

## Pulses Domestic Fundamentals:

### Today's Update:

- **According to Ministry of Agriculture data, total pulses sown in Rabi 2021-22 stands at 97.53 lakh ha as on 26th Nov 21 against 94.02 lakh ha same period last year.** Overall sowing is up by 3.52 lakh ha till now. Gram has been sown on 70.01 lakh ha against last year's 65.21 lakh ha, up by 4.80 lakh ha. Lentil is planted on 10.94 lakh ha, Moong on 0.45 lakh ha, Urad on 2.41 lakh ha. Peas area stands at 7.18 lakh ha against last year's acreage of 7.23 lakh ha.
- **The sowing of Masur has entered into last phase now and there is a fear in the market that the area may decrease from last year by 5-8%.** Despite, Favorable weather conditions area in Uttar Pradesh and Bihar is down by 11% & 22% respectively. Even in the West Bengal area is down by 4%. However, among major growing states like Madhya Pradesh area is up by 16% to 4.61 lakh ha. It may touch 5 lakh ha this year by 15th Dec-2021. As doubt regarding sowing still persists in Uttar Pradesh and Bihar as fields were underwater in both states at the beginning of the sowing. The next 15 days is very crucial from the sowing point of view.
- **Urad sowing in major Rabi growing states like Andhra Pradesh and Tamil Nadu got hampered due to excessive rains in South India for the last few weeks.** Continuous rains have raised concerns regarding sowing coverage this rabi season in South India. The major Urad growing districts in Andhra Pradesh are Krishana, Kurnool, Prakasham, Srikakulam, Guntur, Vizianagaram and Godavari. In these districts, there is water logging in many fields, so it would be very difficult to estimate losses until the weather gets clear. It may drive Urad prices up in the coming days.

### Previous Updates

- **Centre has extended the Pradhan Mantri Garib Kalyan Anna Yojana (PMGKAY-Phase V) for a period of another 4 months that is December 2021 till March 2022.** In this scheme Government gives 5 kg per person per month foodgrains free of cost to 68 crore families and 1 kg Gram to 19 crore families. So this would cap any uptrend in Chana cash market.
- **Standing crops on around 7.5 lakh ha has been affected in Karnataka and Andhra Pradesh due to recent excess rains.** Water logging condition is there in Anantpur, Kadappa, Chittore and Nellore districts of Andhra Pradesh. Tur crop has been affected in some parts of Karnataka. Due to these losses Tur crop is likely to trade firm in coming week. If rains continue then prices may move up more.
- **The selling pressure in Tur may get curbed and slight correction can be seen due to the demand coming out in the lower prices.** There is a possibility of delay in harvesting of new tur crop due to rains in the last 4-5 days in the growing areas of tur. Also, the tur dal procured through tender by the Tamil Nadu Civil Supplies Corporation has been approved. Retail and wholesale demand in pulses is expected to improve as the demand is expected to pick up on account of wedding season.
- **The condition of Tur crop is good so far in all major growing states especially in Maharashtra and Karnataka.** Some losses are reported from Andhra Pradesh and some districts of Karnataka due to non seasonal rains. The arrival from new crop started in Solapur and Bijapur region and may improve further in December. In other states crop is in flowering to pod filling states. With regular import and likely new arrivals may pressurize Tur cash market in coming weeks.

- **According to Ministry of Agriculture data, total pulses sown in Rabi 2021-22 stands at 76.12 lakh ha as on 19th Nov 21 against 76.19 lakh ha same period last year.** Overall sowing is down by 0.06 lakh ha till now. Gram has been sown on 53.68 lakh ha against last year's 52.15 lakh ha, up by 1.53 lakh ha. Lentil is planted on 8.84 lakh ha, Moong on 0.25 lakh ha, Urad on 1.34 lakh ha. Peas area stands at 6.67 lakh ha against last year's acreage of 6.53 lakh ha, up by 0.14 lakh ha till 19 Nov 21.
- **The sowing activities of Chana are running behind our normal expectations.** Report from the major growing states like Rajasthan & Madhya Pradesh is not very encouraging. Farmers have shifted Chana area to Mustard in both the states. So, the area may end up with 102-103 lakh ha this year against 110 lakh ha last year.
- **The arrival of Chana in Delhi market from Rajasthan and M.P. is poor right now.** Stock with mills in Delhi is decreasing. So, prices are steady at 53-5350 in Delhi despite the low demand from retail and wholesale sectors. Under prevailing conditions any decrease in the cash market is unlikely. Right now demand for besan and dal is not satisfactory and sale by Nafed through auction continues. So, Agriwatch expects range bound movement in Chana cash market.
- **Demand for Urad Chhilka and Dhoya is weak right now and it has put a cap on the price rise in the cash Urad market.** Crop coming from the Chandausi line is said not to be in good condition quality and grain wise. Farmers and experts say that the no of grains is less than normal expectation. Apart from it arrival from Rabi crop is far away It would not be available before Feb. Import flow is slow as availability in Myanmar is not more than 75 000 MT. New crop in Myanmar would be ready only in March. So market may trade steady until demand improves. Overall tone seems firm.
- **New Tur started from Sholapur region.** Around 130 bags were reported to hit the markets. The rate received for the new crop was 6000 per qtl. As moisture level is high in the new crop, prices received by farmers was low. By the end of this month, pressure in this region may build up and prices may slip to 5600-5700. The incoming crop is very good and supply in the market would increase. So sentiment remains weak for the Tur market. Old crop in Gulbarga market is being traded at 6350-6400. Millers may wait for bulk purchase at this point of time. This year Nafed would be able to procure good quantity as the crop size is good while prices may slip below MSP. Imported Tur is available at 5950-6000 in Mumbai.
- **According to Ministry of Agriculture data, total pulses sown in Rabi 2021-22 stands at 55.10 lakh ha as on 13th Nov 21 against 59.16 lakh ha same period last year.** Overall sowing is down by 4.07 lakh ha till now. Gram has been sown on 38.90 lakh ha against last year's 41.33 lakh ha, down by 2.43 lakh ha. Lentil is planted on 5.23 lakh ha, Moong on 0.14 lakh ha, Urad on 1.13 lakh ha. Peas area stands at 5.88 lakh ha against last year's acreage of 4.72 lakh ha, up by 1.17 lakh ha till 13 Nov 21.
- **Telangana Government advised farmers to cultivate Black gram during Rabi season 2021-22 and assured to purchase at minimum support price of Rs 6300 per quintal.** If in case market prices is higher than MSP then government is ready to buy at market price also. Other crops suggested to farmers for cultivation are Green gram, Groundnut, Mustard, Sesame, Safflower as these crops have good demand in the market.
- **The prices of pulses have cooled down after the Central Government recently cut the excise duty on petrol and diesel.** As the prices of the pulses have come down in wholesale markets, the retail rates are also expected to cool down in few days. Also new crop of Urad and Moong is coming to the markets and Tur crop is expected in next month, this also helps to keep prices in check.

