

Pulses Domestic Fundamentals:

Today's Update

- **Govt. has green signaled for commencing procurement of chana & masur in 13 states.** It has allocated Rs1250 crore to start buying with immediate effects. Now approval for procurement from center is not essential and upto 25% pulses can be procured out of total production in the states. Pulses procurement drive would be executed through various states schemes including PM Asha Yojna too. The allocated amount would be used in Assam, Bihar, Chhattisgarh, Himanchal Pradesh, Jharkhand, Kerala Odisha, Punjab, Rajasthan, Tamil Nadu, Uttarakhand and W. Bengal. Major states like MH, UP And MP are not included in it. Total 2.58 lakh MT would be procured in 13 states.
- **Nafed has tied up with dal mills for supplying raw materials and increasing processing activities.** It would ensure ample supply in physical markets. Tight supply side is likely to be eased within a week time. Other necessary action is being taken by govt. to smoothen entire value chain. Govt. has already decided to supply 1kg per beneficiary of processed dal to millions of consumers over the next three months. .Notably, Nafed still has 2MMT pulses in its godowns. Actually, after lockdown markets started facing labour problems, unavailability of transport. It directly affected supply of raw material to the mills.

Previous Update:

- **The govt has fixed pulses import quota at 13.4 lakh MT for current fiscal year, starting from April-2020.** A circular regarding this has been issued on 28th March-2020. Under the provision of this circular a quota of 4 lakh MT was fixed for tur, 1.5 lakh MT (each) for moong and peas, quota for urad has been fixed at 4 lakh MT while import through govt channel would be 2.4 lakh MT. It brings total import at 13.4 lakh MT. Besides, private trades would import 1 mt per year of red lentils, 0.2 mt including red kidney beans and white chickpea through an open general license (OGL). If we include illegal inflow of peas/lentils, the import volume in 2020-21 would be around 30 lakh MT. It would not support pulses market in the first half of the new financial year.
- **Market sources say that urad stock in Myanmar is around 3.5 lakh MT. Out of this old stock** is said to be around 50,000 MT. Exporters in Myanmar are unwilling to sell urad at lower price as they are well aware of 4 lakh MT import quota approved by India for MY 2020-21. Vessels are expected by the third week of this month, coming from Myanmar via Singapore. As demand for India is higher than availability in Myanmar, price of urad is unlikely to decrease from current level. Under prevailing condition urad may trade steady to slightly firm.
- **Lockdown in India for three weeks, starting from the last week of March has halted almost all trading/procurement activities** and people involved in commodity trading remain totally isolated from their trading activities. As there is no trade, there is no price available in the market. Spread of covid-19 and its preventive measure like lockdown has weakened inner tone in the market. Govt would supply 1kg pulses per card /per family free of cost for next three months. It would cap demand in local market. Even if lockdown is relaxed after 15th April, market is unlikely to improve.
- **Lentils market is likely to trade steady to slightly weak as lockdown has affected normal trading activities from mills.** Demand remains capped as consumers are out of the market. However, govt. has allowed harvesting and it would continue now. But at procurement front, it would be difficult to commence it from the first week of April. Govt would procure around 1.21 lakh MT masur this year in MP, UP and West Bengal. Market expects it from 2nd fortnight of April, if lockdown is relaxed. As movement of pulses remains affected, unstable movement in market seems very much in the sight. Mixed tone is expected. Govt.s distribution/procurement policy would be a major price driving factor in coming weeks.

Previous Update:

- **Finance Minister has announced 5 kg of wheat or rice and one kg of preferred pulses free-of-cost every month for the next three months for 80 crore poor across the country to deal with the economic impact of the lockdown amid coronavirus outbreak.** Besides 20.5 crore women Jan Dhan Account holders will get Rs 500 per month for next three

months to run their households. Apart from this the government will front-load Rs 2,000 payment to farmers in the first week of April under the existing PM Kisan Yojana to benefit 8.69 crore farmers under Rs 1.70 lakh crore Gram in Kalyan Package.

- **Ministry of Commerce and Industry vide Notification dated 17th March-2020 has allowed import of urad to an annual quota of 4 lakh MT during the fiscal year 2020-21.** The import shall be allowed only to the millers /refiners as per procedure to be notified by DGFT. Importers can apply online.
- **Jayed sowing of moong/urad began 15 days earlier in M.P. and U.P.** Farmers are increasing urad area in comparison to moong this year. As farmers are using 20% moong area for urad, moong area in MP and Raj may decrease by 15 to 20 % this year. As moong sowing is early by 20 days, it would hit market 20 days early too in both states. Almost 70% sowing in major area is over now.
- **Time line for additional 2.5 lakh MT urad import quota has been extended now from 31st March-2020 to 30 April-2020 now.** It means import should arrive at Indian ports on or before 30th April-2020. Instructions regarding this to all license holders have been given to complete import by 30 April-2020. No request for further extension will be entertained.

