

Pulses Domestic Fundamentals:**Today's Update:**

- **Chana markets traded mixed on the back of poor offtake by mills in Central and North India while aggressive buying** by agencies in South India. At Delhi, Rajasthan origin Chana traded at INR 4975 per quintal down by INR 25 per quintal from INR 5000 per quintal while in Pipariya mandi of MP, it traded at INR 6100 per quintal up by INR 100 per quintal from INR 6000 per quintal. Demand is likely to increase throughout India so, AgriWatch expects prices to trade either steady or up in current week. Chana prices are expected to improve in coming days with the beginning of marriage season and the ongoing smooth procurement drive. State agencies, including NAFED have procured around 14 LMT Chana so far.
- **In Kodinar mandi of Veraval (Gujarat), new Urad arrivals of 100 bags reported on Monday and traded** between the range of Rs 6,600 to 6,760 per quintal as Muhurat trading. It is expected that markets may witness some good summer urad arrivals in days to come. Prices would take cues from the pace of arrivals and move accordingly in coming week.
- **In Jabalpur mandi of MP, new Urad arrivals of 3 bags reported on last Saturday and traded at Rs 8,121 per quintal** as Muhurat trading. Though, usually the crop size of summer urad is very small in size but this season the area has increased by 40% from last year. So, it is likely that markets may witness some good summer urad arrivals in days to come.

Previous Update:

- **Summer Urad sowing continued to gain momentum in all states including Madhya Pradesh. Farmers have covered 3.66 lakh ha** as on 06th May-2022. It is up by 40% from the same time last year. The normal area under summer Urad is 3.86 lakh ha. The major growing states are Tamil Nadu, M.P. and Uttar Pradesh.
- **Farmers have covered 16.24 lakh ha under summer Moong so far, up by 14% from 14.23 lakh ha** last year same time. M.P. is a major growing state, where sowing area was reported at 8.32 lakh ha. Recovery in area may minimize the impact of the rising temperature and the fear of small grain size.
- **Masur cash market traded up by INR 25-200 per quintal** in various markets due to good demand at current levels. In Vidisha (MP), Masur traded at INR 6250 per quintal up by INR 50 per quintal from INR 6200 per quintal while in Raipur, Masur prices hinged at INR 7000 per quintal up by 200 per quintal from INR 6800 per quintal. Overall, sentiments remain firm. Stock at various ports is around 1.25 lakh tonne down by 1.75 lakh tonne from March.
- **Tur prices traded in the range of INR 25-100 per quintal up and down amidst lower buying interest and offtake** for both raw and processed Tur from stockists and millers side. MP origin Tur in Kanpur mandi of UP traded at INR 6050 per quintal up by INR 25 per quintal from INR 6025 per quintal while in Nagpur, it traded at INR 5900 per quintal down by INR 100 per quintal from INR 6000 per quintal. Plenty of stocks of imported Tur during last Financial Year are also weighing on the market sentiments as this would keep supply side at comfortable side. Moreover, extended timeline for Tur import will also ensure a smooth import flow in the country which will not let the inner tone to move upside rapidly. So, any spike in price is unlikely at present. Market is expected to trade in the range of Rs 100- 200 up or down from current prices in the coming week.
- **Chana procurement date has been extended in Rajasthan till 29th June, 2022. Registration for it, has already** been started and it will enable farmers to sell more Chana at MSP to procurement agencies. Extended timeline for procurements will help govt. to build up stocks over 2 million tonne. Higher stocks in Central Pool

would enable govt. to control the sentiments of cash market as has seen last year. However, right now prices are ruling below MSP of INR 5,230, so market is expected to move towards MSP level soon.

