

Pulses Domestic Fundamentals:

Today's Update:

- ***The Odisha government has once again extended the deadline for farmers' registration for sale of pulses in 2020-21 Rabi marketing season till May-Food Supplies and Consumer Welfare Minister Ranendra Pratap Swain said. For this the farmers need to submit their Xerox copies of first page of their bank pass book, registration papers of their agricultural fields and Aadhar cards. The Ministry of Agriculture, Cooperation and Farmers Welfare has approved a proposal for procurement of 14,121 tonne of green gram (moong), 5,425 tonnes of peanuts and 8,750 tonnes of sunflower seeds from farmers at minimum support price (MSP) announced for 2020-21 rabi season.***
- ***With increasing arrivals in producing region and likely higher inflow of import at ports amid stockiest selling strategy at higher level pressurized cash masur markets in the beginning of May. As demand is weak, more decline is expected in masur price. Masur in Kanpur market is being traded at Rs 4900 and it may decrease to Rs 4600-4700. At this level procurement would increase and it would lend support to masur market. Govt. would procure 1.21 lakh MT masur on MSP. As supply in the market would increase, steady to weak tone may prevail in May. Nafed still has 24,000 MT old stock and it would be distributed free of cost throughout the country up to June.***

Previous Update:

- ***Rajasthan state govt has imposed 2% purchase/sale tax over and above market fee of 1.5%. It would be collected in the name of Kisan Kalyan sulk traders have started opposing this tax as it would directly hit the farmers and the purpose of this tax is in question mark.***
- ***Disrupted supply at local level and higher price in local markets encouraged millers to buy imported urad in Mumbai and it helped imported urad to trade firm. Demand for urad dal is good but supply of raw material for processing was seen under supplied. However, uptrend is unlikely to continue due to new arrivals of summer crop, expected supply from overseas market within a fortnight and selling by Nafed from central pool stock. Vessels carrying around 14,500MT urad is expected to arrive at Chennai port by the third week of May. However, supply of dal free of cost in domestic market, extended timeline for 2.5 Lakh MT import (15th of May-2020) and commencement of new arrival from summer crop would limit firmness. Import quota for 2020-21 has been fixed at 4 lakh MT.***
- ***After a comprehensive review, and in view of the Lockdown measures having led to significant gains in the COVID-19 situation in the country, Ministry of Home Affairs (MHA), Government of India (GoI) issued an Order under the Disaster Management Act, 2005, today, to further extend the Lockdown for a further period of two weeks beyond May 4, 2020.***
- ***New arrival from Jayed moong in MP continued and pressure is likely to build up from mid-May. Around 300 bags were reported in Khirkiya market, while arrival in Harsud and Chhennera region in too was increasing. Quality of moong is good. It was traded at Rs 8700-8890 per qtl., depending on quality. During initial phase of lock down, demand was good, but now it has decreased considerably amid increasing pressure of new arrival. Peak arrival is expected between 15 to 30 th May and so prices of moong are expected to decrease. Jayed Moong area in Gujarat was 110 % higher to 44547 ha. Arrival of summer moong from Bihar and UP is expected in June Under these condition pressure may be seen on moong price. It may come down to MSP level.***
- ***Govt is trying to start a massive operation for transporting and milling of pulses and its oppression would continue to increase in coming days. Aim .is to distribute 1 kg of pulses to about 20 crore households for three months. Nafed is carrying out this operation that entails lifting of un-milled pulses from the godowns of Central/state warehousing corporations, getting the pulses milled or cleaned as per quality standards prescribed by the FSSAI and then transporting the milled pulses to the states. Each month, 1.96 lakh MT of pulses are required to be distributed to NFSA households in the country through rations shops.***
- ***Tamil Nadu Govt. is likely to release 30 thousand MT dal/pulses, strangled at ports, soon. Due to lock down, labour problems and unavailability of transportation made delivery difficult and pulses could not be move out of ports. Now it may release soon.***

International Market Update:

