

Pulses Domestic Fundamentals:

Today's Update:

- ***Moong too may continue to trade firm as Procurement by Nafed commences in Tamil Nadu, Telangana & Maharashtra. It is likely to begin soon in M.P., Rajasthan and Gujarat. It has procured 25.75 MT in Tamil Nadu and 3285MT in Telangana. Nafed sold 470 MT moong in Rajasthan at Rs 6401 per qtl. It was sold in Gujarat at Rs 6285 per qtl. Nafed still has 95989.34 MT moong in its stock. Out of it rabi share is 18281.14 MT. As procurement is on moong may continue to trade firm despite new arrival in Rajasthan is yet to pick up. There is a short supply of quality moong. So stockiest should buy when it comes down by Rs 200-300 on arrival pressure. Poor quality of moong coming into mandis may check one way uptrend in coming weeks. Farmers are selling moong to private trades due to quality issue and set parameters for govt.'s purchase. Overall trend in moong market seems firm until procurements come to an end. In Jaipur market moong is being traded at Rs 6000-6200.***
- ***Chana cash market traded firm on good buying support from millers and besan udhyog. Dal demand in retail market have improved. As stock in private hands is coming down and sales by Nafed remains restricted, chana traded firm. In Delhi market it is being traded at Rs 4375-4400 and may move up to 4600-4700. Sowing is about to start from 20th Oct and demand for seed too would continue. So, cash market it expected to trade firm. At MSP level market may face resistance as Nafed may interfere to cool down price as it has ample stock over 1 MMT. So any spike is unlikely in chana market. Normal trade is expected in chana cash market. This year sowing is expected to cross last year level as water availability is higher. Besides, . Import volume is increasing from LDC (least developed countries), however, it would not affect overall supply side as volume remains at lower level. Import from major importing countries like Australia, Ukraine would be limited due to higher import duty.***

Previous Update:

- ***Tur coming into various markets is said to be of poor quality and it is affecting tur cash price despite slower pace of arrivals. As quality is poor, trade in Maharashtra and Karnataka markets is taking place at lower level. Arrival in Latur market has decreased to 150 bags only. Stock in private hands is coming down. Besides, demand for tur dal is sluggish and Nafed too is planning to sell it as new crop is only two months away. Market participants are of the view that declining stock may push up tur price to a certain extent before new arrival. As crop condition is good, production size may increase further. Import flow continues and it would continue to restrict tur price. In near to medium term tur may trade 5400-5800 in Gulberga market. Myanmar is quoting lemon tur at \$635 right now . So any spike in tur market is unlikely.***
- ***Recent loss and strong demand for stocking purpose amid sellers unwillingness to sell have lent support to cash urad market. Virtually, sellers have disappeared from market and farmers too have restricted selling. Besides, import flow is lower. So there is a short supply like situation in the market and it is pushing up cash market continuously. The largest producing state like MP have lost 15-20% crop while 30% quality of crop is of inferior quality. Arrival is 90 % lower than last year. Even in other states like Raj, U.P & MH quality of crop is average. All these factors have lent massive support to cash urad market. If stockiest/farmers continue to restrict sale, urad may move up further by Rs300-400. However, at current level stockiest may prefer to release stock by end Oct as around 75-80 thousand MT urad is expected to hit Indian ports by the end of this month, if govt. allows additional 1 to 1.5 lakh MT, as has been demanded by dal mills associations/traders, it may decrease, otherwise it may move further up***
- ***Despite demand of higher import duty on Masur govt has not taken any decision on import duty. However, govt is aware of higher volume of import and may analyze the overall scenario before taking any decision on imposing higher duty. There is a continuous flow of masur from Canada and Australia and it is affecting price in domestic market.***

International Market Update:

