

Pulses Domestic Fundamentals:

Today's Update:

- **Cash moong market is likely to trade firm as there is nominal arrival from major producing regions throughout India except Nagore, Merta and Khatu line.** No new crop seems in near future(not before mid-April). Apart from this no pressure was felt in AP and Gujarat from new crop. With this background moong market is likely to trade firm once demand from mills comes out. Slight correction was seen last week as demand for dhoya decreased at higher level. There is no parity for central and north India from Vijaywara right now. Harvesting of rabi crops is expected to be delayed by 20 days, it would affect summer moong sowing too. Farmers in states like Bihar, Jharkhand and UP sow moong after harvesting rabi crops. It would push up moong price further in coming weeks.
- **Exporting countries like Uzbekistan, Pakistan, Picago, Burma, Australia, Uganda and China** have reduced their area under moong due to import restriction imposed by India. So there is lesser availability of moong in global market too. Right now there is no import parity in India. Under prevailing condition moong may move by Rs 500-600 from current level and cross 8500. New crops due in Gujarat and it would not fulfill requirement of one fortnight.
- **Tur procurement drive started with poor pace this year due to delayed harvesting and** higher moisture level in new crop. As of now 46274.16 MT has been procured against the set target of 5.5 lakh MT. Out of total procurement Telangana tops the list with 34362.75 MT tur procurement, followed by Karnataka procuring 10113.40 MT, AP purchasing 1050.95 MT, MH-668.4 MT and Gujarat 78.65 MT so far. With rising temperature moisture level is likely to come down and the pace of procurement is expected to increase soon.
- **Arrival of Chana in Delhi market was recorded lower. It has decreased from 15-20 to 6-8 motors** in last three days. Rajasthan and MP chana are being quoted at Rs 4250 & 4175 per qtl. It traded up by Rs 75 from previous closing trade. In futures nearby contract may move up to 4100-4150. At this level downward correction might be seen. New crop is hardly one month away while new crop in south India started entering into market in lesser quantity. Pressure might be seen by the end of the month. After this chana from Rajasthan, MP and Maharashtra would start. Crop condition is good and bumper crop seems on the card. So, any spike is unlikely until govt. starts procuring higher quantity on MSP. Excess old crop too is weighing on market fundamentals.

Previous Update:

- **For capping price in cash market and ensure higher availability Nafed has decided to sell** Moong and Urad in the State of Madhya Pradesh, Rajasthan, Andhra Pradesh, Telangana, Gujarat, Karnataka, Tamil Nadu, Haryana. It was procured under price support scheme from today. Details of quantity and locations can be viewed at tender on the site. It may pressurize cash market to some extent in coming weeks.
- **Masur cash market traded steady in domestic market despite weak global market.** New crop is expected in end Feb/March. Sowing delayed by 20 to 25 days this year, so arrival is expected to be delayed at least by three weeks. At Indian ports flow of masur import is slow and no bulk vessels are expected in next two weeks. It has affected availability at ports. So slight recovery in domestic market is expected before new crop hits the market. In Kanpur market masur is being traded at Rs 4900. In Mumbai container price is being traded at Rs 4900.
- **Urad cash market traded slightly down as offtake from mills decreased as higher level.** Apart from this millers are waiting for new arrival, expected to start from second –third week of Feb. As prices are ruling at higher level, it would be difficult to procure desired quantity by state agencies. Import is not possible before end March. Govt still has 198431.88 MT urad in stock despite negligible procurement from kharif season. Maximum stock is in MP (134297.62 MT). Sale from central pool is likely to commence soon. It would cap any unexpected upsurge in urad market. In Chennai market urad is being traded at Rs 7100-7300. Steady tone may prevail until new crop starts and import commences.
- **Central govt has allocated 8.47 lakh MT pulses on subsidized rates to various states.** Under this allocation 3.2 lakh MT tur, 2 lakh MT urad, 1.2 lakh MT chana, 1.5 lakh MT mung and 0.57 lakh MT masur have been offered. It may have a cooling impact of cash pulses market.

