

## **Pulses Domestic Fundamentals:**

### **Today's Update:**

- ***After a comprehensive review, and in view of the Lockdown measures having led to significant gains in the COVID-19 situation in the country, Ministry of Home Affairs (MHA), Government of India (GoI) issued an Order under the Disaster Management Act, 2005, today, to further extend the Lockdown for a further period of two weeks beyond May 4, 2020.***
- ***New arrival from Jayed moong in MP continued and pressure is likely to build up from mid-May. Around 300 bags were reported in Khirkiya market, while arrival in Harsud and Chhennera region in too was increasing. Quality of moong is good. It was traded at Rs8700-8890 per qtl., depending on quality. During initial phase of lock down, demand was good, but now it has decreased considerably amid increasing pressure of new arrival. Peak arrival is expected between 15 to 30 th May and so prices of moong are expected to decrease. Jayed Moong area in Gujarat was 110 % higher to 44547 ha. Arrival of summer moong from Bihar and UP is expected in June Under these condition pressure may be seen on moong price. It may comedown to MSP level.***
- ***Indian urad importers/millers are active in Myanmar. Market sources say that importers have brought 1200/1500 MT urad this week at \$710/720 per MT. There was no purchase for SQ variety. Market sources say that shipment of 12000- 13,000 MT may set for India after 5th May, anticipating relaxation in lock down. It may reach Chennai port at 15/16th of May. With same quantity vessel may set for India after 10th May, might reach here on 20th May-2020. Notably, higher import is expected as DGFT has increased import timing for 2.5 lakh MT urad from 30th April to 15 th Of May now.. Besides, 4 lakh MT import quota has been given for 2020-21 that may be imported till March-2021. So, supply side would be adequate in coming weeks.***
- ***Govt is trying to start a massive operation for transporting and milling of pulses and its oppression would continue to increase in coming days. Aim .is to distribute 1 kg of pulses to about 20 crore households for three months. Nafed is carrying out this operation that entails lifting of un-milled pulses from the godowns of Central/state warehousing corporations, getting the pulses milled or cleaned as per quality standards prescribed by the FSSAI and then transporting the milled pulses to the states. Each month, 1.96 lakh MT of pulses are required to be distributed to NFSA households in the country through rations shops.***

### **Previous Update:**

- ***Millers are facing shortage of masur as supply chain remains disrupted from producing regions. Stock with mills too is decreasing. Loading of imported stock at ports is unexpectedly lower while availability of old stock is decreasing fast. All these fundamentals supported masur market and it traded at Rs5500-5600 in various markets. At higher level stockiest resorted to offload some stock. So some downward correction was seen too. Under prevailing condition masur cash market may improve once again. As prices are ruling higher than MSP, so govt.s agencies would not be able to procure 1.21 lakh MT, set target for the year.***
- ***Weak upcountry and local demand for tur dal capped uptrend in tur market. Lemon tur in Delhi market was quoted at Rs5400. Dal millers too have started selling by giving discount of Rs100-200 due to sluggish demand. However, demand for desi tur is being fulfilled from Kanpur line. Dal millers from Katni are buying tur from MP line. Lock down too has affected normal demand. Once lockdown is relaxed, tur price may move up again. Sluggish offtake by mills may pressurize tur by Rs 100 from current level. At this level price would stabilize and may move up with fresh bout of demand***
- ***Pulses procurement under price support scheme in rabi season 2020-21 is under way In states like Karnatka, Andhra Pradesh, Telangana, Rajasthan, MH, Uttar Pradesh and Haryana. Nafed and FCI have collectively procured 1.33 lakh MT pulses till the first fortnight of April-2020. Toor procurement is underway in the States of Maharashtra, Tamil Nadu, Gujarat, Andhra Pradesh and Karnataka and Telangana. Total 5.32 lakh MT has been procured so far against set target of 5.45 lakh MT. During lockdown period 29,000 MT has been procured. Masur and gram procurement would beginning soon in MP while in Kota region of Raj it would begin from first week of May.***

- **Lockdown has been extended till 3<sup>rd</sup> May-2020. However, some relaxation might be given to farmers/traders and transportation.** Supply chain is likely to be disrupted for next two-three weeks and it would drive pulses price up in coming days. As maximum markets are not open, prices reflected in some markets don't represent the actual price. Actual price might be seen when lockdown is completely relaxed.
- **Tamil Nadu Govt. is likely to release 30 thousand MT dal/pulses, strangled at ports, soon.** Due to lock down, labour problems and unavailability of transportation made delivery difficult and pulses could not be move out of ports. Now it may release soon.

