

Pulses Domestic Fundamentals:

Today's Update:

- **Stormy wind accompanied by rains and hailstorm may damage standing pulses crop** in Rajasthan, Gujrat and Odisha. It may support pulses cash market if it continues. Fear of heavy rains fall is growing too in south Indian states. Tur urad and moong may move up further while sowing of chana may be delayed by 15days.
- **Cabinet Committee meeting regarding decision over pulses import quantity and extension** of timeline for import was postponed yesterday due to some technical reason. The new date would be announced soon. In this meeting import quantity of urad was increased from 1.5 to 2.5 lakh MT while import timeline had to be extended from 31st Oct to 30 Nov-2019.
- **Canada, Australia and the USA have raised objections against India over ban on pulses import in WTO.** Actually India has restricted pulses import to support domestic price. They have questioned export import policies and higher quantity of procurement at MSP. India consumes 24 MMT pulses a year while production has crossed 25 MMT as per Govt. data. In last two years import decreased from 6 MMT to 1.5 to 2MMT a year. So import restriction is essential to provide better price for farmers. As moong and urad crops have been damaged in kharif season, shortfall can be compensated by increasing import quantity.
- **Continuous rains in Akola region have started affecting tur crop. Besides Akola, some other parts of Maharashtra** is receiving unseasonal rains and farmers are worried for their standing crops, almost approaching at maturity stage. Recent rains have delayed chana sowing at least by two weeks. Under prevailing condition chana and tur crop may get support in cash market. Tur price have moved up by Rs100 in Maharashtra. There is no good news from AP and Tamil Nadu. If heavy rains occur in these states, loss for tur crop would increase while chana sowing would be delayed for 15days. In Sholapur market tur moved up to Rs 5600-5650. In Gulberga market tur is being traded at Rs5500-5600. Myanmar is offering tur at Rs 4805(\$645 per MT). Old crop is being offered at Rs 4483(\$600 per MT).
- **Myanmar offers Urad FAQ at \$700 and SQ at \$800 per MT. It has moved up by \$30 in last few days.** In INR term it comes to Rs 5198 & Rs 5914 per MT. New lemon tur is being offered at \$645 and old at \$600 per MT. Moong Padi Shwewa was quoted at \$975 per MT while Pakaku was offered at \$830 per MT. Anya Shweva was offered at \$840 per MT. Chana kabuli was offered at \$650 per MT.

Previous Update:

- **Restricted sale of chana by Nafed have eased pressure on chana price.** Nafed still have 1.7 MMT stock. Nafed would invite tender once in a week on Thursday now. Nafed may prefer to sell chana near 4400. So, any downward trend in chana is unlikely at this point of time. Apart from this demand for besan has improved and dal millers have shown interests in buying at current level. Arrival in markets have already declined while stockiest are waiting for further improvement. Even NCDEX is trading firm. Demand for seed too is visible in the market. Nafed may decide to sell chana in bulk volume from mid-November. It may restrict uptrend in Chana market. As Nafed is on driver's seat, its selling decision would remain crucial for chana price in Nov, Dec and Jan-2021. Chana in Delhi market is being traded at Rs4475-4550. It may move up to Rs 4650-4700.
- **Moong too may continue to trade firm as Procurement by Nafed commences in Tamil Nadu, Telangana & Maharashtra.** It is likely to begin soon in M.P., Rajasthan and Gujarat. It has procured 25.75 MT in Tamil Nadu and 3285MT in Telangana. Nafed sold 470 MT moong in Rajasthan at Rs 6401 per qtl. It was sold in Gujarat at Rs 6285 per qtl. Nafed still has 95989.34 MT moong in its stock. Out of it rabi share is 18281.14 MT. As procurement is on moong may continue to trade firm despite new arrival in Rajasthan is yet to pick up. There is a short supply of quality moong. So stockiest should buy when it comes down by Rs 200-300 on arrival pressure. Poor quality of moong coming into mandis may check one way uptrend in coming weeks. Farmers are selling moong to private trades due to quality issue and set parameters for govt.'s purchase. Overall trend in moong market seems firm until procurements come to an end. In Jaipur market moong is being traded at Rs 6000-6200.

