

Pulses Domestic Fundamentals:

Today's Update:

- *Increasing nos. of Corona patients may disturb pulses market once again. If no continues to increase with current pace, normal trade is unlikely to commence soon. The market is going through a very crucial phase. Labour and transportation issues would continue to hamper normal trade in coming weeks despite relaxation in lock down. Demand remains weak and would continue to remain weak until liquidity flow increases. Recovery in market might be seen from July when festive season starts. Without demand support cash pulses market is bound to trade steady to weak in May and June.*
- *Steady tone prevailed in lemon tur in Mumbai. Myanmar tur was traded at Rs 5100-5125 while Mozambique and Malawi tur were quoted at Rs 4550 and 4450 at Mumbai port, Even urad old and new were traded at Rs 6200 and Rs 6300. It was traded at Rs6400 FAQ and Rs 6800 SQ at Chennai Urad FAQ was quoted at Rs6500 in Guntur. Port Masur Canada was quoted at Rs 5550 and container at Rs 5675. It was traded at Rs5500-5525 at Mundra while at Rs5550-5575 at Hazera. Overall view in cash market seems weak due to sluggish demand and weak buying power. Even moong seems under extreme pressure.*

Previous Update:

- *Lock down due to COVID-19 from last week of March and further extension till 31st May-2020 have disrupted normal course of trading. Disturbed supply chain, transportation and labour issues amid improved demand due to fear of longer duration lockdown have given much needed support to tur cash market. Even raw material supply to mills remains disturbed. Under prevailing condition any spike in tur cash market is unlikely as procurement process remains slow and free distribution of pulses (per ration card 1kg per month till June-2020) would continue to cap upward momentum in tur market in May-2020. Likely relaxation in stock movement would not help much as shortage of labor remains a major drawback for making supply smooth in May and June.*
- *The DGFT increased urad import quota from 1.5 lakh MT to 4 lakh MT and timeline for import has been extended from 31st March to 30th April-2020. Now considering the demand for millers the DGFT has extended the import timeline till 31st May. So supply is bound to increase in May too after April when 1.22 lakh MT urad was imported. Continuous extension in import timeline and higher volume of import have weighed on market fundamentals and the impact is being reflected on price once again. New arrivals from AP, UP and Tamil Nadu and likely higher import flow from Myanmar in-May would continue to cap uptrend in urad cash market. However, it can confidently be maintained that prices would continue to rule above MSP in May.*
- *DES(Directorate of Economic Statistic) has released 3rd Adv. estimate of foodgrains on 15th May-2020. It has projected slightly higher production for 2019-20. Total kharif and rabi pulses production has been pegged at 23.01 MMT against 22.08 MMT in 2018-19. Total pulses production target for 2019-20 was set at 26.30 MMT. It is almost 40 lakh MT lower than 2018-19. Tur production has been pegged at 3.75 against set target of 4.6 MMT and 3.32 MMT last year. In case of chana production has been pegged at 10.90 against 11.60 MMT set target and 9.94 MMT production last year. Total kharif and rabi production has been pegged at 8.05 and 14.97 MMT against target of 10.10 & 16.20 MMT.*
- *Govt. is ready to amend essential Commodities Act, for products like Cereals, Oilseeds, Pulses, Onion & Potato and it would be deregulate through ordinance soon.. It hints that govt. would not interfere if commodities prices moves up. In longer term, it would help commodities prices to improve. It is a good decision.*
- *Summer moong from various states started hitting markets now and pressure is likely to build up in next two weeks if weather remains dry. Some recovery in market was seen due to bad weather generated arrival disruption and it pushed up price by Rs200. With relaxation in lock down demand for dal may improve and it may push up price again by Rs100-150. However, millers and stockiest would prefer to go slow as arrival is bound to increase. Sowing of summer pulses is almost double this year (from 5.29 to 10.35 lakh ha). So arrival would be much higher this year. Currently new moong from Odisha, Bengal and MP started coming into markets. Old stock is almost over in private*

hands .Nafed has stock. Right now truck freight is higher and problem of labour still intact. So prices are at higher side. Higher arrival would pressurize moong market. Crop from UP and Bihar too is due.

- **Due to continuous extension of lock down dead line for 2.5 lakh MT urad for 2019-20 has been extended from 15th May to 31st May-2020 now.** Firstly, it was set at 31st March-2020. It was extended three times and now new deadline has been fixed at 31st May-2020. No further extension would be given for back log urad import. Importers have enough time to meet the dead line without much issues.
- **With increasing arrivals in producing region and likely higher inflow of import at ports amid stockiest selling strategy at higher level pressurized cash masur markets in the beginning of May.** As demand is weak, more decline is expected in masur price. Masur in Kanpur market is being traded at Rs 4900 and it may decrease to Rs 4600-4700. At this level procurement would increase and it would lend support to masur market. Govt. would procure 1.21 lakh MT masur on MSP.As supply in the market would increase, steady to weak tone may prevail in May. Nafed still has 24,000 MT old stock and it would be distributed free of cost throughout the country up to June.

