

Pulses Domestic Fundamentals:**Today's Update:**

- ***In Madhya Pradesh dal millers have demanded mandi fees exemption which levied on pulses arriving from other state into M.P. Earlier complete exemption had been given but stopped now due to which pulses industries are trailing behind from other states including Gujarat, Maharashtra, Chhattisgarh, Rajasthan, Andhra Pradesh and Karnataka.***
- ***According to Ministry of Agriculture, Pulses are sown on 119.54 lakh ha as on 6th Aug 21 against 117.36 lakh ha same period last year. Overall sowing is up by 1.86%. Tur is up by 5.44% while Urad and Moong area is lowered 1.45% and 2.58%. Tur is sown on 44.41 lakh ha against 42.12 lakh ha, Urad is planted on 33.9 lakh ha which is against 34.4 lakh ha same period last year. Moong has sown on 30.24 lakh ha against 31.04 lakh ha same period last year.***
- ***Kabuli Chana has been removed from the DoCA (Department of Consumer Affairs) portal so there is no need to give stock information of Kabuli Chana on DOCA portal. Stockists need to upload stock information for rest of the pulses including Gram, Tur, Urad, Moong and Masoor.***
- ***The Government has increased the buffer target for pulses from 19.5 LMT in financial year 2020-21 to 23 LMT in the current financial year 2021-22 under Price Stabilization Fund (PSF). For Tur, Urad and Moong it is steady at 10 LMT and 4 LMT and 1 LMT resp. It has been increased by 3 LMT to 6 LMT for Chana and increased by 0.5 LMT to 2 LMT for Masoor for 2021-22.***

Previous Updates

- ***The IMD said that region-wise monsoon in August is expected to be below normal to normal over many areas of central India and some areas over northwest India. But it will be normal to above normal over most parts of peninsular India and northeast India. The area under pulses has improved over last week so it can be seen improved further also but need to keep a watch till mid-August.***
- ***As per trade sources, Government may increase import of pulses to control surging prices from countries like Sudan, Mozambique, Malawi, Tanzania, Myanmar, Kenya taking clue that the production may be low this year looking at the current situation although sowing of Tur, Moong, Urad has been improved last week.***
- ***According to Ministry of Agriculture, Pulses are sown on 107.87 lakh ha as on 30th July 2021 against 111.15 lakh ha same period last year. Overall sowing is lagging behind by 3.28 lakh ha. Tur is up by 1.60 lakh ha while Urad and Moong area is lowered 1.53 and 1.04 lakh ha. Tur is sown on 41.83 lakh ha against 40.24 lakh ha, Urad is planted on 29.96 lakh ha which is against 32.89 lakh ha same period last year. Moong has sown on 26.47 lakh ha against 29.38 lakh ha same period last year.***
- ***The stockholders put forward various demands and concerns in front of Ministry in the meeting held on 30th July 21. The clearance of pulses in SEZ (Special Economic Zone) should be done earliest, there should be separate portals for imported and domestic goods as imported goods are exempted from stock limit, what policy will government adopt after 31st Oct. as billing date for imports is 31st Oct 21. These were points put forwarded and Government's decision is awaited on this.***
- ***According to ministry, Government has procured 24,871.82 MT of pulses in Kharif 2020-21 season. Amongst which Tur amounts 13,730 MT, 11,004 MT is Tur and 137.16 MT contributed by Urad. In Rabi, only 7 MT Gram***

was procured in the entire season while contribution of lentil is negligible. The quantity of procurement is low mainly due to higher prices during arrival than MSP.

- **Prices in all pulses market improved marginally after relaxation in stock limit order.** Chana at Bikaner traded at Rs. 5000/qtl on 28th July 21. Red Tur at Gulbarga also traded at Rs. 6250/qtl. Urad FAQ at Mumbai and Chennai traded at Rs. 6700/qtl and Rs 6600/qtl respectively yesterday. Moong at Jaipur further increase upto Rs. 6700/qtl and Masoor at Kanpur (mill quality) traded at Rs.6750/qtl.
- **The Government on Monday revised the duty and agriculture infrastructure development cess structure for lentil.** The basic custom duty has been reduced from 10% to nil originating in or exported from countries other than USA. The basic custom duty has been reduced from 30% to 20% originating in or exported from USA. Agri cess has been reduced from present rate of 20% to 10%.
- **Pulses crop in Maharashtra and Karnataka may be affected due to above normal rains.** Around 20,000-25,000 ha area is said to be lost for Arhar in the both states. The flood situation has occurred in Raigad, Ratnagiri, Sindhu Durg, Pune, Satara and Kolhapur. In Karnataka excessive rainfall has been observed in Gulbarga, Bidar and Yadgir region. So, sowing may get affected due to erratic monsoon.
- **According to Ministry of Agriculture, Pulses are sown on 87.30 lakh ha as on 23rd July 21 against 97.19 lakh ha same period last year.** Overall sowing is lagging behind by 9.89 lakh ha. Tur is sown on 38.44 lakh ha against 36.48 lakh ha, Urad is planted on 22.13 lakh ha which is against 28.62 lakh ha same period last year. Moong has sown on 20.90 lakh ha against 25.62 lakh ha same period last year.
- **The Central Government on Monday (19th July 21) amended the stock limit order earlier prescribed by the GOI.** The stock limits will be applicable only on Tur, Urad, Gram and Masoor for a period up to 31st October 2021. Importers of pulses has been exempted from stock limits. The stock limit for wholesaler will be 500 MT and for retailers remains at 5 MT. For millers stock limits will be last the 6 months' production or 50% of annual installed capacity, whichever is higher. However, all legal entities including importers will continue to declare their stocks on the web portal of the Department of Consumer Affairs.

