

### **Pulses Domestic Fundamentals:**

#### **Today's Update:**

- **Ministry of Commerce and Industry vide Notification dated 17<sup>th</sup> March-2020** has allowed import of urad to an annual quota of 4 lakh MT during the fiscal year 2020-21. The import shall be allowed only to the millers /refiners as per procedure to be notified by DGFT. Importers can apply online.
- **Arrival of chana in Delhi decreased considerably while demand for dal is increasing throughout India.** Current demand is likely to help chana market to recover and it may continue to move up. Nafed has sold 17640MT chana minimum at Rs3771 per qtl. Some losses have been reported in U.P., M.P., and Rajasthan. However, the overall loss is not enough to affect the final size of the crop. Despite current loss crop will be over 100lakhMT. Consumer are shifting from non veg to veg now due to spread of covid-19. It will push up demand for all pulses.
- **The Cabinet Committee on Economic Affairs, chaired by Prime Minister has given its approval** for introducing the Scheme for Remission of Duties and Taxes on Exported Products (RoDTEP) under which a mechanism would be created for reimbursement of taxes duties/ levies, at the central, state and local level, which are currently not being refunded under any other mechanism, but which are incurred in the process of manufacture and distribution of exported products. This scheme is going to give a boost to the domestic industry and Indian exports providing a level playing field for Indian producers in the International market so that domestic taxes/duties are not exported.

#### **Previous Update:**

- **Masur harvesting started and it has pick up momentum with opening of weather in MP and Uttar Pradesh.** However, some losses have been reported due to hailstorm in some particular region of MP and UP. Loss is considered to be nominal. This year masur production has been pegged at 13.5 lakh MT. It may decrease to 13.25 lakhMT. As new arrival started, prices are decreasing continuously. It may come down to Rs4400-4500 in peak arrival season. Stockiest are releasing old stock. Nafed has around 21000 MT old stock. This year around 1.75 lakh MT might be procured on MSP. Procurement is expected from 1st of April. Import continues. So overall trend seems weak.
- **Jayed sowing of moong/urad began 15days earlier in M.P. and U.P. Farmers** are increasing urad area in comparison to moong this year. As farmers are using 20% moong area for urad, moong area in MP and Raj may decrease by 15 to 20 % this year. As moong sowing is early by 20 days, it would hit market 20days early too in both states. Almost 70% sowing in major area is over now.
- **Myanmar is offering lemon tur at \$565 and old at \$550 per MT basis Indian ports. With decreasing arrivals** in Indian markets quotes have increased by \$35 in last two days. Urad FAQ and Urad SQ were quoted at \$700 & 780 per MT at Indian ports. Chana Kabuli V2 was quoted at \$670 per MT. Moong Pokaku was quoted at \$900, Annaseva at \$940 and Pediseva at \$1020 per MT. Rajma was quoted at \$980 per MT.
- **Bad weather condition and hailstorm in parts of central and North India have affected standing crops** and loss is being assessed. There is a report of loss of rabi crops. Overall, loss is considered to be normal as it is seen every year. Weather is likely to open up again and harvesting activities would pick up from next week again. Arrivals in various markets remain disrupted.
- **Expectation of higher chana production this year, higher carry out and commencement** of arrival in south India and in some parts of MP have started weighing on market fundamental. Besides, Nafed selling chana at Rs 3950 in Rajasthan and Rs 3900 per qtl in MP have increased pressure further on chana cash market. Ahead of bumper crop futures too is trading weak. Procurement target for bigger states like MP & MH is yet awaited. It has been set at 9,24,456 MT for states like Gujarat, Rajasthan, Telangana, Karnataka and AP. Total 6,15,750MT would be procured in Rajasthan while it has been fixed at 143,30MT for Karnataka. For Gujarat target is 57,248 MT, it is 47,600MT for Telangana. AP would procure 60,468 MT this year. If 20-21 lakh MT is procured in MP and MH, total figure seems close to be 30 lakh MT. Production is likely to exceed 100 lakh MT.
- **Time line for additional 2.5 lakh MT urad import quota has been extended now from 31st March-2020 to 30 April-2020 now.** It means import should arrive at Indian ports on or before 30th April-2020. Instructions regarding this to

all license holders have been given to complete import by 30 April-2020. No request for further extension will be entertained.