International Market Update:

- **Australia is going to plant biggest chickpeas crop in comparison to last three years.** Planting continues in Queensland and NSW. As moisture level in the field is good, farmers are increasing area under chickpeas. As top level soil moisture is lower, farmers are using wheat land for chickpeas planting. Forward delivery for October onward has been heard at \$ 630 per MT. New chickpeas crop may attract higher value. Value of new crop may be affected by any further hiccups caused by COVID-19. It may pressurize Chickpeas price.
- **Lentils stock in Australia is decreasing fast as bulk shipment to B,desh continues with next three months forward deal was heard .**Old crop of lentils would not be available by the beginning of the new season. Forward quotes have been heard at \$700-800 per MT, but limited quantity limits the deal too. B,desh has been buying 20,000 MT red small lentils per month. It may continue next three months. Australia exported 80,000 MT lentils in March and big volume export continues in April and May too. So old stock is depleting fast. As prices are moving up, area under lentils may increase by 10% this year. New lentils quotes are \$650-700.
- **Moong harvesting is on in Australia .It is almost two third over in Queensland and northern NSW .**Quality of moong is said to be good. Mungbean values have steadied at \$1500/t for No. 1 grade, \$1400/t for manufacturing and \$1300/t for processing as per as per Central grain Asia report. Quantity of grade -1 moong is higher .China is the biggest buyer of Australian moong. Some buying interest from India too has been seen. Indian millers can also buy moong from Australia if they get license. The central Queensland mung bean harvest is well advanced, and will finish next month.
- **As per agri food Canada area seeded under lentils in Canada is expected to remain unchanged at 1.53 Mha, due to higher expected returns relative to other crops.** With higher yields, production is forecast to rise marginally to 2.2 Mt but supply is expected to decrease to 2.6 Mt due to a fall in carry-in stocks. Exports are forecast to be lower at 2.0 Mt. Carry-out stocks are expected to decrease which will be supportive for prices. The average price for all grades is forecast to rise from 2019-20. The USDA March Prospective Planting report showed that US area seeded to lentils is expected to decrease marginally from last year to 0.47 million acres. Area seeded is expected to fall in North Dakota but rise in Montana.
- **As per latest update by NASS ,dry pea acreage may be down by 12-13% this year in US peas producing regions.** Farmers may plant total 971,000 acres against 11,03,000 acres last year. Intended plantings are down from a year ago in Idaho, Montana, Nebraska, North Dakota, and South Dakota. However, area in Washington may increase by 19% this year.
- **As per latest update by NASS lentil area may be down by 2-3% this year in US.** Farmers may plant total 474,000 acres in crop year 2020., down 2 percent from 2019. Lower area coverage is expected in Idaho, North Dakota, and Washington from last year, while planting intentions are above last year in Montana (7% increase).
- **Chickpeas area in the US is likely to decrease by 32% from last year. Small chickpea acreage shows a decline of only 5%, while large chickpea acreage is expected to decrease by 41% .It is really a big surprise this year.**
- **As per the latest Australian Bureau of Statistics Chickpeas export volume from Australia increased in Jan-2020 in comparison to Dec-2019.** In January -2020, Australia exported 56,502 MT, up 2% from 55,296 the previous month.

Bangladesh purchased 36,801 MT. Pakistan was the second most important importer taking 13,073 MT, followed by United Arab Emirates at 3,939 MT.

- **As per latest report by The Canadian Grain Commission Canada has exported 1,382,600 MT peas in ongoing MY so far till Jan-2020.** It is up by 45% from last year till Jan 2019. In Jan alone, total 1,34,300 MT has been exported. Canada has exported 1,036,800 MT last year till January-2019.
- **As per latest update by Australia Bureau of Statistics Australia exported 76,395 metric tons (MT) lentils in Dec-2019.** It is up from 62,178 MT in Nov-2019. Total shipment in current MY reached at 138,573 MT, it is higher by 227 % from last season till Dec-2019. Bangladesh brought 31188 MT, India brought 17623 MT and Sri Lanka purchased 8,658 MT in Dec. Pace of Lentil import is likely to be up in Jan -2020 too, as shipment continues, despite new crop at hands in India
- **Production of peas in Canada has been pegged at 42.37 lakh MT in 2019-20 & production forecast for 2020-21 is slightly higher at 43 lakh MT.** During the period import would decrease from 70 to 60 thousand MT while export too would decrease from 34 lakh MT to 33 lakh MT in 2020-21. Domestic use would increase slightly from 8.33 to 8.60 lakh MT during the same period. Average price is likely to hinge in the range of \$245-275 per MT, same range as was seen in 2019-20.

Weekly Outlook: -Pulses are likely to trade steady to weak.
