

Pulses Domestic Fundamentals:

Today's Update:

- **Procurement agencies have procured 96,731.36 MT moong in various states so far.** Procurement in Haryana has ended now at 1065.9MT. It is on in states like Tamil Nadu, Telangana, Maharashtra, Karnataka, Rajasthan and AP. The highest contributor is Rajasthan where 80,281.23 MT moong has been procured. Telangana and Karnataka have contributed 5874 MT each so far. Procurement in Maharashtra was recorded at 2843.72 lakh MT. AP has contributed only 741.85 MT so far.
- **Central govt. has asked states to offtake pulses against demand at subsidized rates from buffer stock.** As per official sources, centre has a buffer stock of around 1 lakh MT. Union minister Ram Vilas Paswan has written all state govt.s to offtake pulses for distribution through PDS and other available networks. The govt. sells tur and chana through ration shops at prices in the range between Rs 45-55 per kg. In retail market, chana and tur dal is being sold at Rs 70 to 120 per kg. Prices of pulses are going up due to rains and flood generated loss during kharif season.
- **Urad in Myanmar market traded up on increasing possibility of import quota enhancement** for mills in India. Urad FAQ was quoted at 4735 per MT basis Indian ports. In INR term it comes to Rs 5450-5460 per qtl. In reaction, SQ reacted up by \$50 to \$800 per MT. Confirmation regarding quota enhancement is still awaited.
- **Govt has fixed pulses procurement target during Oct-Sep-2019-20 at 1125777 MT.** Out of total moong target has been fixed at 344654 MT, urad at 235550 MT and tur at 545573 MT. Nafed and other agencies have procured 82006.69 MT moong so far. The highest contributor is Rajasthan where 66151.17 MT moong has been procured. Second and the third highest contributors are Karnataka and Telangana where 5874 MT has been procured so far. As arrival remains slow, procurement pace too is slower.

Previous Update:

- **Indian farmers have covered 105.16 lakh ha area under pulses against 111.90 lakh ha** last year as on 06 Dec-2019. Normal area under rabi pulses is 146 lakh ha. Area under gram is lagging behind by 6.23 % to 71.77 lakh ha against 76.54 lakh ha last year. Lentils area was recorded at 12.12 lakh ha against 13.53 lakh ha last year till date. Normal area under lentils is 14.19 lakh ha. Even peas area is down by 3.48 % to 7.24 lakh ha against 7.51 lakh ha last year. Normal area under peas is 9.45 lakh ha. However, area under urad increased by 23.12 % to 3.69 lakh ha against 3.0 lakh ha. Normal area under urad is 8.61 lakh ha. Moong area was registered at 1.09 lakh ha as on 6th Dec-2019. Normal area under rabi moong is 10.10 lakh ha.
- **Chana recovered slightly as area is still lagging and Nafed has yet to decide at which price it would accept chana bids for bulk sale.** Now three months is left and if it sells 9 lakh MT in next three months, supply side would remain at ease. So any spike in chana market is unlikely at this point of time. It may continue to trade in the range of Rs 4400-4650 in December under prevailing condition.
- **Urad cash market lends support due to non-clearance of imported stock at ports** like Kolkata, Mumbai and Chennai. Stockiest too restricted selling. Demand is normal. Prices may move further up if Nafed delays release of urad from central pool stock. Nafed has around 2 lakh MT stock and may restrict uptrend by releasing it. Kharif crop size is lower by 30 to 35%. However, rabi sowing is on right track. Quota of import might be increased if prices continue to move up.
- **Tur crop condition is good and new arrival commenced in parts of M.P. and U.P. and is expected from Gulberga** by the end of this month. Private trades have started offloading stock and pressure is seen on the cash market right now. Any spike in cash tur market is unlikely as G2G import continues. Besides, central pool stock is said to be around 8 lakh MT, sufficient to meet the current demand. In Gulberga market tur is being traded at Rs 5350-5450 per qtl. As there is delay in procurement drive, pressure may continue on tur market.
- **Moong procurement is on and it remains supportive to moong market.** However, millers are unwilling to buy at higher level as they have fears that govt would release stock below MSP in the first quarter of new year. In Jaipur market moong is being traded at Rs 6600-6800 per qtl. In south Indian market it traded at Rs 6400-6800 per qtl. Steady tone may prevail in moong market.

- **Masur imported from Canada and US from Tuticorin was found mixed with foreign matters.** The custom officials from port declined to give clearance on the above ground. After request to Agriculture ministry for clearance by pulses import association it has issued order for clearance with some condition only for this consignment. This relaxation would be applicable on purchase bill till 24, October-2019 or before it. Some condition would be applicable too on it. These consignments have to go through cleaning at warehouse suggested by customs officials. It would be under official surveillance. It would be released after full satisfaction of the official. The cost incurred in this process would be borne by importers.

