed to higher area coverage in 2019-20 cropyear. The major growing state is Saskatchewan accounting 50 % in total production. Alberta is 2nd major growing state accounting 45% of total production. As carry in stock is lower supply side is expected to increase by only 55 tp 4.5 MMT .Export may decrease to 31 lakh MT. Top buyers might be China, Bangladesh and the US.Carry in stock would increase. Average price is expected to be similar as 2018-19.
- Chickpeas export from Australia increased by 10 % to 27251 MT in June against May when it was registered at 24719MT as per Australia Bureau of Statistics. Thus total export in current MY reached to259,863 MT(till June) against 646,411 MT in corresponding period last year.B,desh brought 8,463 MT in June ,followed by Pakistan at 8,064 MT. UAE purchased4,991 MT in June.
- Dry pea stock in US is likely to increase by 0.02 % tp 203983 MT in 2019.It was 199628 MT in 2018.Even lentils stock is expected to be higher by81% to 144,425 MT in 2019 against 79833 MT in 2018.All chickpeas stock is 294% higher to 157262 MT against 39916 MT in 2018.Out of total small chickpeas stock increase from 12156 to 43318 MT in 2019.It is higher by 256% from last year. Large chickpeas stock is expected to increase by 310% to 113,943 MT in 2019.
- Lentils production in Canada is likely to increase by 5.16 % to 22lakh MT in 2019-20 against 20.92lakh MT last year. However, total supply would decrease by 3.14 % to 28.95 lakh MT due to higher domestic use pegged at almost 6 lakh MT. Carryout would decrease from 7 to 5 lakh MT in 2019-.20. Export has been pegged at 18 lakh MT,similar as last year. Average yearly lentil price is expected to hover in the range of \$430 to 460 per MT.
- Chickpea area is expected to fall in Canada from 176 to 133 thousand Ha in 2019-20 while production is expected to fall from 3.11to 2.30 lakh MT. Supply is forecast to increase due to higher carry-in stocks, but softened by lower imports and production. The average price is forecast to fall due to larger world supply, with the expectation of an average grade distribution in 2019-20 as per Canada Stats.

Weekly Outlook: -Pulses are likely to trade steady to slightly firm.

Kharif Sowing as 04-10-2019:
