

## Pulses Domestic Fundamentals:

### Today's Update:

- **According to Ministry of Agriculture data, all India Rabi pulses area was down by 2.36 % to 144.47 lakh ha as on 24<sup>th</sup> Dec-2021 despite a good recovery was seen during last three weeks for Masur & Urad.** Farmers have covered 102.49 lakh ha under Chana so far, almost similar to last year. Lentil area continues to recover and moved up by 4.28 % to 16.30 against 15.68 lakh ha. However, Urad area was down by 12.60 % to 4.97 lakh ha. Moong area too was down by 50.76 % to 1.29 lakh ha. Field pea area was down by 6.42 % to 9.36 lakh ha. The concern over Urad, Moong and field peas remains as it was before, as sowing may continue hardly 15 days from now except Moong. Rabi Moong area is likely to recover as the sowing duration is long and May continue till Jan-2022. By the end of Feb, summer sowing for Moong starts. See sowing details on page no.4
- **Despite reports of Tur crop loss in Karnataka & Maharashtra due to heavy rains Nov this year, the crop condition in an unaffected area is normal to good so far.** As expected, the crop size is higher than last year as the arrivals in Karnataka & Maharashtra show. In the both major states arrivals were registered higher by 11.34% in Karnataka & 40.16% in Maharashtra during 1-25<sup>th</sup> Dec. Higher arrivals, increasing import volume, decreasing quotes in Myanmar (\$735 to 700 last week) just ahead of new crop have pressurized the Tur price. Arrivals would continue to increase. Prices of Tur in various markets decreased by 150-200 during last week. Lemon Tur decreased in Mumbai by 3.93% to 5800 while in Gulbarga it decreased by 2.18% to 6170. The decreasing trend may be capped by the procurement drive starting from 1<sup>st</sup> Jan-2022. Karnataka govt. would procure 2.5 lakh MT while Maharashtra would procure 2.71 lakh MT. Govt.'s agencies would be able to procure over 6 lakh MT for the central pool this year. With the commencement of the procurement drive, market should improve slightly in the coming weeks.
- **Government has extended the free import policy of Tur and Urad and has approved import policy for Moong as free with immediate effect.** Now Tur, Urad, Moong can be imported with bill of lading dated on or before 31<sup>st</sup> Mar 2022 and import should be cleared from customs on or before 30<sup>th</sup> June 2022.

### Previous Updates

- **Nafed is expected to start Tur procurement at MSP in Maharashtra from next week.** Online registration for the same has started from today 20<sup>th</sup> Dec 21. Tur procurement target in Maharashtra has set at 2.71 lakh tonnes. Karnataka government has started registration for Tur procurement from 15<sup>th</sup> Dec 21 and target set at 2.5 lakh tonnes.
- **Ministry of Finance has banned Chana futures contract for a period of one year.** Chana futures contract were already declared as banned in futures market in August month but until what period was not made clear. This decision will act as a cap on Chana prices.
- **Government of India allowed further extension of the import of lentils from Russia till 30<sup>th</sup> June 2022 as per phytosanitary requirements.** First notification regarding import of lentils from Russia was out on 03 Sep 2021. Earlier India were not importing lentil from Russia due to phytosanitary issues.
- **Import of Moong has increased substantially due to free import regime this year from May to December.** Moong import rose to 1,46,654 MT during Apr-Nov 21 from 22,050 MT in the year ago period. As per trade sources, India has imported 22,988 MT of Green Gram during the month of Nov-2021 against 34,176 MT during

Oct-2021. Around 7,650 MT has been imported from Afghanistan, 4,637 MT from Mozambique, 1,983 MT has been imported from Brazil.

- **Import of Urad has increased substantially due to free import regime this year from May to December.** Urad import rose to 3,98,106 MT during Apr-Nov 21 from 2,25,548 MT in the year ago period. As per trade sources, India has imported 65,269 MT of black gram during the month of Nov-2021 against 91,639 MT in Oct-2021. Largest quantity has been imported from Myanmar i.e. 65,247 MT.
- **Import of Tur has increased substantially due to free import regime this year from May to December.** Tur import rose to 4,79,268 MT during Apr-Nov 21 from 1,71,124 MT in the year ago period. As per trade sources, India has imported around 96,395 MT Tur in Nov 2021, the last month of ongoing MY, including G to G contracts and by private traders. Around 47,233 MT has been imported from Mozambique, 32,610 MT from Tanzania and 8,036 MT from Malawi.
- **Government of India has extended a period of relaxation for imported agricultural commodities requiring fumigation of Methyl bromide till 31<sup>st</sup> Mar-22.** The bill of lading should be on 31<sup>st</sup> March 2022 or before. Regarding this notification has been issued today.
- **As expected, area under Masur continued to recover smartly during the last week and it increased by 0.69 lakh ha to 14.89 lakh ha.** It is up by 4.86 % from last year same time. Agriwatch has estimated lentil's production of 11.91 lakh MT for 2022-23 MY, which is slightly higher by 0.18 lakh MT from previous year. Last year's production was 11.73 LMT. As weather conditions are good in UP and MP, yield is expected to be normal. Decreasing temperature at night is good for the growth of standing crop. Prices of Masur have decreased by 100 to 7500 in Kanpur. Price may stay steady to slightly down as quotes in Canada has decreased to \$1005 per MT from the previous \$1080.
- **Uttar Pradesh Udhog Vyapaar Pratinidhi Mandal has decided to launch a protest against the re-installation of market fee on 15<sup>th</sup> of Dec** at the market directorate office, Lucknow. Actually, the state govt. has re-installed the market fee and now the market fee would be applicable for those traders/brokers too, who are working outside the APMC market as before. It may affect the normal trading activities, if the protest continues for a longer time.