International Market Update:

- **Turkey import volume for lentils from Canada improved in the month of Oct-2019.** It has imported 25211 MT from Canada, 20440 Mt from Kazakhstan and 1627 MT from Russia. Total import by Turkey in Oct was registered at 48783 MT. Total import for Turkey touched at 274,328 MT in this calendar year. It is down by 7% from last year till Oct-2019.
- **Despite lower export volume for lentils from Canada in Oct overall export volume from Canada increased by 14% to 518,626 MYT during ongoing MY.** In Oct Canada exported total 131,325 MT, down from 272,705 MT in Sep. India purchased 32240 MT from Canada in Oct besides other sources. For Nov Indian import volume is likely to increase as prices in domestic market have started increasing.
- **As per Canadian Grain Commission Canada has exported 25,500 MT lentils during 18th to 24th Nov-2019.** With this total export quantity in the season to date reached at 247,900 MT against 140,600 MT last season till Nov-2018. Out of total export No-2 Canada lentils contributed 85% while 15% were of other grades. Farmers have delivered 40,600 MT last week. Season to date deliveries now total 534,400 MT, compared to 504,100 during the same period last season.
- **Improved export movement helped to continued firm tone this week too despite higher supply from farmers end and higher stock too from last year.** till 18th Nov-2019, growers had delivered 32% of all peas available on their farms to the bulk handling system, compared to 29% by the same time last year as per market source.
- **Canada pea production is likely to be 30 % higher than last year. The latest estimate has pegged it at 47 lakh MT.** Even lentil production is likely to be higher by 20 % to 25 lakh MT. Chickpeas production would be up by 15% to 2.63 lakh MT this year Dry beans production has been pegged at 3.56 lakh MT, up by 45 from last year.
- **Dry peas production has been pegged at 856163 MT, lentil production at 2.47 lakh MT, total chickpeas production has been pegged at 1.79 lakh MT.** Total pulses production has been pegged at 12.82 lakh MT this year against 15 lakh MT last year. Due to rains generated issues yield has been down this year for all pulses in US.
- **As per the latest updates by Australia Bureau of Statistics chickpeas export from Australia declined in July to 16632 MT against 25805 MT in June-2019.** It is almost 36% down from June. Total export till July was recorded at 275,049 MT, massively down from 671,642 during the last marketing year. Pakistan, B, desh and UAE purchased 4,474 MT, 4,403 MT & 2,455 MT. respectively in July-2019.
- **Dry pea production in Canada is expected to increase by 20 % to 43 lakh MT in comparison to last year.** The reason is attributed to higher area coverage in 2019-20 crop year. The major growing state is Saskatchewan accounting 50 % in total production. Alberta is 2nd major growing state accounting 45% of total production. As carry in stock is lower supply side is expected to increase by only 55 tp 4.5 MMT. Export may decrease to 31 lakh MT. Top buyers might be China, Bangladesh and the US. Carry in stock would increase. Average price is expected to be similar as 2018-19.
- **Chickpeas export from Australia increased by 10 % to 27251 MT in June against May when it was registered at 24719 MT** as per Australia Bureau of Statistics. Thus total export in current MY reached to 259,863 MT (till June) against 646,411 MT in corresponding period last year. B, desh brought 8,463 MT in June, followed by Pakistan at 8,064 MT. UAE purchased 4,991 MT in June.
- **Dry pea stock in US is likely to increase by 0.02 % to 203983 MT in 2019.** It was 199628 MT in 2018. Even lentils stock is expected to be higher by 81% to 144,425 MT in 2019 against 79833 MT in 2018. All chickpeas stock is 294% higher to 157262 MT against 39916 MT in 2018. Out of total small chickpeas stock increase from 12156 to 43318

MT in 2019. It is higher by 256% from last year. Large chickpeas stock is expected to increase by 310% to 113,943 MT in 2019.

- **Lentils production in Canada is likely to increase by 5.16 % to 22 lakh MT in 2019-20** against 20.92 lakh MT last year. However, total supply would decrease by 3.14 % to 28.95 lakh MT due to higher domestic use pegged at almost 6 lakh MT. Carryout would decrease from 7 to 5 lakh MT in 2019-20. Export has been pegged at 18 lakh MT, similar as last year. Average yearly lentil price is expected to hover in the range of \$430 to 460 per MT.

Weekly Outlook: -Pulses are likely to trade steady to slightly firm.

Rabi Sowing as 06-12-2019:

Rabi Pulses Progressive Sowing Area Coverage Till 06.12.2019 (Area in Lakh Ha)
