Last year as on 27<sup>th</sup> Dec-2019. Lentils area is down by 4.53 % to 15.18 lakh ha. Farmers had covered 15.90 lakh ha last year. Peas area has been reported at 9.08 lakh ha against8.81 lakh ha. Farmers have covered 5.70 lakh ha under urad, down by 2.23 % from last year. Moong area is running down by 16.67% to 2.55 lakh ha. Overall rabi area is up so far.
- Indian importers imported total 2.83 lakh MT pulses in Nov-2019.out of total yellow peas quantity was 74401.71 MT. Green peas quantity was 6384.57 MT.In Nov India imported 49685.34 MT. Urad import was registered at 43978.87 MT.Tur import was registered at 42195.15 MT in Nov-2019.Moong ,Kidney bean and green peas import was limited.
- New crop of tur has started trickling in in markets of Karnataka & Maharashtra and pressure is likely to build from the second week of January. Moisture level in new crop is higher and is expected to decrease from mid –Jan. There is no import at this point of time. Higher arrival may pressurize tur market to a certain extent. However, with procurement drive expected from first week of Jan may support market at lower level. Import license would be issued from April-2020 and it would continue till May. So, crop from Myanmar is expected in June. Quota for tur import for private trade is 4 lakh MT, besides,G2G basis import would continue. So any major spike is unlikely. In Gulberga market tur is being traded at Rs 5400-5450.In jan market is likely to trade in the range of Rs 5200-5700.Govt has fixed tur procurement target at 545573 MT.

#### **Previous Update:**

- Lentils cash market traded up taking clue from firm international market and 7.26% lower area coverage in local market. Farmers in India have covered 11.49 lakh ha against 15.62 lakh ha last year so far. With improving demand in domestic market and restricted selling by local stockiest have started pushing up cash market price. It may move further towards MSP level as new crop is still two months away from now. Even importers have started quoting higher price at ports. Govt. has not changed its import policy and import would continue at 30% (applicable 33%) import duty. As B, desh, Pakistan and Nepal are buying aggressively amid active buying by Indian importers, lentils price in global market is bound to go up. It would lend support domestic market too.
- Restriction continues on peas import at 1.5 lakh MT and import is possible now only through Kolkata port.So prices of peas moved up and it supported chana market too. New crop is almost two and a half months away. Import volume is limited. So supply in the rest of the month is possible through central pool. Nafed has plan to sell 6 lakh MT chana during Jan and Feb. Consumption is expected to be 16 lakh MT by Feb end. Even private trades too would prefer to release their stock during the period. It is expected to be around 5 to6lakh MT. So total supply would be around 12 lakh MT, excluding reserve stock of 10 lakh MT held in central pool. It would support chana market to some extent in coming weeks. In Delhi market it may trade at Rs 4500-4700.Even futures too trades firm. It would not move beyond MSP as area is bound to cross 105 lakh ha this year as bumper crop seems very much on the card.
- Chana market recovered on mills fresh buying interest and traded at Rs 4500-4550 in Delhi market. Uptrend is unlikely to continue as area coverage is increasing and weather remains favorable for the crop. Besides, Nafed has to sell 6 lakh MT in Jan and Feb.It would not allow market to move beyond Rs4650-4750. At this level private trades too would offload their stock as new crop would start hitting the market by end Feb.
- Clearing all gossips over urad import quota running into the market the DGFT has issued notification of increasing import quota from 1.5 lakh MT to 4.0 lakh MT for a year. Almost 1.5 lakh MT has already been imported

**AGRIWATCH** 

and 1.5 to2 lakh MT is expected now in Jan,, Feb and Mar-2020.Immediate import is not possible. It would take atleast one month time from registration to striking deal and shipping it into India. However, this decision would impact urad cash market and stockiest may prefer to offload stock now. Cash market has already decreased by Rs300 and it would decrease further by 300-400 per qtl.in coming weeks. At higher level demand for dal is weak right now. Availability of green vegetable is higher. So pressure may continue to urad market. Urad in Mumbai market traded at Rs 7000-7100 and may decrease to Rs 6500-6600.In Chennai market it is being offered at Rs 7500and SQ at Rs8050 per qtl.

• Central govt has allocated 8.47 lakh MT pulses on subsidized rates to various states. Under this allocation 3.2lakhMT tur,2 lakh MT urad,1.2 lakh MT chana,1.5 lakh MT mung and 0.57 lakh MT masur have been offered. It may have a cooling impact of cash pulses market.

The major growing state is Saskatchewan accounting 50 % in total production. Alberta is 2nd major growing state accounting 45% of total production. As carry in stock is lower supply side is expected to increase by only 55 tp 4.5 MMT .Export may decrease to 31 lakh MT. Top buyers might be China, Bangladesh and the US.