- ***This year production of green lentils has not been upto the mark. There is a shortage of quality crop in comparison to last year. Prices of no1 and no.2 have been moving up and uptrend is likely to continue. Last year Canada had harvested 28% no -1 lentils,45% no-2 and 22% no-3 and extra -3.This year percentage of no -1 lentils is 16%, No-3 is 55% and the rest is others. As no -1 is lower than expectation, prices may rule firm in coming weeks too.***
- ***As per the latest report from dry pea & lentils council harvesting activities of pulses in US is coming to an end now.Dry pea harvesting is over in 98% area while it is 90 % for lentils. Small Chickpeas harvest is over in 80% while it is 77% for large chickpeas. Total pulses harvesting on an average comes to 93% so far..***
- ***Dry peas production has been pegged at 856163 MT,lentil production at 2.47lakh MT, total chickpeas production has been pegged at 1.79 lakh MT. Total pulses production has been pegged at 12.82 lakh MT this year against 15 lakh MT last year. Due to rains generated issues yield has been down this year for all pulses in US.***
- ***Lentils export from Turkey posted smart gains in July in comparison to June-2019 as per available statistics from Turkish Statistical Institute. Turkey exported 13,053 lentils in July against 8608 MT in June.Turkey has exported total142199 MT lentils during the calendar year so far.It is down by 7% from last year till date. Sudan brought 4406 MT, Saudi Arabia -1144MT and Iraq -999 MT in July-2019.***
- ***Pea export from Russia decreased to 28836MT in June against 56283 MT in May-2019.Total export during calendar year was registered at 2.04 lakh MT, down by 62% from last year. Turkey purchased 8,571 Pakistan MT,8,554 MT, followed by India at 3,107 MT in June.***
- ***As per the latest updates by Australia Bureau of Statistics chickpeas export from Australia declined in July to 16632MT against 25805 MT in June-2019. It is almost 36% down from June. Total export till July was recorded at 275,049 MT, massively down from 671,642 during the last marketing year. Pakistan, B,desh and UAE purchased 4,474 MT,4,403 MT & 2,455 MT. respectively in July-2019.***

Previous Update:

- ***Dry peas production in Canada is expected to increase by 20 % to 43 lakh MT in comparison to last year. The reason is attributed to higher area coverage in 2019-20 cropyear. The major growing state is Saskatchewan accounting 50 % in total production. Alberta is 2nd major growing state accounting 45% of total production. As carry in stock is lower supply side is expected to increase by only 55 tp 4.5 MMT .Export may decrease to 31 lakh MT. Top buyers might be China, Bangladesh and the US.Carry in stock would increase. Average price is expected to be similar as 2018-19.***
- ***Chickpeas export from Australia increased by 10 % to 27251 MT in June against May when it was registered at 24719MT as per Australia Bureau of Statistics. Thus total export in current MY reached to259,863 MT(till June) against 646,411 MT in corresponding period last year.B,desh brought 8,463 MT in June ,followed by Pakistan at 8,064 MT. UAE purchased4,991 MT in June.***
- ***Dry pea stock in US is likely to increase by 0.02 % tp 203983 MT in 2019.It was 199628 MT in 2018.Even lentils stock is expected to be higher by81% to 144,425 MT in 2019 against 79833 MT in 2018.All chickpeas stock is 294% higher to 157262 MT against 39916 MT in 2018.Out of total small chickpeas stock increase from 12156 to 43318 MT in 2019.It is higher by 256% from last year. Large chickpeas stock is expected to increase by 310% to 113,943 MT in 2019.***
- ***Lentils production in Canada is likely to increase by 5.16 % to 22lakh MT in 2019-20 against 20.92lakh MT last year. However, total supply would decrease by 3.14 % to 28.95 lakh MT due to higher domestic use pegged at almost 6 lakh MT . Carryout would decrease from 7 to 5 lakh MT in 2019-.20. Export has been pegged at 18 lakh MT,similar as last year. Average yearly lentil price is expected to hover in the range of \$430 to 460 per MT.***
- ***Chickpea area is expected to fall in Canada from 176 to 133 thousand Ha in 2019-20 while production is expected to fall from 3.11to 2.30 lakh MT. Supply is forecast to increase due to higher carry-in stocks, but softened by lower***

imports and production. The average price is forecast to fall due to larger world supply, with the expectation of an average grade distribution in 2019-20 as per Canada Stats.

Weekly Outlook: -Pulses are likely to trade steady to slightly firm.
