

Pulses Domestic Fundamentals:

Today's Update:

- Cash pulses market may face resistance at higher level after Diwali. Higher arrival flow, softening demand, selling from central pool stock amid ongoing import would restrict current firmness. Chana ,tur, masur and moong may trade steady to slightly lower despite ongoing procurement. Urad may stay steady. Lower quotes in Myanmar are indicating weakening Indian demnd at this point of time.
- Myanmar decreased quotes for lemon tur from \$675 to \$660 per MT in last three days as crop condition in India improved in recent weeks. Besides, Nafed intention to sell stock too compelled exporters to lower their quotes. Old tur is being offered at \$610 per MT basis Indian ports. Even urad quotes decreased in last three days. FAQ decreased by \$40 to \$660 and SQ by \$75 to \$775 per MT. However, chana kabuli stayed steady at \$650 per MT. Moong quote too declined by \$30 to \$830 per MT. Rajma was quoted at \$1110 per MT.

Previous Update:

- Nafed has total 3007514.2 MT pulses stock in its hands as on 21,0ct-2019.Out of total around 17.31 lakh MT is chana, including 1133230.39MT from 2018 & 597919.76 MT from 2019.Totalmoong stock is 102080.55 MT.It includes 4739.66 from kharif -2017,831MT from rabi 2017,74679.7Mt from kharif 2018 & 17029.79 MT from rabi -201. It is 4800.4 MT from kharif -2019.Totalurad stock is 219707.08 MT .It includes 7317.59 MT from kharif-2017,202563.54 from kharif-2018.9819.1MT from rabi-2019 & 6.85 MT from kharif -2019.Totaltur stock as on 21st Oct-2019 is 854339.39 MT. Out of total 578675.99MT fromkharif-2017 & 275663.4MT from kharif -2018.Totalmasur stock is 100237MT.Out of this 44010.48 MT is fromrabi-2018 & 56226.52MT is from rabi-2019. So stock position seems at comfortable level for tur and Chana only. Other pulses may move up further if rabi sowing gets affected. It would push up price.
- Govt.is likely to extend lime line for pulses import from 31st Oct to 30th Nov-2019. If urad price continues to rise ,Nafed would increase volume for auction. Nafed still has 2.31lakh MT old urad stock. Duty on masur might be increased from 30% to 60 percent, as request for 30% hike has been tabled for consideration. Decision is expected in by Nov end/Dec. Nafed has 2.07 lakh MT lentil stock. It would prefer to sell first. New crop start coming in March. Lentil MSP may be hiked to 4800 from Rs4450.CACP has proposed Rs4800. Normally it is accepted by govt.
- Restricted sale of chana by Nafed have eased pressure on chana price. Nafed still have 1.7 MMT stock. Nafed would invite tender once in a week on Thursday now. Nafed may prefer to sell chana near 4400.So, any downward trend in chana is unlikely at this point of time. Apart from this demand for besan has improved and dal millers have shown interests in buying at current level. Arrival in markets have already declined while stockiest are waiting for further improvement. Even NCDEX is trading firm. Demand for seed too is visible in the market. Nafed may decide to sell chana in bulk volume from mid -November. It may restrict uptrend in Chana market. As Nafed is on driver's seat, its selling decision would remain crucial for chana price in Nov, Dec and Jan-2021. Chana in Delhi market is being traded at Rs4475-4550.It may move up to Rs 4650-4700.
- Moong too may continue to trade firm as Procurement by Nafed commences in Tamil Nadu, Telangana & Maharashtra. It is likely to begin soon in M.P., Rajasthan and Gujarat. It has procured 25.75 MT in Tamil Nadu and 3285MT in Telangana. Nafed sold 470 MT moong in Rajasthan at Rs 6401 per qtl.It was sold in Gujarat at Rs 6285 per qtl. Nafed still has 95989.34 MT moong in its stock. Out of it rabi share is 18281.14 MT.As procurement is on moong may continue to trade firm despite new arrival in Rajasthan is yet to pick up. There is a short supply of quality moong. So stockiest should buy when it comes down by Rs 200-300 on arrival pressure. Poor quality of moong coming into mandis may check one way uptrend in coming weeks. Farmers are selling moong to private trades due to quality issue and set parameters for govt.'s purchase. Overall trend in moong market seems firm until procurements come to an end. In Jaipur market moong is being traded at Rs 6000-6200.
- Tur coming into various markets is said to be of poor quality and it is affecting tur cash price despite slower pace of arrivals. As quality is poor, trade in Maharashtra and Karnataka markets is taking place at lower level. Arrival in Latur market has decreased to 150 bags only. Stock in private hands is coming down. Besides, demand for tur dal

is sluggish and Nafed too is planning to sell it as new crop is only two months away. Market participants are of the view that declining stock may push up tur price to a certain extent before new arrival. As crop condition is good, production size may increase further. Import flow continues and it would continue to restrict tur price. In near to medium term tur may trade 5400-5800 in Gulberga market. Myanmar is quoting lemon tur at \$635 right now. So any spike in tur market is unlikely.

