

Pulses Domestic Fundamentals:

Today's Update:

- **Nafed has decided to sell chana at previous MSP of Rs 4875. It may push chana price up** by 150-200 from current level. January is considered for fresh demand for chana. So, Nafed's strategy of selling chana at Rs4875 and likely fresh demand in Jan-2021 would give market much needed support. New crop is still two months away. Even weather condition in January and February would play a crucial role in driving price up and down. So recovery seems on the card in cash chana market.
- **With favorable weather condition rabi pulses sowing is running smoothly. Farmers have** planted 149.28 lakh ha area so far against normal of 144.89 lakh ha. Out of total farmers have covered 102.89 lakh ha area under gram against normal of 92.77 lakh ha. Farmers have covered 15.81 lakh ha under lentils(normal 14.24 lakh ha),10.23 lakh ha under field pea (normal 8.78 lakh ha),5.75 lakh ha under urad (normal 8.93 lakh ha),2.60 lakh ha under moong(normal 9.86 lakh ha),5.46 lakh ha under other pulses(normal 4.14 lakh ha).Gram area is running ahead by 8 % from last year so far, field pea down by 1.53%,lentils up by 3.53 % ,other pulses up by 16%. Moong coverage is up by 3.17 % so far. Farmers may increase sowing activities in coming weeks under moong and urad. See detailed table at page no-3
- **Govt. rejected applications submitted for 6258.85 MT pulses import due to various technical ground.** Total import through the order of high court was 23619.46 MT. It was imported through 60 bills of entry, on which penalty of Rs 9 crores was imposed.
- **Govt. is considering the supply of masur dal in Jammu & Kashmir through tenders. It may be supplied** through PDS.It may be distributed in Punjab too. Govt. wants to ensure ample supply of masur daal in these states.If it happens, it may affect masur daal price to some extent.

Previous Update:

- **Urad cash market is awaiting fresh demand from domestic market.Millers are not interested to** buy at higher level as they think prices to come down. Arrival from new crop is about to start and quotes in Myanmar too are decreasing. Rabi area has crossed halfway now and crop condition is very good. Arrival in Kurnool,Prakasham and Ongole region has started while new crop will start in mid Feb in Nellore.As arrival pressure is about to increase, prices may come down by Rs 200-300 more from current level. Myanmar is quoting \$820 for FAQ & \$920 for SQ basis Indian ports. It has come down by \$30 in last four days. Overall sentiments seem weak.
- **Weak demand, ample availability of old stock and around 8 % higher area coverage so far have** continued to put pressure on chana market. As production would increase this year to 110-112 lakh Mt, pressure may continue on chana market. Cheaper import flow from LDC and sale by NAFED at regular intervals. So, pressure is likely to continue. In Delhi market Rajasthan line chana traded at Rs 4550-4600.Overall sentiments seem weak. Market may improve if weather in main producing region turns rough. As of now weather condition is good and very favorable for chana crop.
- **Pressure continues on tur cash market taking clue from import flow, acceptance of bids at 5400-5500** by Nafed and new arrivals in states like Karnataka & Mharashtra. Crop condition in all tur producing states is good despite some crop loss (around 5,000 ha) in AP Karnataka (15,000 ha) due to recent storm and rains. Pressure is likely to increase further as Nafed has started accepting bids at low level of Rs5400-5500.There is a pressure on govt to buy maximum this year due to farmer's ongoing agitation. So, Nafed has to release/offload stocks, even at lower price than MSP.Agr-watch has estimated 38.15 lakh MT tur production this year after discounting losses due to heavy rains ,flooding and storms. It was 37.19 lakh MT in 2019-20. As tone is bearish, state govts. should start preparation for procurement activities. It may help farmers to get assured price of MSP. Nafed has already started preparations for procurement drive in Tamil Nadu & Karmataka and fund has already been allocated for this.

- **NAFED gets approval to buy tur in 4 states and gets permission to buy Tuar's MSP price in Karnataka, Telangana, Gujarat, and Maharashtra.** They revealed this information on the social media platform Twitter and told that arrangements are being made to purchase tur in the states mentioned above. It urges farmers to register themselves. This year, the government has fixed an MSP of 6000 for Tur. NAFED purchased about 5.25 lakh tonnes of tur in the previous year.

