

Pulses Domestic Fundamentals:

Today's Update:

- **DES(Directorate of Economic Statistic) has released 3rd Adv. estimate of foodgrains on 15th May-2020.** It has projected slightly higher production for 2019-20. Total kharif and rabi pulses production has been pegged at 23.01 MMT against 22.08 MMT in 2018-19. Total pulses production target for 2019-20 was set at 26.30 MMT. It is almost 40 lakh MT lower than 2018-19. Tur production has been pegged at 3.75 against set target of 4.6 MMT and 3.32 MMT last year. In case of chana production has been pegged at 10.90 against 11.60 MMT set target and 9.94 MMT production last year. Total kharif and rabi production has been pegged at 8.05 and 14.97 MMT against target of 10.10 & 16.20 MMT.
- **Govt. is ready to amend essential Commodities Act, for products like Cereals, Oilseeds, Pulses, Onion & Potato and it would be deregulated through ordinance soon.** It hints that govt. would not interfere if commodities prices move up. In longer term, it would help commodities prices to improve. It is a good decision.
- **Summer moong from various states started hitting markets now and pressure is likely to build up** in next two weeks if weather remains dry. Some recovery in market was seen due to bad weather generated arrival disruption and it pushed up price by Rs200. With relaxation in lockdown demand for dal may improve and it may push up price again by Rs100-150. However, millers and stockiest would prefer to go slow as arrival is bound to increase. Sowing of summer pulses is almost double this year (from 5.29 to 10.35 lakh ha). So arrival would be much higher this year. Currently new moong from Odisha, Bengal and MP started coming into markets. Old stock is almost over in private hands. Nafed has stock. Right now truck freight is higher and problem of labour still intact. So prices are at higher side. Higher arrival would pressurize moong market. Crop from UP and Bihar too is due.

Previous Update:

- **Due to continuous extension of lockdown deadline for 2.5 lakh MT urad for 2019-20** has been extended from 15th May to 31st May-2020 now. Firstly, it was set at 31st March-2020. It was extended three times and now new deadline has been fixed at 31st May-2020. No further extension would be given for backlog urad import. Importers have enough time to meet the deadline without much issues.
- **The Odisha government has once again extended the deadline for farmers' registration for sale of pulses in 2020-21** Rabi marketing season till May. Food Supplies and Consumer Welfare Minister Ranendra Pratap Swain said. For this the farmers need to submit their Xerox copies of first page of their bank pass book, registration papers of their agricultural fields and Aadhar cards. The Ministry of Agriculture, Cooperation and Farmers Welfare has approved a proposal for procurement of 14,121 tonne of green gram (moong), 5,425 tonnes of peanuts and 8,750 tonnes of sunflower seeds from farmers at minimum support price (MSP) announced for 2020-21 rabi season.
- **With increasing arrivals in producing region and likely higher inflow of import at ports amid stockiest** selling strategy at higher level pressurized cash masur markets in the beginning of May. As demand is weak, more decline is expected in masur price. Masur in Kanpur market is being traded at Rs 4900 and it may decrease to Rs 4600-4700. At this level procurement would increase and it would lend support to masur market. Govt. would procure 1.21 lakh MT masur on MSP. As supply in the market would increase, steady to weak tone may prevail in May. Nafed still has 24,000 MT old stock and it would be distributed free of cost throughout the country up to June.
- **Disrupted supply at local level and higher price in local markets encouraged millers to buy imported urad** in Mumbai and it helped imported urad to trade firm. Demand for urad dal is good but supply of raw material for processing was seen under supplied. However, uptrend is unlikely to continue due to new arrivals of summer crop, expected supply from overseas market within a fortnight and selling by Nafed from central pool stock. Vessels carrying around 14,500 MT urad is expected to arrive at Chennai port by the third week of May. However, supply of dal free of cost in domestic market, extended timeline for 2.5 lakh MT import (15th of May-2020) and commencement of new arrival from summer crop would limit firmness. Import quota for 2020-21 has been fixed at 4 lakh MT.
- **Govt is trying to start a massive operation for transporting and milling of pulses and its oppression** would continue to increase in coming days. Aim is to distribute 1 kg of pulses to about 20 crore households for three months. Nafed

is carrying out this operation that entails lifting of un-milled pulses from the godowns of Central/state warehousing corporations, getting the pulses milled or cleaned as per quality standards prescribed by the FSSAI and then transporting the milled pulses to the states. Each month, 1.96 lakh MT of pulses are required to be distributed to NFSA households in the country through rations shops.

