

## Pulses Domestic Fundamentals:

### Today's Update:

- **Normal trades in major markets remain disrupted due to the imposition of the lockdown and** its likely extension till mid-May. Demand is likely to decrease and so, prices may come under pressure again. Supply disruption too may surface its head, but it would take time. The shortage of labor force may decrease and it may affect transport movement too.
- **There is a gossip in the market that govt. is monitoring the market movement** very closely and if market moves beyond a certain level, govt. has option to cool market down by decreasing import duty on chana, allowing peas import, decreasing duty on lentils import. After states assembly elections and procurement drive govt. may be active to reign prices going up. The lockdown has already started affecting demand for daal. If it is extended for the next 15 days, disruption in normal trade may occur once again. The free distribution of grains too may affect price and demand.

### Previous Update:

- **As per the latest update by Ministry of Consumer Affairs ,Food & Public Distribution, additional** free of cost foodgrains will be distributed to NFSA Beneficiaries under Pradhan Mantri Garib Kalyan Anna Yojna in May & June-2021. Under this scheme 5 kg per person per month foodgrains would be provided to nearly 80 crores people, covered under National Food Security Act, 2013 (NFSA) over and above NFSA foodgrains for next two months (May & June-2021).
- **Masur cash market continues to trade up taking the clue from low global stock.** The new crop is six months away. The sowing of Lentil is due in July in Canada. Apart from it dollar is getting stronger. It would force importers to spend more INR in the coming weeks. Under the emerging scenario, even the importers are not ready to sell Masur at the prevailing price. Arrivals in domestic markets like Sagar, Ganjwasoda, Mungawali, Bhopal, and Beenaganj line have decreased. Even NAFED has started procuring Masur at market price. The procured quantity remains unspecified. All these developments can push Masur's price up in the coming weeks.
- **Despite an extended timeline for urad import from backlog quota (31st March to 30th April-2021), and the** import quota of 4 lakh MT for the ongoing financial year, the Urad market continues to trade firm. Some downward correction was seen in March, but it could not sustain due to short supply in the domestic market and the slower pace of import flow from Myanmar. Import from the new quota would not take place before June, while new local crop would not be available before August-September. So, the cash market may move up by 200-300 by the end of April.
- **Govt. (MoA) has sanctioned a quantity of 14350 MT Masur and 32175 MT chana procurement in Bihar** on MSP from rabi 2020-21 crop. Nafed is gearing up for starting procurement operations in the state. Farmers have been requested to register themselves with state agencies at notified centers. Masur prices are ruling higher than MSP, so it would be interesting to see how much quantity is procured under the price support scheme.
- **The poor yield of tur this year and stockists' strong holding power amid no hope for immediate** import due to unrest in Myanmar may push up tur price again. Crop in UP is in good condition and we expect around 2.50 lakh MT crop soon from this state. It may meet the immediate requirements of mills. In June import may take place. So, any big jump in the tur market unlikely. It may move up by 200 to 300. Apart from it mango season

is about to start and it may check the price. In Maharashtra, mills are buying. Fundamental for tur market is firm and it may recover in coming weeks.

#### **International Market Update:**

- **Lithuania's export of peas increased by 4 % from 6500 to 6762 MT in Feb-2021.** Total export of peas was registered at 13262 MT against 61752 MT in the previous calendar year. It is comparatively much lower than last year. It exported 3,516 MT for Netherlands, 2,279 MT for Latvia and 481 MT for Poland.
- **Peas planting is on in the US. As per the latest updates by market sources 11% planting is almost complete** at this point of time against 6% last year and the recent average of 9%. Progress remains most rapid in the U.S. Pacific Northwest, with farmers in Oregon wrapping up plantings, Washington state is registering the slowest progress of the three states in the region, with 24% of the crop in the ground, compared to 48% last year but close to the recent five year average of 26% complete by the third week of April.
- **Chickpeas export from Australia decreased from 91,200 MT in February in comparison 178,951 MT in Jan-2021-** according to a recent data from Australia Bureau of Statistics. This increased exports so far during the marketing year to 439,975, up 119% last year. Pakistan was the largest destination, taking 41,946 MT, followed by Bangladesh buying 34,016 MT and U A E at 4,590 MT.
- **As per the latest data release by Federal Customs Service of Russia chickpeas export from Russia decreased** by 40% to 4,574 metric tons (MT) in Jan-2021. It was 7,674 MT in Dec-2020. The data showed movement was down 84% from the 28,284 MT recorded during the same month last year. Pakistan was the top consumer during the month, receiving 2,314 MT. Jordan was the second most important importer taking 997 MT, followed by Turkey at 460 MT.
- **Bangladesh and Pakistan continue to buy chickpeas from Australia and so prices hinge** around \$660-670 per MT basis CiF at destinations. Pakistan has been regular buyer of containerized Australian chickpeas, and its peak figure of recent years is believed to be 37,759t in December 2020, the biggest volume seen since 34,805t in April 2018. The February 2021 export figure could well be above that to reflect containerized exports as well as the 25,000t of bulk to Pakistan, and further bulk sales to Bangladesh.
- **Prices for mung beans stayed steady at previous month level at around \$1300/t for No. 1 grade, \$1200/t for processing and \$1100/t for manufacturing.** Harvesting is expected to begin soon in Queensland. Recent rains are beneficial to standing crop in the field. Production prospects have improved a lot. Chinese buyers are active and most of the mung beans booked for shipment from April onward. Containers are readily available for China right now.
- **Lentil's production in Canada is expected to decrease from 28.68 in 2020-21 to 2.7 MMT in 2021-22 due to slightly lower area & yield.** Export too are expected to decrease by 2 lakh MT to 25 lakh MT in 2021-22. Total supply is expected to decrease from 31.77 to 29.25 lakh MT due to likely lower production in 2021-22. Against domestic usage. However, domestic use would decrease from 3.27 to 2.75 lakh MT in 2021-22. So carryout stock would stay at same as last year at 1.5 MT. Average yearly price is expected to be in the range of \$ 585 per MT. For 2020-21 it is \$ 600 per MT.
- **Dry peas production in Canada is expected to decrease from 45.94 lakh Mt in 2020-21 to 44.00 lakh MT in 2021-22** due to lower expected yield from 2.73 to 2.57 tonne in 2021-22. Total supply too would decrease from 49.22(2020-21) to 47.90 lakh MT in 2021-22. Export fig too is expected to decrease from 38 to 37 lakh MT in 2021-22. However, domestic usage may increase from 8.22 to 8.40 lakh MT in 2021-22. Carryout would decrease from 3 to 2.5 lakh MT. Yearly average price may hover at \$300 per MT in 2021-22 against 4330 in 2020-21.

- **Chickpeas production in Australia is expected to increase from 2.81 to 7.55 lakhMt in 2020-21.** Even field peas production would increase from 2.19 to 2.94 lakh MT-n 2020-21. Even lentils production may increase from 5.34 to 6.34 lakh Mt in 2020-21.
- **Lentils production in US for 2020 has been pegged at 336,201 MT based on 514,000 acres.** Lentil production is up by 40% from last year with a USDA production estimate of 7.41 million cwt. Planted acreage was up 9% from 2019 with 528,000 acres in 2020, and harvested acreage was up even more, 21% at 514,000 acres. Average yield is estimated at 1,442 pounds per acre in the U.S., as per data release by the National Agricultural Statistics Service.

**Daily Outlook:** -Pulses are likely to trade mixed.
