

Pulses Domestic Fundamentals:

Today's Update:

- **Sources say that Nafed would sell chana PSS rabi 2020 stock in all states, where it is available, at Rs 5100 or above in coming days (December-2020).** Base price would be Rs 5100. It can offer 1.5 lakh MT chana in December. However, it has made clear that it reserves the right to revise it without prior notice. This decision would help market to recover once again. It may push up market 1500 to 200 up from current level. Notably, chana market had decline by Rs400 to 450 in last six days. It would be interesting to see next strategy of Nafed in coming weeks. Area is up 14-15% from last year. So any big jump is unlikely.
- **Arrival of peas (green) has started increasing in markets and its pressure is visible on price.** Yellow and green peas demand is weak. Green peas with chhilka is being traded at Rs 3200-3500 in markets. It may decrease further with increasing arrivals. So, yellow and green peas price may decrease by Rs 300 to 500 in coming weeks. There is no import and stock at port is negligible. Consumers have shifted from other cheaper daal like masur and chana. Overall tone remains weak

Previous Update:

- **Tur Crop condition is good so far. Arrival started increasing in Sholapur and it was recorded** at 11 motors. It was traded at Rs 6200 to 6550 per qtl. It contains 16-17 % moisture level. Arrival from other region too is expected from next week. No major loss of Tur crop has been reported from south India from recent rains and swift wind. Recent rains are said to be beneficial for the standing crops including tur in central and north India. There is good moisture level in the field and it may delay harvesting at least by 10 days in major tur producing districts. Import volume in Nov is expected to be around 60 to 70 thousand MT, while 50,000 MT is expected in Dec. As new crop is round the corner now, any spike in tur market is unlikely. There is an increasing possibility of downward trend and market may dip below MSP by mid-Dec.
- **Lentils prices continue to cool down with easing supply side from import and smooth sowing** activities, supported by congenial weather condition in major producing states like Madhya Pradesh, Uttar Pradesh and Bihar. Agriwatch expects 13.50-14.00 lakh Mt production this year under normal weather condition. Major exporters like Australia and Canada are trying to sell as much as they can before duty revision from 10 to 30% from 1st Jan-2021. Pulses prices may be under pressure due to increasing rabi area and higher flow of import this year. Lentils price may decrease to Rs-4750-4800 by end Dec. New crop would hit market in Feb end. Overall tone is bearish.
- **With favorable weather condition rabi pulses sowing is running smoothly. Farmers have** planted 116.56 lakh ha area so far against normal of 144.89 lakh ha. Out of total farmers have covered 82.18 lakh ha area under gram against normal of 92.77 lakh ha. Farmers have covered 13.11 lakh ha under lentils(normal 14.24 lakh ha), 8.22 lakh ha under field pea (normal 8.78 lakh ha), 3.39 lakh ha under urad (normal 8.93 lakh ha), 0.88 lakh ha under moong(normal 9.86 lakh ha), 3.26 lakh ha under other pulses(normal 4.14 lakh ha). Gram area is running ahead by 16 % from last year so far, field pea up by 15%, lentils up by 8 %, other pulses up by 26%. However, moong coverage is lower by 1.18 % so far. Farmers may increase sowing activities in coming weeks under moong and urad. See detailed table at page no-3
- **Slight recovery was seen in urad cash market on fresh demand, fear of crop loss in AP and** restricted sale by private trades. Crop is in maturity stages in Kurnool and Nellore and is likely to be harvested within a fortnight from now. There is a chance of weather disturbance again and if rains occur, quality of urad may be affected. Stock is weak and the south Indian markets/Mills may depend on imported urad from Myanmar. Overall, sentiment seems firm at this point of time. FAQ urad is being traded at Rs 7350-7400 in Mumbai while rs7525-7550 in Chennai. Burma is offering FAQ urad at \$ 870 and SQ at \$975 per MT basis Indian port.
- **Govt. has issues licenses for 1.5 lakh MT moong import and imported consignment should arrive** Indian port by 31st March-2021. Country of origin will mention all GCA countries. Besides, CIF value can be altered at the time of

issuance of licenses. Port of entry can also be changed. Mills name with allocated quantity (150MT per mill) has already been published. Import is possible only from Uzbekistan as availability in East Africa, Brazil, Argentina, Australia and Myanmar is negligible. So Uzbek moong can hit Indian market at higher price. Right now China is buying moong at \$1110 per MT actively. So every month, limited volume would come to India.