### **International Market Update:**

- **As per the latest Australian Bureau of Statistics Chickpeas export volume from Australia** increased in Jan-2020 in comparison to Dec-2019. In January -2020, Australia exported 56,502 MT, up 2% from 55,296 the previous month. Bangladesh purchased 36,801 MT. Pakistan was the second most important importer taking 13,073 MT, followed by United Arab Emirates at 3,939 MT.
- **Global lentils market traded weak during review week as import demand** weakened due to seasonal slow down. Weak Canadian \$ gave exporters some room to adjust prices and attract some fresh demand. It helped exporters to generate some demand for No 1 Canada large green lentils, No 2 Canada and Extra 3 Canada product.
- **Covid-19 impact is now being seen on global pulses market. The direct impact was seen** with the cancellation of the Global Pulse Confederation's conference in April in Dubai. The normal trade in international market too is being affected indirectly now. Consumption of pulses in other countries may decrease for a short term. If it is not contained world over, pulses market may face serious trouble. However, against it consumption of pulses in India may increase as people here are diverting from non-veg to pulses.
- **As per latest report by The Canadian Grain Commission Canada has exported 1,382,600 MT peas** in ongoing MY so far till Jan-2020. It is up by 45% from last year till Jan 2019. In Jan alone, total 1,34,300 MT has been exported. Canada has exported 1,036,800 MT last year till January-2019.
- **Pulses import in Pakistan increased by 7.16 % to 6.37 lakh MT during July to Jan 2019-20.** It was 5.94 lakh MT last year during the same period. As per Pakistan Bureau of Statistics Pakistan imported pulses worth of \$311.76 million in 2019-20 against \$324.39 million in 2018-19. Pakistan imported 64,722 MT pulses in Jan-2020 against 68,847 MT in Jan-2019.
- **Global field peas market traded weak as concerns regarding demand from China and India** are increasing due to good rabi production prospects in India and spread of Corona virus in China. Export import from China is almost halted due to fear India too would not be a buyer even in March-2020. Area of chickpeas is higher and production in India would cross 100 lakh MT this year if weather condition during rest of Feb and March remains favorable. Even lentils production prospects seem good this year in India. All these factors have pressurized global market. Overall, tone remains weak.
- **Global Lentils market continued to trade weak due to slowing down of seasonal demand.** Despite slower demand export movement during MY 2019-20 has been up by 11.4% to 8.1 lakh MT. US exported around 1.27 lakh MT masur during the same period. As demand pace is lower right now, any improvement in price is unlikely.
- **The pace of pea exports from France continued to slow in December, according to data** from Eurostat and Terres Univia. Export shipments during the month totaled 17,425 metric tons (MT), down 12% the 19,745 MT shipped the previous month, and down 2% from the 17,855 MT shipped the same month last year. This lifted season to date export shipments to 122,915 MT, up 20% from the 102,545 MT shipped during the same period last season. So far this marketing year, European Union destinations accounted for 97% of all pea exports, compared to 98.5% last season.
- **Movement of lentils from Australia was up significantly, rising compared to the previous month in December,** trade data from Australia Bureau of Statistics reports. Shipments during the month reached 76,395 metric tons (MT), up from 62,178 MT the prior month. This lifted shipments so far during the marketing year to 138,573, up 227% last year. The most recent movement statistics reported Bangladesh was number one importer, buying 31,188 MT. India was the second most important importer receiving 17,623 MT, followed by Sri Lanka at 8,658 MT.
- **As per latest update by Australia Bureau of Statistics Australia exported 76,395 metric tons (MT) lentils** in Dec-2019. It is up from 62,178 MT in Nov-2019. Total shipment in current MY reached at 138,573 MT, it is higher by 227% from last season till Dec-2019. Bangladesh brought 31,188 MT, India brought 17,623 MT and Sri Lanka purchased 8,658 MT in Dec. Pace of Lentil import is likely to be up in Jan -2020 too, as shipment continues, despite new crop at hand in India.

- **Production of peas in Canada has been pegged at 42.37 lakh MT in 2019-20 & production forecast for 2020-21 is slightly higher at 43lakh MT.** During the period import would decrease from 70 to 60 thousand MT while export too would decrease from 34 lakh MT to 33 lakh MT in 2020-21. Domestic use would increase slightly from 8.33 to 8.60 lakh MT during the same period. Average price is likely to hinge in the range of \$245-275 per MT, same range as was seen in 2019-20.
- **Production of lentils in Canada has been pegged at 21.67 lakh MT in 2019-20 and for 2020-21 production forecast is slightly higher at 22 lakh MT.** Import would decrease from 80 to 50 thousand MT while export too would decrease from 21 to 20 lakh MT in 2020-21. Carryout would decrease from 4.5 to 3.75 lakh MT in 2020-21.
- **Chickpeas production in Canada in 2019-20 has been pegged at 2.52 lakh MT .It would decrease to 2 lakh MT in 2020-21.** Average price is expected to hover in the range of 455-485 per MT during 2020-21. Import too would decline from 53 to 50 thousand MT in 2020-21.
- **Dry pea stock in US is likely to increase by 0.02 % to 203983 MT in 2019.** It was 199628 MT in 2018. Even lentils stock is expected to be higher by 81% to 144,425 MT in 2019 against 79833 MT in 2018. All chickpeas stock is 294% higher to 157262 MT against 39916 MT in 2018. Out of total small chickpeas stock increase from 12156 to 43318 MT in 2019. It is higher by 256% from last year. Large chickpeas stock is expected to increase by 310% to 113,943 MT in 2019.

**Weekly Outlook: -Pulses are likely to trade mixed.**

**Rabi Sowing as 31-01-2020:**

Rabi Pulses Progressive Sowing Area Coverage Till 31.01.2020 ( Area in Lakh Ha)