International Market Update:

- **The pace of pea exports from France continued to slow in December, according to data from Eurostat and Terres Univia.** Export shipments during the month totaled 17,425 metric tons (MT), down 12% the 19,745 MT shipped the previous month, and down 2% from the 17,855 MT shipped the same month last year. This lifted season to date export shipments to 122,915 MT, up 20% from the 102,545 MT shipped during the same period last season. So far this marketing year, European Union destinations accounted for 97% of all pea exports, compared to 98.5% last season.
- **Movement of lentils from Australia was up significantly, rising compared to the previous month in December,** trade data from Australia Bureau of Statistics reports. Shipments during the month reached 76,395 metric tons (MT), up from 62,178 MT the prior month. This lifted shipments so far during the marketing year to 138,573, up 227% last year. The most recent movement statistics reported Bangladesh was number one importer, buying 31,188 MT. India was the second most important importer receiving 17,623 MT, followed by Sri Lanka at 8,658 MT.
- **As per latest update by Australia Bureau of Statistics Australia exported 76,395 metric tons (MT) lentils in Dec-2019.** It is up from 62,178 MT in Nov-2019. Total shipment in current MY reached at 138,573 MT, it is higher by 227% from last season till Dec-2019. Bangladesh brought 31188 MT, India brought 17623 MT and Sri Lanka purchased 8,658 MT in Dec. Pace of Lentil import is likely to be up in Jan -2020 too, as shipment continues, despite new crop at hands in India
- **Area coverage under chickpeas in Australia in 2019-20 is expected to decline by 15% to 1.7 lakh ha.** Production has been pegged at 1.7 lakh MT this year, down by 11% from last year. Decrease in area and production is mainly attributed to lower demand from India and weak price in global market. Slight increase in yield has been seen as mostly chickpeas are grown in central queens land, where weather condition improved in comparison to last year.
Production of peas in Canada has been pegged at 42.37 lakh MT in 2019-20 & production forecast for 2020-21 is slightly higher at 43 lakh MT. During the period import would decrease from 70 to 60 thousand MT while export too would decrease from 34 lakh MT to 33 lakh MT in 2020-21. Domestic use would increase slightly from 8.33 to 8.60 lakh MT during the same period. Average price is likely to hinge in the range of \$245-275 per MT, same range as was seen in 2019-20.
- **Production of lentils in Canada has been pegged at 21.67 lakh MT in 2019-20 and for 2020-21 production forecast is slightly higher at 22 lakh MT.** Import would decrease from 80 to 50 thousand MT while export too would decrease from 21 to 20 lakh MT in 2020-21. Carryout would decrease from 4.5 to 3.75 lakh MT in 2020-21.
- **Chickpeas production in Canada in 2019-20 has been pegged at 2.52 lakh MT.** It would decrease to 2 lakh MT in 2020-21. Average price is expected to hover in the range of 455-485 per MT during 2020-21. Import too would decline from 53 to 50 thousand MT in 2020-21.
- **Commerce ministry of Myanmar has changed exim policy. All importers and exporters have to get registered till 31st Dec-2019.** With this new changes importers and exporters would get new 9 digit digital taxation identification no from 5th Jan-2020. Without new registration no import and export would not be possible. It may delay shipment to some extent.
- **Demand for peas improved from China. It has helped peas price to improve further.** It would push up import parity in India too. Peas production in Canada declined during last two years. However, This year production is up by 18% from last year to 42 lakh MT. Peas import volume in China is expected to cross 18 lakh MT this season. Cattle feed industry is using pea in bulk volume while in India it is used for human consumption.
- **Dry pea stock in US is likely to increase by 0.02 % to 203,983 MT in 2019.** It was 199,628 MT in 2018. Even lentils stock is expected to be higher by 81% to 144,425 MT in 2019 against 79,833 MT in 2018. All chickpeas stock is 294% higher to 157,262 MT against 39,916 MT in 2018. Out of total small chickpeas stock increase from 12,156 to 43,318 MT in 2019. It is higher by 256% from last year. Large chickpeas stock is expected to increase by 310% to 113,943 MT in 2019.

Weekly Outlook: -Pulses are likely to trade steady to slightly firm.