International Market Update:

- Saskatchewan is seeing the slowest harvest in last four decades. Until 14th October around 94 percent of the crop has been harvested. Producers tried taking advantage of relatively dry and warm weather conditions. Most of the areas received mixed precipitation, others received very low or no precipitation and were able to spend more time in the field. The forecast for upcoming week is still positive as weather is expected to remain dry and warm.
- Lentil quotes from Canada as well as Australia were firm during the past week. Canadian lentil container and vessel are being quoted at Rs 4175-4200 per quintal and Rs 4075-4100 per quintal respectively, lower compared to previous week. Whereas Australian lentil container is being quoted at Rs 4275-4300 per quintal.

Previous Update:

- As per the latest data released by Eurostat and Terres Univia pea export from France is rather slow than the last year. France has exported19530 MT pea in August-2019, up by 11830MT in July. However, it is lower by 13% to 22415 MT in Aug -2018. MY 2019-20 started in July in France. Total import in two months was registered at 37230MT, lower by 6% to 39545 MT last year in Jul-Aug. Mostly peas were exported to EU countries.
- This year production of green lentils has not been upto the mark. There is a shortage of quality crop in comparison to last year. Prices of no1 and no.2 have been moving up and uptrend is likely to continue. Last year Canada had harvested 28% no -1 lentils, 45% no-2 and 22% no-3 and extra -3. This year percentage of no -1 lentils is 16%, No-3 is 55% and the rest is others. As no -1 is lower than expectation, prices may rule firm in coming weeks too.
- Dry peas production has been pegged at 856163 MT, lentil production at 2.47lakh MT, total chickpeas production has been pegged at 1.79 lakh MT. Total pulses production has been pegged at 12.82 lakh MT this year against 15 lakh MT last year. Due to rains generated issues yield has been down this year for all pulses in US.
- Pea export from Russia decreased to 28836MT in June against 56283 MT in May-2019. Total export during calendar year was registered at 2.04 lakh MT, down by 62% from last year. Turkey purchased 8,571 Pakistan MT,8,554 MT, followed by India at 3,107 MT in June.
- As per the latest updates by Australia Bureau of Statistics chickpeas export from Australia declined in July to 16632MT against 25805 MT in June-2019. It is almost 36% down from June. Total export till July was recorded at 275,049 MT, massively down from 671,642 during the last marketing year. Pakistan, B,desh and UAE purchased 4,474 MT,4,403 MT & 2,455 MT. respectively in July-2019.
- Dry peas production in Canada is expected to increase by 20 % to 43 lakh MT in comparison tolast year. The reason is attributed to higher area coverage in 2019-20 cropyear. The major growing state is Saskatchewan accounting 50 % in total production. Alberta is 2nd major growing state accounting 45% of total production. As carry in stock is lower supply side is expected to increase by only 55 tp 4.5 MMT. Export may decrease to 31 lakh MT. Top buyers might be China, Bangladesh and the US. Carry in stock would increase. Average price is expected to be similar as 2018-19.
- Chickpeas export from Australia increased by 10 % to 27251 MT in June against May when it was registered at 24719MT as per Australia Bureau of Statistics. Thus total export in current MY reached to 259,863 MT(till June) against 646,411 MT in corresponding period last year. B, desh brought 8,463 MT in June , followed by Pakistan at 8,064 MT. UAE purchased 4,991 MT in June.
- Dry pea stock in US is likely to increase by 0.02 % tp 203983 MT in 2019.It was 199628 MT in 2018.Even lentils stock is expected to be higher by81% to 144,425 MT in 2019 against 79833 MT in 2018.All chickpeas stock is 294% higher to 157262 MT against 39916 MT in 2018.Out of total small chickpeas stock increase from 12156 to 43318

MT in 2019.It is higher by 256% from last year. Large chickpeas stock is expected to increase by 310% to 113,943 MT in 2019.

- Lentils production in Canada is likely to increase by 5.16 % to 22lakh MT in 2019-20 against 20.92lakh MT last year. However, total supply would decrease by 3.14 % to 28.95 lakh MT due to higher domestic use pegged at almost 6 lakh MT. Carryout would decrease from 7 to 5 lakh MT in 2019-.20. Export has been pegged at 18 lakh MT, similar as last year. Average yearly lentil price is expected to hover in the range of \$430 to 460 per MT.
- Chickpea area is expected to fall in Canada from 176 to 133 thousand Ha in 2019-20 while production is expected to fall from 3.11to 2.30 lakh MT. Supply is forecast to increase due to higher carry-in stocks, but softened by lower imports and production. The average price is forecast to fall due to larger world supply, with the expectation of an average grade distribution in 2019-20 as per Canada Stats.

Weekly Outlook: -Pulses are likely to trade steady to slightly firm.