- **Tur coming into various markets is said to be of poor quality and it is affecting tur cash price despite slower pace of arrivals.** As quality is poor, trade in Maharashtra and Karnataka markets is taking place at lower level. Arrival in Latur market has decreased to 150 bags only. Stock in private hands is coming down. Besides, demand for tur dal is sluggish and Nafed too is planning to sell it as new crop is only two months away. Market participants are of the view that declining stock may push up tur price to a certain extent before new arrival. As crop condition is good, production size may increase further. Import flow continues and it would continue to restrict tur price. In near to medium term tur may trade 5400-5800 in Gulberga market. Myanmar is quoting lemon tur at \$635 right now. So any spike in tur market is unlikely.

International Market Update:

- **China imported 222739 MT peas in August, up by 144% from July when it was recorded at 91,214 MT as per General Customs Administration of China.** From Jan to Aug-2019 China imported total 10.85 lakh MT pea against 12.67 lakh MT last year till Aug-2018. In August Canada exported 2.18 lakh MT followed by France and UK.
- **Canada pea production is likely to be 30 % higher than last year. The latest estimate has pegged it at 47 lakh MT.** Even lentil production is likely to be higher by 20 % to 25 lakh MT. Chickpeas production would be up by 15% to 2.63 lakh MT this year. Dry beans production has been pegged at 3.56 lakh MT, up by 45% from last year.

Previous Update:

- **Dry peas production has been pegged at 856163 MT, lentil production at 2.47 lakh MT, total chickpeas production has been pegged at 1.79 lakh MT.** Total pulses production has been pegged at 12.82 lakh MT this year against 15 lakh MT last year. Due to rains generated issues yield has been down this year for all pulses in US.
- **Pea export from Russia decreased to 28836 MT in June against 56283 MT in May-2019.** Total export during calendar year was registered at 2.04 lakh MT, down by 62% from last year. Turkey purchased 8,571 Pakistan MT, 8,554 MT, followed by India at 3,107 MT in June.
- **As per the latest updates by Australia Bureau of Statistics chickpeas export from Australia declined in July to 16632 MT against 25805 MT in June-2019.** It is almost 36% down from June. Total export till July was recorded at 275,049 MT, massively down from 671,642 during the last marketing year. Pakistan, B, desh and UAE purchased 4,474 MT, 4,403 MT & 2,455 MT, respectively in July-2019.
- **Dry peas production in Canada is expected to increase by 20 % to 43 lakh MT in comparison to last year.** The reason is attributed to higher area coverage in 2019-20 crop year. The major growing state is Saskatchewan accounting 50 % in total production. Alberta is 2nd major growing state accounting 45% of total production. As carry in stock is lower supply side is expected to increase by only 55 tp 4.5 MMT. Export may decrease to 31 lakh MT. Top buyers might be China, Bangladesh and the US. Carry in stock would increase. Average price is expected to be similar as 2018-19.
- **Chickpeas export from Australia increased by 10 % to 27251 MT in June against May when it was registered at 24719 MT as per Australia Bureau of Statistics.** Thus total export in current MY reached to 259,863 MT (till June) against 646,411 MT in corresponding period last year. B, desh brought 8,463 MT in June followed by Pakistan at 8,064 MT. UAE purchased 4,991 MT in June.
- **Dry pea stock in US is likely to increase by 0.02 % to 203983 MT in 2019.** It was 199628 MT in 2018. Even lentils stock is expected to be higher by 81% to 144,425 MT in 2019 against 79833 MT in 2018. All chickpeas stock is 294% higher to 157262 MT against 39916 MT in 2018. Out of total small chickpeas stock increase from 12156 to 43318 MT in 2019. It is higher by 256% from last year. Large chickpeas stock is expected to increase by 310% to 113,943 MT in 2019.
- **Lentils production in Canada is likely to increase by 5.16 % to 22 lakh MT in 2019-20** against 20.92 lakh MT last year. However, total supply would decrease by 3.14 % to 28.95 lakh MT due to higher domestic use pegged at almost 6 lakh MT. Carryout would decrease from 7 to 5 lakh MT in 2019-20. Export has been pegged at 18 lakh MT, similar as last year. Average yearly lentil price is expected to hover in the range of \$430 to 460 per MT.

- *Chickpea area is expected to fall in Canada from 176 to 133 thousand Ha in 2019-20 while production is expected to fall from 3.11 to 2.30 lakh MT. Supply is forecast to increase due to higher carry-in stocks, but softened by lower imports and production. The average price is forecast to fall due to larger world supply, with the expectation of an average grade distribution in 2019-20 as per Canada Stats.*

Weekly Outlook: -Pulses are likely to trade steady to slightly firm.

Kharif Sowing as 04-10-2019:
