

Pulses Domestic Fundamentals:**Today's Update:**

- **Government has signed Memorandum of Understanding (MoU) with Myanmar to import Tur and Urad** as per the latest notification from Ministry of Commerce. India will import 2,50,000 MT of Urad and 1,00,000 MT of Tur through private trade over the next five financial years i.e. from 2021-22 to 2025-26.
- **According to The Ministry of Consumer Affairs, Food and Public Distribution the declining trend is being recorded in the prices of tur dal, Urad dal and Moong dal.** The average increase in prices of these three pulses during April to June 16, 2021 this year was 0.95 per cent as compared to the previous three months (January-March, 2021). In previous month Govt. has asked states/UT's to order stockists to declare hoarding of pulses. About 6823 traders have registered on Pulse Stock Portal. Till 17 June total pulse stock with traders was 28.66 lakh tonne. Buffer stock target raised to 23 lakh tonnes for the 2021-22 fiscal year by Govt.
- **Gram procurement under Price Support Scheme (PSS) during Rabi 2021 is 5.45 LMT as on 17 Jun 2021** as per market sources. Highest procurement is from Madhya Pradesh amounts 1.93 LMT followed by Maharashtra 1.68 LMT and 1.28 LMT from Gujarat.
- **Supreme court gave decision on the peas import (around 2.5 lakh tonne) case on Thursday.** Supreme court allowed re-export of peas by paying a fine. Re-export needs to be done within 15 days from the date of decision otherwise the cargo will be confiscated and also the option of further statutory appeal stand rejected.
- **The monsoon this time covered two third of the country a fortnight earlier than usual on June 13** and the rains have been 33% excess so far according to Indian Meteorological Department (IMD). This good amount of monsoon has accelerated sowing of kharif crops at faster pace than previous two years. Sowing of pulses have boosted in southern, central and western state due to early monsoon this time. Good rainfall tends to increase in yield and can help tame rising inflation.
- **Government has signed MOU with Malawi to import tur** according to market sources. 50,000 Mt of tur from Malawi annually for 5 years will be imported. Government is signing G2G contracts with other countries to control surging prices of pulses from last two to three month and low buffer stock this season.

Previous Update:

- **Sluggish demand due to various reasons is affecting pulses prices.** The main reasons include closure of hotels, temples, poor purchasing power of the common man, mills facing liquidity issues. Some improvement is expected from mid-July when festive season starts if there will be relaxation in lockdown.
- **Government of West Bengal has issued an order for stock declaration of pulses** with millers, importers and stockists of the state on every Friday commencing from 11th June 2021. Stock declaration order was revoked by Uttar Pradesh Govt few days back but it is still effective in states like Maharashtra, Madhya Pradesh, Rajasthan, Karnataka, Tamil Nadu. The Central Govt had asked States/UTs to direct all stockholders to declare stocks of pulses on 17th May 2021 mainly to monitor prices of pulses.
- **The Cabinet Committee on Economic Affairs approved the increase in the Minimum Support Prices for Kharif crops for marketing season 2021-22.** New MSP for Tur and Urad has been increased by Rs.300 per quintal to Rs.6300 per quintal in 2021-22 from previous Rs 6000 per quintal in 2020-21 for both. While Moong MSP is increased by Rs.79 per quintal to Rs.7275 per quintal in 2021-22 from previous Rs.7196 per quintal in 2020-21. The expected returns to farmers over their cost of production are estimated to be 65% in Urad, 62% in Tur and 50% in Moong.

- **Moong (green gram) procurement will be done at its MSP from 15th June onwards in Madhya Pradesh as per market sources.** Farmers can register themselves from 8th June 2021. Till now procurement of wheat, chana, masoor has been done smoothly in Madhya Pradesh and procurement date for chana has been extended till 15th June from previous 5th June 2021.
- **Buffer stock of pulses is low as 12.5 lakh tonnes from targeted 20 lakh tonnes for this season.** The Govt's buffer stock target was 20 lakh tonnes for 2020-21 current season (September 2021) but it could make 12.5 lakh tonne till now. The buffer stock for various pulses is, gram 754,688 tons, tur 343,940 tons, moong 87,309 tons, urad 55,315 tons, lentils 3,457 tons. Buffer stock is less this season because prices were above MSP during season. Earlier in February govt. had set a target of 23 lakh tons but it was reduced to 20 lakh tons later due to pulses shortage.
- **Pulses and edible oil these two commodities may push inflation up,** they have seen a big surge in prices in last few months. This year there is possibility of paucity of chana and masur because production has been lower than expected. Pulse's production has increased from 17.15 million tonnes in 2014-15 to 25.56 million tonnes in 2020-21 but this is not enough to meet domestic demand. There is need of long-term policy to encourage farmers to grow pulses and oilseeds rather than grains and cereals like policies on procurement and MSP favourable to them.
- **Government launched Seed Minikit Programme recently by distributing high yielding varieties of seeds of pulses and oilseeds to farmers.** About 20,27,318 seed minikits of pulses, will be provided free of cost to the farmers directly under National Food Security Mission. The main purpose is to enhance production and productivity of pulses and oilseed. The distribution of seeds will be done before 15th June to reach to farmers before kharif season. Pulse's production has increased from 17.15 million tonnes in 2014-15 to 25.56 million tonnes in 2020-21 but this is not enough to meet domestic demand and that's why need more encouragement to grow pulses and oilseeds.