International Market Update:

- **In Manitoba grasshopper population thrive in some area due to hot and dry conditions.** It is an additional threat to the pulses production along with heat wave condition. Due to prolonged record breaking heat this summer has deteriorated crop growing conditions in Alberta. Alberta and Saskatchewan government doubled low yield appraisal threshold for farmers who salvage cereal/pulse crop as feed. Saskatchewan, Alberta and Manitoba are major lentil growing states in Canada.
- **The heat damage to crops is broader in Manitoba, Saskatchewan, Alberta.** As middle of Jul U.S. Department of Agriculture rated subsoil moisture in the state as 80% short to very short. Lentil production in Canada may decrease by 50% from normal 24-25 LMT to 12-13 LMT this year. In Saskatchewan lentil crop condition was 18% good, 40% fair and 42% poor till last week. Crop is in pod filling stage and facing extreme moisture loss. The current quotes for lentil are at \$750. It may move up to \$780-800.
- **Australia's first crop production forecast for a current season for five major pulses including chickpeas, field peas and lentils released by Pulse Australia (PA),** it is 2.28 Mt which is 23% below the 2.96 Mt produced last year. Chickpea area is forecast to increase by 11% to 5.65 lakh ha with production estimate 6.62 LMT. Forecasted area for peas is 2.38 lakh ha with production estimate of 2.7 LMT while forecasted area for lentils is 3.04 lakh ha with production estimate of 4.54 LMT. Australia's production is down this year on dry conditions.

- **According to reports from USDA state level offices Peas harvesting started in the US.** In Montana around 20% crop has been harvested. Limited progress is also reported in Washington state and Oregon, suggesting around 101,000 acres of peas have been harvested, compared to roughly 10,000 at this time last year. Markets expect the first production estimate in September, but if yields are at least within 10% of their recent five year average around 88,000 metric tons (MT) of peas are now in bin, compared to roughly 7,000 at this time last year.
- **Lentils markets in the North America continued to trade firm on the back of strong export sales and fear of low yield in major growing belts.** Millers, importers and traders are expecting reduction in duty as supply side is tight in the local market. Indian gov.t too is monitoring market very closely and taking necessary actions to control the price rise. In this regard 3 steps, like freeing import of Tur, Moong & Urad from restricted to free list till October 2021 on 15th May, stock declaration and stock limit on 2nd July-2021, have been taken. All these developments go against exporting countries as prices in the Indian markets have decreased by 10 to 20 %, barring lentils, from mid-May-2021.
- **Chickpeas market too traded up due to doubt over yields and quality in Canada and the US.** However, desi chickpeas traded low due to poor demand from Pakistan and the Asian countries. It has affected chickpeas value in Australia too. India is not taking interest to buy Chana as prices have come down here below minimum support price.
- **Area planted for all chickpeas for the 2021 crop year is estimated at 341,000 acres,** up 26% from the previous year, according to the USDA's annual seeded area report. Area harvested is forecast at 334,600 acres, 27% above 2020. Small chickpea area planted is estimated at 67,000 acres, up 38% from 2020. Area harvested for small chickpeas is forecast at 65,600 acres, a 37% increase from 2020. Area planted for large chickpeas in 2021 is estimated at 274,000 acres, a 24% increase from the previous year. Large chickpeas area harvested is forecast at 269,000 acres, a 25% increase from 2020.
- **The seeded area under dry peas is expected to be slightly higher at 1750 thousand ha in 2021-22** against 1722 thousand ha last year in Canada. However, yield may decline from 2.73 to 2.57 t/ha this year due to average yield expectation owing to the expected uncondusive weather conditions. So, the production is forecast to decrease from 4594 to 4400 thousand tonnes this year. Total supply and the export figure too may decrease from 4927 to 4790 and 3800 to 3700 thousand tonnes respectively. However domestic use may increase from 827 to 840 thousand tonnes this year. The carryout to decrease from 300 to 250 thousand tonnes.

Daily Outlook: -Pulses are likely to trade mixed.