International Market Update:

- **Movement of field peas for Lithuania were up sharply from the previous month in September** as per data published by Eurostat Shipments reached 18,207 metric tons (MT) in Sep against 8,086 MT in Aug-2020. This brings total to 102,288 during the calendar year till Sep, down 34% last year. Netherlands was top buyer, receiving 7,341 MT in the month. United Kingdom was the second most important buyer buying 5,099 MT, followed by Norway at 2,750 MT.
- **Global Chickpeas market traded almost flat last week. However desi chickpeas traded slightly weak** due to higher production in Australia. Harvesting activities are on in parts of Australia. Australian exporters are hoping that India may reduce import duties on chickpeas in an effort to reduce food prices to urban consumers. Export in Sep was recorded up at 27,310 MT, up from 19,812 MT Aug-2020. This boosted shipments so far during the marketing year to 310,730, down 4% last year. Bangladesh brought 11,243 MT and Pakistan taking 5,971 MT, followed by United Arab Emirates at 3,592 MT.
- **In the US, the area seeded to lentils for 2020-21 is forecast by the USDA at just over 0.5 million acres**, 7% higher than 2019-20 due to higher area seeded in Montana being offset by lower seeded area in North Dakota. With higher yields and lower abandonment, US lentil production is forecast by USDA at below 0.3 Mt, up 21% from last year. The main US export markets for lentils are expected to continue to be Canada, India and the EU, particularly Spain
- **Dry peas production in Canada is expected to increase by 3% to 4.4 million tonne due to higher yield** in 2020-21. The major producing states like Alberta and Saskatchewan may contribute 4.1 MMT. Manitoba and Eastern Canada may harvest 0.3 MMT this year. So, supply side too is expected to be higher by 3% from last year to 4.7 MMT. Export is likely to stay steady at 3.8 MMT. The major buyers may be China, the US and Bangladesh like previous year. However, carry-out stocks are forecast to fall marginally despite likely improvement in domestic use. Average price may increase by 4% from previous year to \$275/tonne.
- **Lentils production in Canada is expected to increase by 29% to 3.1 MMT in 2020-21 due to higher yield** and coverage area. Out of total large green lentils may contribute 0.7 MMT while the share of red lentils may be 2.1 MMT, followed by other types at 0.3 MMT. Supply side seems to stay steady at previous year level due to lower carry-in stocks. Canada may export 2.7 MMT in 2020-21, lower by 2% from last year. Domestic use may decrease by 3% to 0.249 MMT this year. Carry out stocks are expected to increase by 31% from previous year to 0.3 MMT. Overall average price is likely to be higher by 20% from previous year.
- **Lentils production in Australia is expected to decrease by 6.89% from 5.34 to 4.97 lakh tons in 2020-21.** It is due to lower coverage (6.11%) of area from last year. Victoria and South Australia are major producing regions that contribute 92% of total production..
- **According to official trade statistics from Australia Bureau of Statistics, chickpeas export from Australia posted smart gains in Sep in comparison to Aug-2020.** It was recorded at 27,310 MT higher by 19,812 MT from Aug-2020. This brings total to 310,730 MT during the ongoing MY. However, it is down by 4% from last year till Sep-2019. Bangladesh brought 11,243 MT while Pakistan 5,971 MT, followed by United Arab Emirates at 3,592 MT

Daily Outlook: -Pulses are likely to trade mixed.