International Market Update:

- **Lentil markets traded mixed during the past week as markets switched to holiday mode.** Movement of lentils from origin to port locations in Canada have slowed considerably because of the loss of demand from India and stock accumulations in many destinations during the early fall shipping period. Markets continue to pay attention to rabi seeding planting progress in India. As of December 18 area had reached 1.531 million hectares of lentils, compared to 1.462 million at this time last year.
- **Lentil export from Turkey increased significantly in Oct in comparison to Sep.** As per data released from Turkish Statistical Institute (TURKSTAT) lentil export reached at 32,112 metric tons (MT) in Oct, up by 27% from the 25,257 MT shipped in previous month. Movement so far total 349,054 MT, versus 202,372 in the same period the last calendar year. The top buyers during the month were Sudan, Iraq and Algeria..
- **According to official data from Federal Customs Service (of Russia) export of peas from Russia continued to increase** Russia exported 125,624 metric tons (MT) peas in Oct-2020, up by 41% from Sep. It had exported 88,955 MT in Sep. So far exports have reached 524,325 MT, up from 451,953 during the last calendar year. Pakistan, Turkey and Italy were major buyers.
- **Movement of field peas for Lithuania were up sharply from the previous month in September** as per data published by Eurostat Shipments reached 18,207 metric tons (MT) in Sep against 8,086 MT in Aug-2020. This brings total to 102,288 during the calendar year till Sep, down 34% last year. Netherlands was top buyer, receiving 7,341 MT in the month. United Kingdom was the second most important buyer buying 5,099 MT, followed by Norway at 2,750 MT.
- **Global Chickpeas market traded almost flat last week. However desi chickpeas traded slightly weak** due to higher production in Australia. Harvesting activities are on in parts of Australia. Australian exporters are hoping that India may reduce import duties on chickpeas in an effort to reduce food prices to urban consumers. Export in Sep was recorded up at 27,310 MT, up from 19,812 MT Aug-2020. This boosted shipments so far during the marketing year to 310,730, down 4% last year. Bangladesh brought 11,243 MT and Pakistan taking 5,971 MT, followed by United Arab Emirates at 3,592 MT.
- **In the US, the area seeded to lentils for 2020-21 is forecast by the USDA at just over 0.5 million acres, 7% higher than 2019-20** due to higher area seeded in Montana being offset by lower seeded area in North Dakota. With higher yields and lower abandonment, US lentil production is forecast by USDA at below 0.3 Mt, up 21% from last year. The main US export markets for lentils are expected to continue to be Canada, India and the EU, particularly Spain
- **Dry peas production in Canada is expected to increase by 3% to 4.4 million tonne due to higher yield** in 2020-21. The major producing states like Alberta and Saskatchewan may contribute 4.1 MMT. Manitoba and Eastern Canada may harvest 0.3 MMT this year. So, supply side too is expected to be higher by 3% from last year to 4.7 MMT. Export is likely to stay steady at 3.8 MMT. The major buyers may be China, the US and Bangladesh like previous year. However, carry-out stocks are forecast to fall marginally despite likely improvement in domestic use. Average price may increase by 4% from previous year to \$275/tonne.
- **Lentils production in Canada is expected to increase by 29% to 3.1 MMT in 2020-21 due to higher yield** and coverage area. Out of total large green lentils may contribute 0.7 MMT while the share of red lentils may be 2.1 MMT, followed by other types at 0.3 MMT. Supply side seems to stay steady at previous year level due to lower carryin stocks. Canada may export 2.7 MMT in 2020-21, lower by 2% from last year. Domestic use may decrease by 3% to 0.249 MMT this year. Carry out stocks are expected to increase by 31% from previous year to 0.3 MMT. Overall average price is likely to be higher by 20% from previous year.

- **Lentils production in Australia is expected to decrease by 6.89% from 5.34 to 4.97 lakh tons in 2020-21.** It is due to lower coverage (6.11%) of area from last year. Victoria and South Australia are major producing regions that contribute 92% of total production..
- **According to official trade statistics from Australia Bureau of Statistics, chickpeas export from Australia posted smart gains in Sep in comparison to Aug-2020.** It was recorded at 27310 MT higher by 19,812 MT from Aug-2020. This brings total to 310,730 MT during the ongoing MY. However, it is down by 4% from last year till Sep-2019. Bangladesh brought 11,243 MT while Pakistan 5,971 MT, followed by United Arab Emirates at 3,592 MT

Daily Outlook: -Pulses are likely to trade mixed.