- **Tamil Nadu Govt. is likely to release 30 thousand MT dal/pulses, strangled at ports, soon.** Due to lock down, labour problems and unavailability of transportation made delivery difficult and pulses could not be move out of ports. Now it may release soon.

International Market Update:

- **As per agri food Canada area seeded under lentils in Canada is expected to remain unchanged at 1.53 Mh,** due to higher expected returns relative to other crops. With higher yields, production is forecast to rise marginally to 2.2 Mt but supply is expected to decrease to 2.6 Mt due to a fall in carry-in stocks. Exports are forecast to be lower at 2.0 Mt. Carry-out stocks are expected to decrease which will be supportive for prices. The average price for all grades is forecast to rise from 2019-20. The USDA March Prospective Planting report showed that US area seeded to lentils is expected to decrease marginally from last year to 0.47 million acres. Area seeded is expected to fall in North Dakota but rise in Montana.
- **As per latest update by NASS, dry pea acreage may be down by 12-13% this year in US** peas producing regions. Farmers may plant total 971,000 acres against 11,03,000 acres last year. Intended plantings are down from a year ago in Idaho, Montana, Nebraska, North Dakota, and South Dakota. However, area in Washington may increase by 19% this year.
- **As per latest update by NASS lentil area may be down by 2-3% this year in US.** Farmers may plant total 474,000 acres in crop year 2020., down 2 percent from 2019. Lower area coverage is expected in Idaho, North Dakota, and Washington from last year, while planting intentions are above last year in Montana (7% increase).
- **Chickpeas area in the US is likely to decrease by 32% from last year. Small chickpea acreage shows** a decline of only 5%, while large chickpea acreage is expected to decrease by 41%. It is really a big surprise this year.
- **As per the latest Australian Bureau of Statistics Chickpeas export volume from Australia** increased in Jan-2020 in comparison to Dec-2019. In January -2020, Australia exported 56,502 MT, up 2% from 55,296 the previous month. Bangladesh purchased 36,801 MT. Pakistan was the second most important importer taking 13,073 MT, followed by United Arab Emirates at 3,939 MT.
- **Global lentils market traded weak during review week as import demand** weakened due to seasonal slowdown. Weak Canadian \$ gave exporters some room to adjust prices and attract some fresh demand. It helped exporters to generate some demand for No 1 Canada large green lentils, No 2 Canada and Extra 3 Canada product.
- **As per latest report by The Canadian Grain Commission Canada has exported 1,382,600 MT** peas in ongoing MY so far till Jan-2020. It is up by 45% from last year till Jan 2019. In Jan alone, total 1,34,300 MT has been exported. Canada has exported 1,036,800 MT last year till January-2019.
- **Pulses import in Pakistan increased by 7.16 % to 6.37 lakh MT during July to Jan 2019-20.** It was 5.94 lakh MT last year during the same period. As per Pakistan Bureau of Statistics Pakistan imported pulses worth of \$311.76 million in 2019-20 against \$324.39 million in 2018-19. Pakistan imported 64,722 MT pulses in Jan-2020 against 68,847 MT in Jan-2019.
- **Global field peas market traded weak as concerns regarding demand from China and India** are increasing due to good rabi production prospects in India and spread of Corona virus in China. Export import from China is almost halted due to fear India too would not be a buyer even in March-2020. Area of chickpeas is higher and production in India would cross 100 lakh MT this year if weather condition during rest of Feb and March remains favorable. Even lentils production prospects seem good this year in India. All these factors have pressurized global market. Overall, tone remains weak.
- **As per latest update by Australia Bureau of Statistics Australia exported 76,395 metric tons (MT) lentils** in Dec-2019. It is up from 62,178 MT in Nov-2019. Total shipment in current MY reached at 138,573 MT, it is higher by 227 % from last season till Dec-2019. Bangladesh brought 31,188 MT, India brought 17,623 MT and Sri Lanka purchased 8,658

MT in Dec. Pace of Lentil import is likely to be up in Jan -2020 too, as shipment continues, despite new crop at hands in India

- **Production of peas in Canada has been pegged at 42.37 lakh MT in 2019-20 & production forecast for 2020-21 is slightly higher at 43 lakh MT.** During the period import would decrease from 70 to 60 thousand MT while export too would decrease from 34 lakh MT to 33 lakh MT in 2020-21. Domestic use would increase slightly from 8.33 to 8.60 lakh MT during the same period. Average price is likely to hinge in the range of \$245-275 per MT, same range as was seen in 2019-20.

Weekly Outlook: -Pulses are likely to trade steady to weak.
