

Pulses Domestic Fundamentals:

Today's Update:

- *There is a short supply of quality moong in cash market. Nafed's decision to sell old crop* has soothing impact on cash market. Demand is awaited. Rajasthan Govt is selling old moong through NCDEX. Over 3000 MT good quality moong in moong in Rajasthan.. Tender bid in Karnataka has been passed at Rs7758.Overall tone seems firm. If tender bids are passed around, steady tone may prevail for short term. In Jaipur market moong traded at Rs 7600-7700 again. Any big spike is unlikely at this point of time.
- **Chana cash and future market improved slightly and moved up by Rs60-75 per qtl. However,** it is unlikely to sustain at higher level as bumper crops at hand and Nafed has to sell old stock.New crop in AP, Tamil Nadu is nearing maturity and would start hitting the market soon. Crop condition in other states is good. So, it is good to sell stock at higher level. Market would decrease again.
- **For capping price in cash market and ensure higher availability Nafed has decided to sell** Moong and Urad in the State of Madhya Pradesh, Rajasthan, Andhra Pradesh, Telangana, Gujarat, Karnataka, Tamil Nadu, Haryana. It was procured under price support scheme from today. Details of quantity and locations can be viewed at tender on the site.It may pressurize cash market to some extent in coming weeks.
- **Indian farmers have covered 61.17 lakh ha, up by 6.19 % from last year (151.78 lakh ha)**as on 31.01.2020..Farmers have covered 11.45 % higher area under chana to 107.21lakh ha against 96.19 lakh ha. Lentils area is down by 4.98 % to 16.07 lakh ha. Farmers had covered 16.91 lakh ha last year. Pea's area has been reported at 9.64 lakh ha against 10.46 lakh ha. Farmers have covered 7.63 lakh ha under urad, up by 1.35 % against 7.53 lakh ha last year. Moong area is running up by 1.35 % to 6.19 lakh ha. Normal area under moong is 10.10 lakh ha. Kulthi and other rabi pulses area too is running down by 5.07 and 1.76% so far. Lathyrus area is up by 6.88% to 3.31 lakh ha. Overall, rabi area is up by 6.19 % so far. Rabi season is now about to over, especially chana, masur and peas. Moong and urad sowing would continue till Feb end
- **Masur cash market traded steady in domestic market despite weak global market. New crop** is expected in end Feb/March. Sowing delayed by 20 to 25 days this year, so arrival is expected to be delayed at least by three weeks. At Indian ports flow of masur import is slow and no bulk vessels are expected in next two weeks. It has affected availability at ports .So slight recovery in domestic market is expected before new crop hits the market. In Kanpur market masur is being traded at Rs 4900.In Mumbai container price is being traded at Rs 4900.
- **Crop condition of chana is very good so far and coverage area have crossed 106 lakh ha and** may touch 108-110 lakh ha. As there is good moisture in the field, farmers have used even barren lands for chana. Production is expected to cross 96-97 lakh MT if weather remains favorable. Chana in Delhi market is being traded at Rs 4250-4350 and may decrease further below Rs4000.Nafed has started accepting bid at Rs4100 and it would pressurize market further. Outlook remains weak.
- **Urad cash market traded slightly down as offtake from mills decreased as higher level.** Apart from this millers are waiting for new arrival, expected to start from second –third week of Feb.As prices are ruling at higher level,it would be difficult to procure desired quantity by state agencies. Import is not possible before end March. Govt still has 198431.88 MT urad in stock despite negligible procurement from kharif season. Maximum stock is in MP (134297.62MT).Sale from central pool is likely to commence soon. It would cap any unexpected upsurge in urad market. In Chennai market urad is being traded at Rs 7100-7300.Steady tone may prevail until new crop starts and import commences.

Previous Update:

- **Farmer's registration for tur purchase on MSP in Karnataka started today. Purchase** is likely to commence from 1st Feb-2020 at 6100 per qtl. including bonus of Rs 300per qtl. If govt. starts procuring tur from first week of Feb, arrival in open market may decline and it may support cash market at current level. Recovery is expected to some extent. As of now supply side is ample and arrival is expected to increase in other states too. Govt has planned to

procure around 5.5 lakh MT tur this year on all India basis. With opening of weather moisture level in new tur would decrease.

- **Central govt has allocated 8.47 lakh MT pulses on subsidized rates to various states.** Under this allocation 3.2lakhMT tur,2 lakh MT urad,1.2 lakh MT chana,1.5 lakh MT mung and 0.57 lakh MT masur have been offered. It may have a cooling impact of cash pulses market.

International Market Update:

- **Area coverage under chickpeas in Australia in 2019-20 is expected to decline by 15% to 1.7 lakh ha.** Production has been pegged at 1.7 lakh MT this year, down by 11 % from last year. Decrease in area and production is mainly attributed to lower demand from India and weak price in global market. Slight increase in yield has been seen as mostly chickpeas are grown in central queens land, where weather condition improved in comparison to last year.
- **Production of peas in Canada has been pegged at 42.37 lakh MT in 2019-20 & production forecast for 2020-21 is slightly higher at 43lakh MT.** During the period import would decrease from 70 to 60 thousand MT while export too would decrease from 34 lakh MT to 33 lakh MT in 2020-21. Domestic use would increase slightly from 8.33 to 8.60 lakh MT during the same period. Average price is likely to hinge in the range of \$245-275 per MT, same range as was seen in 2019-20.
- **Production of lentils in Canada has been pegged at 21.67 lakh MT in 2019-20 and for 2020-21 production forecast is slightly higher at 22lakh MT.** Import would decrease from 80 to 50 thousand MT while export too would decrease from 21 to 20 lakh MT in 2020-21. Carryout would decrease from 4.5 to 3.75 lakh MT in 2020-21.
- **Chickpeas production in Canada in 2019-20 has been pegged at 2.52 lakh MT .It would decrease to 2lakh MT in 2020-21.** Average price is expected to hover in the range of 455-485 per MT during 2020-21. Import too would decline from 53 to 50 thousand MT in 2020-21.
- **Commerce ministry of Myanmar has changed exim policy. All importers and exporters have to get registered till 31st Dec-2019.** With this new changes importers and exporters would get new 9 digit digital taxation identification no from 5th Jan-2020. Without new registration no import and export would not be possible. It may delay shipment to some extent.
- **Demand for peas improved from China. It has helped peas price to improve further.** It would push up import parity in India too. Peas production in Canada declined during last two years. However, This year production is up by 18% from last year to 42 lakh MT. Peas import volume in China is expected to cross 18 lakh MT this season. Cattle feed industry is using pea in bulk volume while in India it is used for human consumption.
- **Dry pea stock in US is likely to increase by 0.02 % to 203983 MT in 2019.** It was 199628 MT in 2018. Even lentils stock is expected to be higher by 81% to 144,425 MT in 2019 against 79833 MT in 2018. All chickpeas stock is 294% higher to 157262 MT against 39916 MT in 2018. Out of total small chickpeas stock increase from 12156 to 43318 MT in 2019. It is higher by 256% from last year. Large chickpeas stock is expected to increase by 310% to 113,943 MT in 2019.

Weekly Outlook: -Pulses are likely to trade steady to slightly weak .