International Market Update:

- **As per the latest Australian Bureau of Statistics Chickpeas export volume from Australia increased in Jan-2020 in comparison to Dec-2019.** In January -2020, Australia exported 56,502 MT, up 2% from 55,296 the previous month. Bangladesh purchased 36,801 MT. Pakistan was the second most important importer taking 13,073 MT, followed by United Arab Emirates at 3,939 MT.
- **Global lentils market traded weak during review week as import demand weakened due to seasonal slow down.** Weak Canadian \$ gave exporters some room to adjust prices and attract some fresh demand. It helped exporters to generate some demand for No 1 Canada large green lentils, No 2 Canada and Extra 3 Canada product.
- **Covid-19 impact is now being seen on global pulses market. The direct impact was seen with the cancellation of the Global Pulse Confederation's conference in April in Dubai.** The normal trade in international market too is being affected indirectly now. Consumption of pulses in other countries may decrease for a short term. If it is not contained world over, pulses market may face serious trouble. However, against it consumption of pulses in India may increase as people here are diverting from non-veg to pulses.
- **As per latest report by The Canadian Grain Commission Canada has exported 1,382,600 MT peas in ongoing MY so far till Jan-2020.** It is up by 45% from last year till Jan 2019. In Jan alone, total 1,34,300 MT has been exported. Canada has exported 1,036,800 MT last year till January-2019.
- **Pulses import in Pakistan increased by 7.16 % to 6.37 lakh MT during July to Jan 2019-20.** It was 5.94 lakh MT last year during the same period. As per Pakistan Bureau of Statistics Pakistan imported pulses worth of \$311.76 million in 2019-20 against \$324.39 million in 2018-19. Pakistan imported 64,722 MT pulses in Jan-2020 against 68,847 MT in Jan-2019.
- **Global field peas market traded weak as concerns regarding demand from China and India are increasing due to good rabi production prospects in India and spread of Corona virus in China.** Export import from China is almost halted due to fear India too would not be a buyer even in March-2020. Area of chickpeas is higher and production in India would cross 100 lakh MT this year if weather condition during rest of Feb and March remains favorable. Even lentils production prospects seems good this year in India. All these factors have pressurized global market. Overall, tone remains weak.
- **Global Lentils market continued to trade weak due to slowing down of seasonal demand.** Despite slower demand export movement during MY 2019-20 has been up by 11.4% to 8.1 lakh MT. US exported around 1.27 lakh MT masur during the same period. As demand pace is lower right now, any improvement in price is unlikely.
- **The pace of pea exports from France continued to slow in December, according to data from Eurostat and Terres Univia.** Export shipments during the month totaled 17,425 metric tons (MT), down 12% the 19,745 MT shipped the previous month, and down 2% from the 17,855 MT shipped the same month last year. This lifted season to date export

shipments to 122,915 MT, up 20% from the 102,545 MT shipped during the same period last season. So far this marketing year, European Union destinations accounted for 97% of all pea exports, compared to 98.5% last season.

- **Movement of lentils from Australia was up significantly, rising compared to the previous month in December**, trade data from Australia Bureau of Statistics reports. Shipments during the month reached 76,395 metric tons (MT), up from 62,178 MT the prior month. This lifted shipments so far during the marketing year to 138,573, up 227% last year. The most recent movement statistics reported Bangladesh was number one importer, buying 31,188 MT. India was the second most important importer receiving 17,623 MT, followed by Sri Lanka at 8,658 MT.
- **As per latest update by Australia Bureau of Statistics Australia exported 76,395 metric tons (MT) lentils in Dec-2019.** It is up from 62,178 MT in Nov-2019. Total shipment in current MY reached at 138,573 MT, it is higher by 227% from last season till Dec-2019. Bangladesh brought 31,188 MT, India brought 17,623 MT and Sri Lanka purchased 8,658 MT in Dec. Pace of Lentil import is likely to be up in Jan -2020 too, as shipment continues, despite new crop at hands in India
- **Production of peas in Canada has been pegged at 42.37 lakh MT in 2019-20 & production forecast for 2020-21 is slightly higher at 43 lakh MT.** During the period import would decrease from 70 to 60 thousand MT while export too would decrease from 34 lakh MT to 33 lakh MT in 2020-21. Domestic use would increase slightly from 8.33 to 8.60 lakh MT during the same period. Average price is likely to hinge in the range of \$245-275 per MT, same range as was seen in 2019-20.
- **Production of lentils in Canada has been pegged at 21.67 lakh MT in 2019-20 and for 2020-21 production forecast is slightly higher at 22 lakh MT.** Import would decrease from 80 to 50 thousand MT while export too would decrease from 21 to 20 lakh MT in 2020-21. Carryout would decrease from 4.5 to 3.75 lakh MT in 2020-21.
- **Chickpeas production in Canada in 2019-20 has been pegged at 2.52 lakh MT.** It would decrease to 2 lakh MT in 2020-21. Average price is expected to hover in the range of 455-485 per MT during 2020-21. Import too would decline from 53 to 50 thousand MT in 2020-21.
- **Dry pea stock in US is likely to increase by 0.02 % to 203,983 MT in 2019.** It was 199,628 MT in 2018. Even lentils stock is expected to be higher by 81% to 144,425 MT in 2019 against 79,833 MT in 2018. All chickpeas stock is 294% higher to 157,262 MT against 39,916 MT in 2018. Out of total small chickpeas stock increase from 12,156 to 43,318 MT in 2019. It is higher by 256% from last year. Large chickpeas stock is expected to increase by 310% to 113,943 MT in 2019.

Weekly Outlook: -Pulses are likely to trade mixed.
