

Pulses Domestic Fundamentals:

Today's Update:

- **Chana continued to improve in cash market taking clue from firm futures and improved offtake.** Seed demand, restricted sale by Nafed and private trades, unwillingness to sell at current level remain supportive to cash chana market. Delhi chana was traded at Rs 4400-4450. It may cross MSP soon if current demand continues. However, market is unlikely to move up beyond MSP as there is sufficient stock in central pool.
- **FCI is going to auction its 22 MT tur in Telangana (Adilabad & Mehboobnagar) and Raichur in Karnataka.** Bids has been invited. As quantity is lower it would not impact local market.
- **High level officials of DGFT met with the representative of pulses trades and importers** yesterday and requested officials to ease import curbs and allow additional one lakh MT urad import due to recent loss of kharif urad. Trade bodies requested to extend the deadline for import of pulses for next two months till 31st Dec. However, officials would send suggestions and requests to concerned ministry. No immediate action has been taken. DGFT would take decision after finding green signal from ministry and it will take time. Extension in deadline for tur import is necessary as 4 lakh MT import is not possible till Oct end.
- **Buyers in Maharashtra & South India are active in tur buying.** Arrival is decreasing in all markets amid uncertainty over import of Arusha tur from Tanzania. festive demand may encourage demand for dal in coming weeks. All these developments may push up tur price by Rs100-200 from current level. In Gulberga market tur is being traded at Rs 5550-5600 while in Mumbai lemon tur is being traded at Rs 5450 per qtl. In Chennai market it was quoted at Rs 5650-5700.
- **Urad millers and stockiest are active buyers in major producing regions and it is supporting** cash urad price in domestic markets. Area loss over one lakh ha and 30 % dis-colored grain remain supportive for urad cash market. Prices may move up further by 200 to 300 from current level. Myanmar is offering urad FAQ at \$570 per MT. So there is import parity. The difference between domestic and imported price is over Rs1100 per qtl. At port total costing of urad is Rs 4300 per qtl. As import is conditional, so any bulk volume is unlikely in Oct. Import cap is at 1.5 lakh MT. In Chennai market urad FAQ is being traded at Rs5600. It may cross MSP soon. SQ traded at Rs 6600-6650. Procurement drive at MSP too would support market to rule at higher level.

Previous Update:

- **This year moong area is almost 9 % lower than last year as per latest sowing updates.** Farmers have planted 31.16 lakh ha against 34.25 lakh ha last year. Crop loss scenario seems rather serious now with current showers of normal to heavy rains in states like Raj, Karnataka, M.P., Mah, Guj and U.P. The major kharif moong growing states are Rajasthan (18.31 lakh ha against 19.02 last year), Maharashtra (3.28 against 4.18 lakh ha last year) Guj (0.93 against 0.63 lakh ha last year), Odisha (1.64 against 1.74 lakh ha last year) Telangana (0.71 against 0.73 lakh ha), MP (3.11 against 4.11 lakh ha). Around one lakh ha is said to be washed out by flooding while 15 % crop in these states are said to be dis-colored due to continuous rains. It may support moong price in coming weeks. Kharif moong production is bound to decline by 1 lakh MT while shortage of quality moong might be felt in Nov – Dec. Arrivals are not increasing as expected at this point of time.
- **Despite demand of higher import duty on Masur govt has not taken any decision on import duty.** However, govt is aware of higher volume of import and may analyze the overall scenario before taking any decision on imposing higher duty. There is a continuous flow of masur from Canada and Australia and it is affecting price in domestic market.