International Market Update:

- **Australia's first crop production forecast for a current season for five major pulses including chickpeas, field peas and lentils released by Pulse Australia (PA),** it is 2.28 Mt which is 23% below the 2.96 Mt produced last year. Chickpea area is forecast to increase by 11% to 5.65 lakh ha with production estimate 6.62 LMT. Forecasted area for peas is 2.38 lakh ha with production estimate of 2.7 LMT while forecasted area for lentils is 3.04 lakh ha with production estimate of 4.54 LMT. Australia's production is down this year on dry conditions.
- **Lithuania's export of peas increased by 4 % from 6500 to 6762 MT in Feb-2021.** Total export of peas was registered at 13262 MT against 61752 MT in the previous calendar year. It is comparatively much lower than last year. It exported 3,516 MT for Netherlands, 2,279 MT for Latvia and 481 MT for Poland.
- **Peas planting is on in the US. As per the latest updates by market sources 11% planting is almost complete** at this point of time against 6% last year and the recent average of 9%. Progress remains most rapid in the U.S. pacific northwest, with farmers in Oregon wrapping up plantings, Washington state is registering the slowest progress of the three states in the region, with 24% of the crop in the ground, compared to 48% last year but close to the recent five year average of 26% complete by the third week of April.
- **Chickpeas export from Australia decreased from to 91,200 MT in February in comparison 178,951 MT in Jan-2021-** according to a recent data from Australia Bureau of Statistics. This increased exports so far during the marketing year to 439,975, up 119% last year. Pakistan was the largest destination, taking 41,946 MT, followed by Bangladesh buying 34,016 MT and U A E at 4,590 MT.

- **As per the latest data release by Federal Customs Service of Russia chickpeas export from Russia decreased by 40% to 4,574 metric tons (MT) in Jan-2021.** It was 7,674 MT in Dec-2020. The data showed movement was down 84% from the 28,284 MT recorded during the same month last year. Pakistan was the top consumer during the month, receiving 2,314 MT. Jordan was the second most important importer taking 997 MT, followed by Turkey at 460 MT.
- **Bangladesh and Pakistan continue to buy chickpeas from Australia and so prices hinge around \$660-670 per MT basis CiF at destinations.** Pakistan has been regular buyer of containerized Australian chickpeas, and its peak figure of recent years is believed to be 37,759t in December 2020, the biggest volume seen since 34,805t in April 2018. The February 2021 export figure could well be above that to reflect containerized exports as well as the 25,000t of bulk to Pakistan, and further bulk sales to Bangladesh.
- **Prices for mung beans stayed steady at previous month level at around \$1300/t for No. 1 grade, \$1200/t for processing and \$1100/t for manufacturing.** Harvesting is expected to begin soon in Queensland. Recent rains are beneficial to standing crop in the field. Production prospects have improved a lot. Chinese buyers are active and most of the mung beans booked for shipment from April onward.
- **Lentil's production in Canada is expected to decrease from 28.68 in 2020-21 to 2.7 MMT in 2021-22 due to slightly lower area & yield.** Export too are expected to decrease by 2 lakh MT to 25 lakh MT in 2021-22. Total supply is expected to decrease from 31.77 to 29.25 lakh MT due to likely lower production in 2021-22. Against it domestic usage. However, domestic use would decrease from 3.27 to 2.75 lakh MT in 2021-22. So carryout stock would stay at same as last year at 1.5 MT. Average yearly price is expected to be in the range of \$ 585 per MT. For 2002-21 it is \$ 600 per MT.
- **Dry peas production in Canada is expected to decrease from 45.94 lakh Mt in 2020-21 to 44.00 lakh MT in 2021-22** due to lower expected yield from 2.73 to 2.57 tonne in 2021-22. Total supply too would decrease from 49.22(2020-21) to 47.90 lakh MT in 2021-22. Export fig too is expected to decrease from 38 to 37 lakh MT in 2021-22. However, domestic usage may increase from 8.22 to 8.40 lakh MT in 2021-22. Carryout would decrease from 3 to 2.5 lakh MT. Yearly average price may hover at \$300 per MT in 2021-22 against 4330 in 2020-21.

Daily Outlook: -Pulses are likely to trade mixed.