### International Market Update:

- **Agriculture and Agri Food Canada (AAFC) has finalised the production of lentils in Canada at 18.02 lakh tonnes for 2021-22 as per recent November reports.** Production is lowered by 10.66 lakh tonnes from last year's production of 28.68 lakh tonnes.
- **Field peas import in Spain increased by 268 % to 58127 MT in Sep-2021, as per the latest update by Eurostat data.** Spain had imported 15778 MT in Aug. Total import from Jan to Sep reached at 116257 MT against 132195 MT last year same time. Russia supplied 49970 MT in Sep, followed by Ukraine at 7591 MT.
- **As per the latest update by Statistics Canada, Green Peas export from Canada declined in Sep-2021 to 9890 MT against 17437 MT in Aug.** Canada has exported total 27327 MT during the marketing year. It is down by 29% from last year till Sep. The UAE was the biggest importer, buying 3,573 MT, followed by Colombia, taking 2,184 MT and Philippines at 865 MT.
- **So far during this marketing year added to a weaker trend, with green pea export shipments from Canada were well down, plunging relative to the previous month in September, judging from available statistics from Statistics Canada.** Export sales during the month totaled 9,890 metric tons (MT), down from 17,437 MT the previous month. This boosted shipments so far during the marketing year to 27,327, down 29% last year. United Arab Emirates was the biggest consumer, buying 3,573 MT. Colombia was the second most important importer taking 2,184 MT, followed by Philippines at 865 MT.
- **The IGC is going to include Lentils, Chickpeas and Dry beans in the Council's definition of grains under Article 2(1) (e) of the grains Trade Convention.** This means that now the IGC secretaria will expand its market information for Pulses. Actually, pulses trades are continuously increasing throughout the world and has expanded with good pace and reached at 16 to 17 million MT in last 5 years. Right now the IGC is providing updates on Pulses trade and production estimates in the Grain Market Report on a bimonthly basis. Apart from it S&D balances are published for major exporters for Pulses like Lentils, Dry Peas and Chickpeas. Now FoB prices matrix too would be included.
- **Global Lentils market continues to trade under pressure. Indian buying is limited while bumper crop in Australia has increased the pressure on Canadian Lentils.** There is a gossip in the market that Indian importers had imported Lentils in May-June taking advantage of low duty and now they are selling it at cheaper price, asking prices for Canadian origin product. Pressure may continue as long as India remains out of the Canadian market. Lentils stock at Indian ports are said to be around 3.75 lakh MT. Apart from it local market has stock of 4 lakh MT. So, the available stock is sufficient to meet the requirement for four months. In March new local crop would be available. So, the urgency of buying at the higher cost has mitigated.
- **Argentina has exported 202MT Kidney beans in August-2021, unchanged from the previous month.** Now the total export during the calendar year reached at 52328 MT. It is down by 78% from 2020 till August. Buyers of Kidney bean from Argentina are still unwilling to buy in bulk quantity. High price, weak demand globally and availability at other origins at competitive prices have affected the volume of import.
- **As per the latest release by Australia Bureau of Statistics, Lentils export from Australia posted a smart gain in August-2021 to 1,19,440 MT, up by 93% exported in July-2021.** Australia had exported 61892 MT in July-2021. So far Australia has exported total 796,239 MT in the ongoing season against 604,690 MT last year till August-2020. India emerged as a top buyer in Aug, buying 61,415 MT, followed by Bangladesh at 24,271 MT and UAE at 22,758 MT. India may remain major buyers in Sep and Oct too.

**Daily Outlook:** -Pulses are likely to trade mixed.