#### **International Market Update:**

- **As per agri food Canada area seeded under lentils in Canada is expected to remain unchanged at 1.53 Mh,** due to higher expected returns relative to other crops. With higher yields, production is forecast to rise marginally to 2.2 Mt but supply is expected to decrease to 2.6 Mt due to a fall in carry-in stocks. Exports are forecast to be lower at 2.0 Mt. Carry-out stocks are expected to decrease which will be supportive for prices. The average price for all grades is forecast to rise from 2019-20. The USDA March Prospective Planting report showed that US area seeded to lentils is expected to decrease marginally from last year to 0.47 million acres. Area seeded is expected to fall in North Dakota but rise in Montana.
- **As per latest update by NASS, dry pea acreage may be down by 12-13% this year in US** peas producing regions. Farmers may plant total 971,000 acres against 11,03,000 acres last year. Intended plantings are down from a year ago in Idaho, Montana, Nebraska, North Dakota, and South Dakota. However, area in Washington may increase by 19% this year.
- **As per latest update by NASS lentil area may be down by 2-3% this year in US.** Farmers may plant total 474,000 acres in crop year 2020., down 2 percent from 2019. Lower area coverage is expected in Idaho, North Dakota, and Washington from last year, while planting intentions are above last year in Montana (7% increase).
- **Chickpeas area in the US is likely to decrease by 32% from last year. Small chickpea acreage shows a decline of only 5%, while large chickpea acreage is expected to decrease by 41%.** It is really a big surprise this year.
- **As per the latest Australian Bureau of Statistics Chickpeas export volume from Australia increased in Jan-2020 in comparison to Dec-2019.** In January -2020, Australia exported 56,502 MT, up 2% from 55,296 the previous month. Bangladesh purchased 36,801 MT. Pakistan was the second most important importer taking 13,073 MT, followed by United Arab Emirates at 3,939 MT.
- **Global lentils market traded weak during review week as import demand weakened** due to seasonal slow down. Weak Canadian \$ gave exporters some room to adjust prices and attract some fresh demand. It helped exporters to generate some demand for No 1 Canada large green lentils, No 2 Canada and Extra 3 Canada product.
- **As per latest report by The Canadian Grain Commission Canada has exported 1,382,600 MT peas in ongoing MY** so far till Jan-2020. It is up by 45% from last year till Jan 2019. In Jan alone, total 1,34,300 MT has been exported. Canada has exported 1,036,800 MT last year till January-2019.
- **Pulses import in Pakistan increased by 7.16 % to 6.37 lakh MT during July to Jan 2019-20.** It was 5.94 lakh MT last year during the same period. As per Pakistan Bureau of Statistics Pakistan imported pulses worth of \$311.76 million in 2019-20 against \$324.39 million in 2018-19. Pakistan imported 64,722 MT pulses in Jan-2020 against 68,847 MT in Jan-2019.
- **Global field peas market traded weak as concerns regarding demand from China and India are increasing** due to good rabi production prospects in India and spread of Corona virus in China. Export import from China is almost halted due to fear India too would not be a buyer even in March-2020. Area of chickpeas is higher and production in India would cross 100 lakh MT this year if weather condition during rest of Feb and March remains favorable. Even lentils production prospects seems good this year in India. All these factors have pressurized global market. Overall, tone remains weak.
- **As per latest update by Australia Bureau of Statistics Australia exported 76,395 metric tons (MT) lentils in Dec-2019.** It is up from 62,178 MT in Nov-2019. Total shipment in current MY reached at 138,573 MT, it is higher by 227 % from last season till Dec-2019. Bangladesh brought 31,188 MT, India brought 17,623 MT and Sri Lanka purchased 8,658

MT in Dec. Pace of Lentil import is likely to be up in Jan -2020 too, as shipment continues, despite new crop at hands in India

- **Production of peas in Canada has been pegged at 42.37 lakh MT in 2019-20 & production forecast for 2020-21 is slightly higher at 43 lakh MT.** During the period import would decrease from 70 to 60 thousand MT while export too would decrease from 34 lakh MT to 33 lakh MT in 2020-21. Domestic use would increase slightly from 8.33 to 8.60 lakh MT during the same period. Average price is likely to hinge in the range of \$245-275 per MT, same range as was seen in 2019-20.

**Weekly Outlook:** -Pulses are likely to trade mixed.
