

Pulses Domestic Fundamentals:

Today's Update:

- **The state govts. like Gujarat, Rajasthan and Tamil Nadu have started issuing instructions** for declaration of stocks lying in the go-downs of traders ,stockiest and millers may pressurize market further amid emerging scenario of the higher import volume in coming months. Some other states may follow the same steps. If prices of Masur continue to rule at higher prices, govt. may reduce duty soon. Some big stakeholders have already purchased Masur in bulk volume in Canada at cheaper prices and are waiting for duty reduction. The govt. is monitoring market very closely now. So, any immediate recovery in the market is unlikely. It is better for the stakeholders to watch market for sometimes and let it adjust with the new scenario.

Previous Update:

- **Despite weak sentiments prevailing in the market stakeholders should wait as the** market has already discounted the premium of quota, enjoyed before 15th of May-2021. The cash market should stabilize now and as and when demands improves, likely from the second week of June, it will start improving again. However, any big jump is unlikely. Normal trade might be seen in coming weeks. Tur and chana should improve despite import flow. Sentiments is still weak as import volume remains unspecified for the June month. Experts say that tur import quantity may be around 2.25 to 2.5 lakh MT from Myanmar till Oct-Nov-2021 from Myanmar, 1.25 to 1.50 lakh MT for Urad till Aug and 50-75 thousand MT moong till Aug. The new crop too would hit Indian market in Aus-Sep, so pressure may continue on Urad and Moong. Chana and Tur should improve.
- **The M.P. state govt. has decided to extend the Chana procurement date from 15th of May to 5th of June-2021.** The state govt has assured farmers to give the minimum support price (Rs5100) and they need not to sell in panic. Its a good move. Chana prices would not decrease much and the market should be stable at Rs5000-5200. As and when the lockdown is relaxed, the demand for daal will improve. It may lend support to cash market. How any big jump in the market is unlikely now. Chana may trade in the range of Rs 5000 to 5500 in June and July. In Rajasthan, the state govt. would verify the pulses stocks. The traders have to announce pulses stocks by 21st may 2021. Traders having 5 qtl. of stocks (all pulses), need not to declare stocks.
- **The uncertainty looms large in the market with the changed import policy. Its major impact** might be seen in the new season when kharif moong and urad will start arriving into the market. If India harvests bumper crop, prices may slip below MSP. However, it would be too early to project the production size. Now one thing is clear that the market sentiments have weakened. The next action may be for masur.
- **Import policy for Tur /Pigeon Peas; Moong and Urad is revised from "Restricted" to "Free"** with immediate effect and for the period up to 31st October 2021. Further, import consignments of these items with Bill of Lading issued on or before 31st October, 2021 shall not be allowed by Customs beyond 30th November 2021. Its a good move at right time to cool down spiraling prices. It would pressurize pulses market. Stockists may start releasing stocks before time. With this current move, quotes in Myanmar and South African markets moved up by \$80 to 90 per MT in one day. The cash market is bound to go down in coming weeks. Govt. may reduce import duty on Masur too, if prices continue to move up. The peas may remain in restricted list.
- **Despite recovery in the cash market the demand for the gram flour and Chana daal is weak due to the ongoing lockdown.** Around 80% major markets are closed. So, mills have stopped buying despite the strong market fundamentals. The liquidity crunch too have started affecting mills purchasing powers. So, the range bound movement is expected in the short term. There is no parity for chana import from Russia and Australia

at 44 and 66 % applicable duty (plus cess). Pakistan & Nepal are continuously buying Chana. The sowing in Australia would start in June and the area might be down from last year due to the dry weather condition. So, supply from the overseas market would be low. It may support Chana market in the medium term. The Russian Chickpeas is being offered at \$650.