### **International Market Update:**

- **Agriculture Canada has revised down Field Pea production estimate by 10.65% to 22.58 lakh MT for 2021-22 in Dec against Nov-2021.** It was 25.27 lakh MT in Nov-2021. If we compare last year's production, it is down by 50.85%. Pea production in Canada in MY 2020-21 was 45.94 lakh MT. This means the availability of pea in 2022 would be 50 % low and it would keep the price up at the current level. Prices of Peas would continue to rule near \$580-600 throughout 2022. As import is not taking place for India due to restrictions, the price may be stable at the current level. As production has decreased, export volume from Canada too would decline by 8% to 21 lakh MT from Nov estimate and 41.34% from the actual of last year. If the Indian govt. allows import (unlikely), prices of other pulses, especially Chana may decrease further. Consumers in India have already moved to Chana as availability in the domestic market is higher and it is cheaper. New crop in India would hit markets by Feb-end March. As Chana is trading weak, sentiment for the pea market too is weak.
- **As per the latest update released by Agriculture & Agri Food Canada Production estimate of Lentil for 2021-22 has been revised down by 10.88% to 16.06 lakh MT from Nov estimate of 18.02.** If we consider it from 2020-21 production, it is down by 44 %. Canada had produced 28.68 lakh MT last year. Total supply has come

down by 9.24 % due to this latest revision. It has decreased to 20.72 from 22.83 lakh MT in Nov-2021. If we compare it from last year total supply has decreased by 35.04 %, when total supply was 31.90 lakh MT. At export front too availability has decreased by 10.52 % to 17 lakh MT, it was 19 lakh MT in Nov while 23.46 lakh MT in 2020-21. It hints that prices of Canadian Masur may move up again, if Australian suppliers restrict their sale at the current prevailing prices, sensing the decreasing availability in the global market throughout the first half of 2022. The landed price may move up again to \$1180 from \$1040-45 per MT right now. Its impact on domestic markets in India might be seen in Jan-Feb-2022

- **The harvesting of pulses winter crop in Australia is running smoothly and is helping in meeting the strong demand in the global market despite the low availability of containers.** As per the latest updates by Pulses Australia, the prospect for export from Australia is very good because of low production in Canada this year. Indian buyers were reluctant to buy in volume from Canada in the beginning of Nov. as they were aware of the bumper Australian crop. The production estimates for the Australian pulses have been published. As per the latest estimates Australian would harvest 8.44 lakh MT Chickpeas in 2021-22 (Abares estimate) while Pulses Australia sees it at 8.70 lakh MT. The 10 years production average is 7.89 lakh MT. Chickpeas availability in the global market would increase and it may ensure stability in price in the global market.
- **As per the latest Abares estimate Lentils production in Australia pegged at 6.39 lakh MT in 2021-22. The Pulses Australia sees it at 7.10 lakh MT.** The 10 year's average production for Lentils is 4.24 lakh MT. Indian buyers may take interest in Australian Lentils. No deals have been struck so far. However, containers issue and higher freight would keep the import costing high in 2022 too. Major growing states like Queensland and northern NSW, containers availability is still low, and no path to bulk export exists because shipping slots are fully booked. This means scope for immediate export in bulk volume is limited. Prices have come down to a certain extent and growers may prefer to hold stock for better price.
- **The Field Peas production in Australia may decrease from 10 years average of 2.8 lakh MT to 2.5 lakh MT in 2021-22, as per the latest fig. published by Abares.** Australia Pulses sees it at 3.20 lakh MT. Export demand for the Australian Peas may increase as availability in Canada is down while prices are ruling higher. Malaysia & China would continue to import peas from Australia.
- **Agriculture and Agri Food Canada (AAFC) has finalised the production of lentils in Canada at 18.02 lakh tonnes for 2021-22 as per recent November reports.** Production is lowered by 10.66 lakh tonnes from last year's production of 28.68 lakh tonnes.
- **Field peas import in Spain increased by 268 % to 58127 MT in Sep-2021, as per the latest update by Eurostat data.** Spain had imported 15778 MT in Aug. Total import from Jan to Sep reached at 116257 MT against 132195 MT last year same time. Russia supplied 49970 MT in Sep, followed by Ukraine at 7591 MT.
- **As per the latest update by Statistics Canada, Green Peas export from Canada declined in Sep-2021 to 9890 MT against 17437 MT in Aug.** Canada has exported total 27327 MT during the marketing year. It is down by 29% from last year till Sep. The UAE was the biggest importer, buying 3,573 MT, followed by Colombia, taking 2,184 MT and Philippines at 865 MT.

**Daily Outlook:** - Pulses are likely to trade mixed.