- ***As per agri food Canada area seeded under lentils in Canada is expected to remain unchanged at 1.53 Mh, due to higher expected returns relative to other crops. With higher yields, production is forecast to rise marginally to 2.2 Mt but supply is expected to decrease to 2.6 Mt due to a fall in carry-in stocks. Exports are forecast to be lower at 2.0 Mt. Carry-out stocks are expected to decrease which will be supportive for prices. The average price for all grades is forecast to rise from 2019-20. The USDA March Prospective Planting report showed that US area seeded to lentils is expected to decrease marginally from last year to 0.47 million acres. Area seeded is expected to fall in North Dakota but rise in Montana.***
- ***As per latest update by NASS, dry pea acreage may be down by 12-13% this year in US peas producing regions. Farmers may plant total 971,000 acres against 11,03,000 acres last year. Intended plantings are down from a year ago in Idaho, Montana, Nebraska, North Dakota, and South Dakota. However, area in Washington may increase by 19% this year.***
- ***As per latest update by NASS lentil area may be down by 2-3% this year in US. Farmers may plant total 474,000 acres in crop year 2020., down 2 percent from 2019. Lower area coverage is expected in Idaho, North Dakota, and Washington from last year, while planting intentions are above last year in Montana (7% increase).***
- ***Chickpeas area in the US is likely to decrease by 32% from last year. Small chickpea acreage shows a decline of only 5%, while large chickpea acreage is expected to decrease by 41%. It is really a big surprise this year.***
- ***As per the latest Australian Bureau of Statistics Chickpeas export volume from Australia increased in Jan-2020 in comparison to Dec-2019. In January -2020, Australia exported 56,502 MT, up 2% from 55,296 the previous month. Bangladesh purchased 36,801 MT. Pakistan was the second most important importer taking 13,073 MT, followed by United Arab Emirates at 3,939 MT.***
- ***Global lentils market traded weak during review week as import demand weakened due to seasonal slow down. Weak Canadian \$ gave exporters some room to adjust prices and attract some fresh demand. It helped exporters to generate some demand for No 1 Canada large green lentils, No 2 Canada and Extra 3 Canada product.***
- ***As per latest report by The Canadian Grain Commission Canada has exported 1,382,600 MT peas in ongoing MY so far till Jan-2020. It is up by 45% from last year till Jan 2019. In Jan alone, total 1,34,300 MT has been exported. Canada has exported 1,036,800 MT last year till January-2019.***
- ***Pulses import in Pakistan increased by 7.16 % to 6.37 lakh MT during July to Jan 2019-20. It was 5.94 lakh MT last year during the same period. As per Pakistan Bureau of Statistics Pakistan imported pulses worth of \$311.76 million in 2019-20 against \$324.39 million in 2018-19. Pakistan imported 64,722 MT pulses in Jan-2020 against 68,847 MT in Jan-2019.***
- ***Global field peas market traded weak as concerns regarding demand from China and India are increasing due to good rabi production prospects in India and spread of Corona virus in China. Export import from China is almost halted due to fear India too would not be a buyer even in March-2020. Area of chickpeas is higher and production in India would cross 100 lakh MT this year if weather condition during rest of Feb and March remains favorable. Even lentils production prospects seem good this year in India. All these factors have pressurized global market. Overall, tone remains weak.***
- ***As per latest update by Australia Bureau of Statistics Australia exported 76,395 metric tons (MT) lentils in Dec-2019. It is up from 62,178 MT in Nov-2019. Total shipment in current MY reached at 138,573 MT, it is higher by 227 % from last season till Dec-2019. Bangladesh brought 31,188 MT, India brought 17,623 MT and Sri Lanka purchased 8,658 MT in Dec. Pace of Lentil import is likely to be up in Jan -2020 too, as shipment continues, despite new crop at hand in India.***
- ***Production of peas in Canada has been pegged at 42.37 lakh MT in 2019-20 & production forecast for 2020-21 is slightly higher at 43 lakh MT. During the period import would decrease from 70 to 60 thousand MT while export too would decrease from 34 lakh MT to 33 lakh MT in 2020-21. Domestic use would increase slightly from 8.33 to 8.60 lakh MT during the same period. Average price is likely to hinge in the range of \$245-275 per MT, same range as was seen in 2019-20.***

Weekly Outlook: -Pulses are likely to trade steady to weak.