International Market Update:

- **Lithuania's export of peas increased by 4 % from 6500 to 6762 MT in Feb-2021.** Total export of peas was registered at 13262 MT against 61752 MT in the previous calendar year. It is comparatively much lower than last year. It exported 3,516 MT for Netherlands, 2,279 MT for Latvia and 481 MT for Poland.
- **Peas planting is on in the US. As per the latest updates by market sources 11% planting is almost complete** at this point of time against 6% last year and the recent average of 9%. Progress remains most rapid in the U.S. Pacific Northwest, with farmers in Oregon wrapping up plantings, Washington state is registering the slowest progress of the three states in the region, with 24% of the crop in the ground, compared to 48% last year but close to the recent five year average of 26% complete by the third week of April.
- **Chickpeas export from Australia decreased from 91,200 MT in February in comparison 178,951 MT in Jan-2021-** according to a recent data from Australia Bureau of Statistics. This increased exports so far during the marketing year to 439,975, up 119% last year. Pakistan was the largest destination, taking 41,946 MT, followed by Bangladesh buying 34,016 MT and U A E at 4,590 MT.
- **As per the latest data release by Federal Customs Service of Russia chickpeas export from Russia decreased** by 40% to 4,574 metric tons (MT) in Jan-2021. It was 7,674 MT in Dec-2020. The data showed movement was down 84% from the 28,284 MT recorded during the same month last year. Pakistan was the top consumer during the month, receiving 2,314 MT. Jordan was the second most important importer taking 997 MT, followed by Turkey at 460 MT.
- **Bangladesh and Pakistan continue to buy chickpeas from Australia and so prices hinge** around \$660-670 per MT basis CiF at destinations. Pakistan has been regular buyer of containerized Australian chickpeas, and its peak figure of recent years is believed to be 37,759t in December 2020, the biggest volume seen since 34,805t in April 2018. The February 2021 export figure could well be above that to reflect containerized exports as well as the 25,000t of bulk to Pakistan, and further bulk sales to Bangladesh.
- **Prices for mung beans stayed steady at previous month level at around \$1300/t for No. 1 grade, \$1200/t for processing and \$1100/t for manufacturing.** Harvesting is expected to begin soon in Queensland. Recent rains are beneficial to standing crop in the field. Production prospects have improved a lot. Chinese buyers are active and most of the mung beans booked for shipment from April onward. Containers are readily available for China right now.
- **Lentil's production in Canada is expected to decrease from 28.68 in 2020-21 to 2.7 MMT in 2021-22 due to slightly lower area & yield.** Export too are expected to decrease by 2 lakh MT to 25 lakh MT in 2021-22. Total supply is expected to decrease from 31.77 to 29.25 lakh MT due to likely lower production in 2021-22. Against it domestic usage. However, domestic use would decrease from 3.27 to 2.75 lakh MT in 2021-22. So carryout stock would stay at same as last year at 1.5 MT. Average yearly price is expected to be in the range of \$ 585 per MT. For 2002-21 it is \$ 600 per MT.
- **Dry peas production in Canada is expected to decrease from 45.94 lakh Mt in 2020-21 to 44.00 lakh MT in 2021-22** due to lower expected yield from 2.73 to 2.57 tonne in 2021-22. Total supply too would decrease from 49.22(2020-21) to 47.90 lakh MT in 2021-22. Export fig too is expected to decrease from 38 to 37 lakh MT in

2021-22. However, domestic usage may increase from 8.22 to 8.40 lakh MT in 2021-22. Carryout would decrease from 3 to 2.5 lakh MT. Yearly average price may hover at \$300 per MT in 2021-22 against 4330 in 2020-21.

- **Chickpeas production in Australia is expected to increase from 2.81 to 7.55 lakh Mt in 2020-21.** Even field peas production would increase from 2.19 to 2.94 lakh MT in 2020-21. Even lentils production may increase from 5.34 to 6.34 lakh Mt in 2020-21.
- **Lentils production in US for 2020 has been pegged at 336,201 MT based on 514,000 acres.** Lentil production is up by 40 % from last year with a USDA production estimate of 7.41 million cwt. Planted acreage was up 9% from 2019 with 528,000 acres in 2020, and harvested acreage was up even more, 21% at 514,000 acres. Average yield is estimated at 1,442 pounds per acre in the U.S., as per data release by the National Agricultural Statistics Service.

Daily Outlook: -Pulses are likely to trade mixed.
