

Pulses Domestic Fundamentals:

Today's Update:

- ***Pulses cash market throughout India traded weak due to lackluster demand in cash market for all pulses. Millers were seen engaged only on need based buying against their immediate demand. Imported tur traded down as millers preferred to process locally grown crop. Due to lower demand from India Urad and tur in Myanmar traded lower yesterday. Availability at port is increasing while pressure from domestic crop too is visible. So overall tone seems weak.***
- ***The DGFT has decreased the time line for 4 lakh MT import quota from 31st March-2021 to 31August-2020. As time frame for import has been reduced, The DGFT would issue license soon(June).It would impact the market sentiments and cash market would trade down by Rs200 to 300 from current level. Notably, import of back log is yet to hit Indian ports.The time line for back log import for ongoing MY has been extended till 31st May-2020.Besides,new kharif crop would be available from Aug.So pressure seems building on urad price.***
- ***The commission for agricultural costs and prices (CACP) has recommended higher support prices for summer sown, kharif crops. The cabinet will consider the purposed new MSP. The CACP has proposed to increase tur MSP to Rs 6000 for 2020-21 against Rs5800 in 2019-20.New MSP for urad has been proposed at Rs 6000 for 2020-21 against Rs 5700 in 2019-20.Moong proposed MSP is Rs7196 against Rs7050 for 219-20.Govt.normally accepts CACP recommendation.***

Previous Update:

- ***Lock down due to COVID-19 from last week of March and further extension till 31st May-2020 have disrupted normal course of trading. Disturbed supply chain, transportation and labour issues amid improved demand due to fear of longer duration lockdown have given much needed support to tur cash market. Even raw material supply to mills remains disturbed. Under prevailing condition any spike in tur cash market is unlikely as procurement process remains slow and free distribution of pulses (per ration card 1kg per month till June-2020) would continue to cap upward momentum in tur market in May-2020.Likely relaxation in stock movement would not help much as shortage of labor remains a major drawback for making supply smooth in May and June.***
- ***The DGFT increased urad import quota from 1.5 lakh MT to 4 lakh MT and timeline for import has been extended from 31st March to 30th April-2020. Now considering the demand for millers the DGFT has extended the import timeline till 31st May. So supply is bound to increase in May too after April when 1.22 lakh MT urad was imported. Continuous extension in import timeline and higher volume of import have weighed on market fundamentals and the impact is being reflected on price once again. New arrivals from AP,UP and Tamil Nadu and likely higher import flow from Myanmar in-May would continue to cap uptrend in urad cash market. However, it can confidently be maintained that prices would continue to rule above MSP in May.***
- ***DES(Directorate of Economic Statistic) has released 3rd Adv. estimate of foodgrains on 15th May-2020.It has projected slightly higher production for 2019-20.Totalkharif and rabi pulses production has been pegged at23.01 MMT against 22.08 MMT in 2018-19.Total pulses production target for 2019-20 was set at 26.30 MMT.It is almost 40 lakh MT lower than 2018-19.Tur production has been pegged at 3.75against set target of 4.6 MMT and 3.32 MMT last year.In case of chana production has been pegged at 10.90 against 11.60 MMT set target and 9.94MMT production last year. Total kharif and rabi production has been pegged at 8.05 and 14.97 MMT against target of 10.10& 16.20 MMT.***
- ***Govt.is ready to amend essential Commodities Act, for products like Cereals,.Oilseeds, Pulses, Onion & Potato and it would be deregulate through ordinance soon.. It hints that govt. would not interfere if commodities prices moves up. In longer term,it would help commodities prices to improve. It is a good decision.***
- ***Summer moong from various states started hitting markets now and pressure is likely to build up in next two weeks if weather remains dry. Some recovery in market was seen due to bad weather generated arrival disruption and it pushed up price by Rs200.With relaxation in lock down demand for dal may improve and it may push up price again by Rs100-150. However, millers and stockiest would prefer to go slow as arrival is bound to increase .Sowing of***

summer pulses .is almost double this year (from 5.29to 10.35 lakh ha). So arrival would be much higher this year. Currently new moong from Odisha,Bengal and MP started coming into markets. Old stock is almost over in private hands .Nafed has stock. Right now truck freight is higher and problem of labour still intact. So prices are at higher side. Higher arrival would pressurize moong market. Crop from UP and Bihar too is due.

- **Due to continuous extension of lock down dead line for 2.5 lakh MT urad for 2019-20 has been extended from 15th May to 31st May-2020 now.** Firstly, it was set at 31st March-2020. It was extended three times and now new deadline has been fixed at 31st May-2020. No further extension would be given for back log urad import. Importers have enough time to meet the dead line without much issues.

