

Pulses Domestic Fundamentals:

Today's Update:

- **Custom department has refused to clear consignment of urad and pea at ports.** Now stay order given to some selected for urad and pea importers by court may be a hot issue now. A long duration meeting was held between custom department and importers. It concluded with no result. At Chennai port around 5000 MT urad was lying and was awaiting clearance. Besides, some consignments of peas too was there. Quantity of peas is much higher than urad. With this news urad and peas market traded up by Rs 300. After Mumbai and Chennai ports, Kolkata port too has stopped green signaling urad and peas consignments. It may push up price further. Nafed has two lakh MT stock and it may decide to release 50% stock to cool down urad cash market.
- **Tur market traded under pressure with commencement of new arrivals in UP and MP and higher import flow during Oct to 15th Nov-2019.** Besides, 65,000 MT has been imported through G2G basis out of 1.75 lakh MT. The rest will continue to come at regular intervals. Crop conditions in various states have improved and there is ample stock (7.5 to 8 lakh MT) in central pool. So, market is unlikely to move up until procurement starts. In Gulberga market tur is being traded at Rs 5400-5450. It may come down by Rs 200 more from current level. Moisture content is high in new arrival. Recent rains may delay harvesting by a couple of weeks.
- **Nafed may start chana selling in bulk volume and it may affect chana cash market in coming weeks.** It has planned to sell 9.83 lakh MT in Dec and Jan. As quantity is higher so, bid acceptance level has potential to drive cash market up and down. If it accepts bid around Rs 4400, cash market may improve, otherwise it will decrease. As offered quantity is higher, any spike is unlikely in chana cash market.

Previous Update:

- **Rabi pulses sowing area is lagging behind by 10.01 % to 89.23 lakh ha as on 29th November'19.** Chana area was registered at 61.59 against 68.40 lakh ha last year till date. It is lower by 9.95% so far. Masur area was registered at 10.29 against 11.88 lakh ha, down by 13.38%. Peas area was recorded at 6.38 against 6.68 lakh ha, down by 4.40%. However, urad and moong area was recorded at 2.70 against 2.38 and 0.79 against 0.78 lakh ha respectively. Sowing is lagging behind slightly due to unfavorable weather conditions in Nov. so far. As weather has opened up now, sowing pace is likely to increase in coming weeks.
- **Govt agencies have procured 49369.72 MT moong on MSP till 26th Nov-2019.** Out of total procurement Rajasthan has contributed 35242.63 MT, Telangana-5875 MT, Karnataka-5515 MT, Maharashtra -1695 MT, Haryana-670 Tt, AP-326 MT, AP-326 MT and Tamil Nadu -46 MT. Procurement pace has improved with opening of weather in various states.
- **Weak demand for urad dal and eased supply side of imported urad with stay order forced domestic stockiest to liquidate stock at higher level.** Increased intension to release stock before new crop in Andhra Pradesh starts hitting the markets. Millers in A.P. would prefer to buy local crop expected from Kurnool and East Godavari regions by the first week of December. New crop arrival is delayed by 10 days due to bad weather condition in the region. Crop condition in Nellore and Guntur region is good and may hit market from the third week of Dec. After this new urad would hit market from Tamil Nadu. So millers in south India are waiting for new arrival and avoiding bulk buying at this point of time. As stock in market is coming down, urad is unlikely to decrease much. At peak arrival season it may extend its loss by Rs 300 to 400 from current level. With easing of new arrival pressure it may bound to recover again. Rabi sowing is already down by 4.5% against normal area of 8.61 lakh ha for the whole season.
- **Moong procurement is on and it remains supportive to moong market.** However, millers are unwilling to buy at higher level as they have fears that govt would release stock below MSP in the first quarter of new year. In Jaipur market moong is being traded at Rs 6600-6800 per qtl. In south Indian market it traded at Rs 6400-6800 per qtl. Steady tone may prevail in moong market.
- **Masur imported from Canada and US from Tuticorin was found mixed with foreign matters.** The custom officials from port declined to give clearance on the above ground. After request to Agriculture ministry for clearance by pulses import association it has issued order for clearance with some condition only for this consignment. This

relaxation would be applicable on purchase bill till 24, October-2019 or before it. Some condition would be applicable too on it. These consignments have to go through cleaning at warehouse suggested by customs officials. It would be under official surveillance. It would be released after full satisfaction of the official. The cost incurred in this process would be borne by importers.