International Market Update:

- **Australia is going to plant biggest chickpeas crop in comparison to last three years.** Planting continues in Queensland and NSW. As moisture level in the field is good, farmers are increasing area under chickpeas. As top level soil moisture is lower, farmers are using wheat land for chickpeas planting. Forward delivery for October onward has been heard at \$ 630 per MT. New chickpeas crop may attract higher value. Value of new crop may be affected by any further hiccups caused by COVID-19. It may pressurize Chickpeas price.
- **Lentils stock in Australia is decreasing fast as bulk shipment to B,desh continues with next three months forward deal was heard.** Old crop of lentils would not be available by the beginning of the new season. Forward quotes have been heard at \$700-800 per MT, but limited quantity limits the deal too. B,desh has been buying 20,000 MT red small lentils per month. It may continue next three months. Australia exported 80,000 MT lentils in March and big volume export continues in April and May too. So old stock is depleting fast. As prices are moving up, area under lentils may increase by 10% this year. New lentils quotes are \$650-700.
- **Moong harvesting is on in Australia.** It is almost two third over in Queensland and northern NSW. Quality of moong is said to be good. Mungbean values have steadied at \$1500/t for No. 1 grade, \$1400/t for manufacturing and \$1300/t for processing as per Central grain Asia report. Quantity of grade 1-moong is higher. China is the biggest buyer of Australian moong. Some buying interest from India too has been seen. Indian millers can also buy moong from Australia if they get license. The central Queensland mung bean harvest is well advanced, and will finish next month.
- **As per agri food Canada area seeded under lentils in Canada is expected to remain unchanged at 1.53 Mha, due to higher expected returns relative to other crops.** With higher yields, production is forecast to rise marginally to 2.2 Mt but supply is expected to decrease to 2.6 Mt due to a fall in carry-in stocks. Exports are forecast to be lower at 2.0 Mt. Carry-out stocks are expected to decrease which will be supportive for prices. The average price for all grades is forecast to rise from 2019-20. The USDA March Prospective Planting report showed that US area seeded to lentils is expected to decrease marginally from last year to 0.47 million acres. Area seeded is expected to fall in North Dakota but rise in Montana.
- **As per latest update by NASS, dry pea acreage may be down by 12-13% this year in US** peas producing regions. Farmers may plant total 971,000 acres against 11,03,000 acres last year. Intended plantings are down from a year ago in Idaho, Montana, Nebraska, North Dakota, and South Dakota. However, area in Washington may increase by 19% this year.
- **As per latest update by NASS lentil area may be down by 2-3% this year in US.** Farmers may plant total 474,000 acres in crop year 2020., down 2 percent from 2019. Lower area coverage is expected in Idaho, North Dakota, and Washington from last year, while planting intentions are above last year in Montana (7% increase).
- **Chickpeas area in the US is likely to decrease by 32% from last year.** Small chickpea acreage shows a decline of only 5%, while large chickpea acreage is expected to decrease by 41%. It is really a big surprise this year.
- **As per the latest Australian Bureau of Statistics Chickpeas export volume from Australia increased in Jan-2020 in comparison to Dec-2019.** In January -2020, Australia exported 56,502 MT, up 2% from 55,296 the previous month. Bangladesh purchased 36,801 MT. Pakistan was the second most important importer taking 13,073 MT, followed by United Arab Emirates at 3,939 MT.

- As per latest report by The Canadian Grain Commission Canada has exported 1,382,600 MT peas in ongoing MY so far till Jan-2020. It is up by 45% from last year till Jan 2019. In Jan alone, total 1,34,300 MT has been exported. Canada has exported 1,036,800 MT last year till January-2019.
- As per latest update by Australia Bureau of Statistics Australia exported 76,395 metric tons (MT) lentils in Dec-2019. It is up from 62,178 MT in Nov-2019. Total shipment in current MY reached at 138,573 MT, it is higher by 227 % from last season till Dec-2019. B, desh brought 31188 MT, India brought 17623 MT and Sri Lanka purchased 8,658 MT in Dec. Pace of Lentil import is likely to be up in Jan -2020 too, as shipment continues, despite new crop at hands in India
- Production of peas in Canada has been pegged at 42.37 lakh MT in 2019-20 & production forecast for 2020-21 is slightly higher at 43 lakh MT. During the period import would decrease from 70 to 60 thousand MT while export too would decrease from 34 lakh MT to 33 lakh MT in 2020-21. Domestic use would increase slightly from 8.33 to 8.60 lakh MT during the same period. Average price is likely to hinge in the range of \$245-275 per MT, same range as was seen in 2019-20.

Weekly Outlook: -Pulses are likely to trade steady to weak.