- **Trading activities remained almost negligible due to holiday on the occasion of Akshaya Tritiya, Parshuram Jayanti and Eid** and prices stayed steady at previous levels. Plenty of Moong stocks in Central Pool, commencement of new Moong from summer crop and significant rise in sowing area (almost up by 53% from same time last year) kept the market sentiments down. At Jaipur mandi, average quality of Moong traded at INR 6,600 per quintal.
- **In short term, inner tone of the Moong could remain subdued. At present, Moong Chamki at Jaipur** was being traded steady at INR 6,700 per quintal while in Indore, it quoted at INR 7,000 per quintal.
- **In Urad cash market too not much activities noticed on Tuesday due to holiday mood. Bench markets,** Jalgaon and Indore remained closed while at Kanpur mandi, Urad desi quoted at INR 7,200 per quintal down by INR 100 per quintal from INR 7,300 per quintal. Urad supply side from Myanmar is expected to be normal amidst ample availability there which may keep the Urad inner tone slightly weak. Moreover, extension in timeline for Urad import till 31st March-2023, will also ensure regular supply in domestic market. However, the medium-term outlook would depend on sowing area under Kharif season and the monsoon rains. If farmers shift area to other lucrative crops, price may move beyond our expected level of INR 6600-7200 per quintal.
- **According to the sources, National Agricultural Cooperative Marketing Federation of India Ltd. (NAFED)** will start procurement of around 43,000 MT pulses. The agency will buy around 30,000 MT of masoor dal and 13,000 MT of gram. The buying would be made at the Minimum Support Price (MSP) through primary agricultural cooperative societies (PACS) and Vyapar Mandal in pulse-growing districts. For the purpose, NAFED has signed an agreement with the Bihar State Food and Civil Supplies Corporation (BSFCSC) last month to use the procurement channels for paddy and wheat. Before it, the procurement process had been suspended for almost a decade owing to a financial dispute with the state government. Farmers in remote areas are likely to get benefit from this procurement drive.
- **With intention of surging supply side in the domestic market and curbing rising prices of pulses, MARKFED** continues to release its stocks of Urad on 20th April 2022. MARKFED has put 6130 MT of Urad for auction. Maximum stocks available for auction in warehouses are, namely Balaji WH Shivpuri (2470 MT), Shri Ji WH & Grader (1130 MT) and Guru Kripa WH Kolaras (1000 MT). Also, some small quantities are available for auction in MAA Ramgarh Wh-2Q Bhandar (340 MT), Soni WH-2 S Bhandar (560 MT), Kishan WH-8 (360 MT) and PHW-3 Badarwas (270 MT). The series of auction is intended to bring down the already higher prices.
- **State agencies have procured 687384 MT Chana as on 18th April-2022. The highest contributors** are Gujarat and Maharashtra, buying over 44 and 43% respectively so far. The procurement volume recorded at 3.05 LMT in Gujarat while 2.95 LMT in Maharashtra. Karnataka and Andhra Pradesh contributed around 58000 MT and AP around 28,000 MT. The procurement volume is likely to increase as the markets back on track after the continuous Holidays last week. The higher procurement volume may lend some support to cash markets in the coming weeks.
- **According to the Ministry of Agriculture and Farmers' Welfare's recent statement, Indian summer pulses sowing figure has reached at 14.18 lakh hectare,** as on 25 April, 2022, up by 53%. The area has been reported mainly from the states of Odisha, Madhya Pradesh, Tamil Nadu, Uttar Pradesh, Gujarat, West Bengal, Bihar,

Andhra Pradesh, Chhattisgarh, Maharashtra, Assam, Karnataka, Rajasthan, Jharkhand, Punjab, Uttarakhand and Jammu & Kashmir.

- **As per latest update by IMD for monsoon rainfall for 2022 Southwest is to be likely** to be normal. It may remain 99% with a model error of $\pm 5\%$.
- **As expected earlier by AgriWatch, The DGFT, India has extended the timeline of Urad and Tur import till March-2023**, by issuing Notification no. 63/2015-20 on 29th March-2022. Now, import of Tur and Urad stands free till March-2023. It would have a cooling impact on domestic prices of both the commodities. The market, players feel that the current step by the Govt. may ensure regular supply from Myanmar. If, there is normal monsoon this year and sowing increase from last year, it may build up pressure on Tur & Urad prices, right now.

International Market Update:

- **As per the recent data released by Australia Bureau of Statistics, Australian Lentils export has increased by 38%** to 102,182 MT in March 2022 compared to 74,163 MT in February 2022. Australia has exported totalled 404,329 MT Lentils so far compared to 432,757 MT in previous Marketing Year. Bangladesh emerged as biggest buyer with buying 51,879 MT Lentils followed by Egypt and India with buying 19,476 MT and 13,318 MT.
- **According to the Australia Bureau of Statistics recent report, Australian chickpea export has decreased by 65%** to 35,563 MT in March from 102,259 MT in February. However, total export volume remained at 324,633 MT during the current Marketing Year down by 35.61% from 511,363 MT in previous Marketing Year. Bangladesh emerged as main buyer with buying around 17,804 MT followed by Nepal and Pakistan with buying 7,337 MT and 2,937 MT respectively.
- **Statistics Canada recent report reveals that farmers in Canada may sow lower Pea area this year to mere 3.55 million acre** (for all classes) down by 7% from earlier estimate of 3.82 million acre. Conducive weather is the main reason for hike in production estimate as drought last year had badly affected the yield. As per experts, if yields remain at five-year average, the output may escalate to 3.31 million tonne up by 47.11% from 2.25 million tonne. However, new production figure still may remain lower from 440,000 million tonne output. Yield likely to be at 2,059 pound per acre this year, below from five year average of 2,258 pound per acre.
- **AS per recent report by Statistics Canada, farmers are likely to seed less Chickpea area this year to mere 175,200 acre** down by 5.55% from 185,500 acre. Though, Chickpea area is estimated to be down, production (mainly Kabuli) is expected to increase by 33.65% to 110,000 tonne from 82,300 tonne on higher yield. Moreover, carry-over stock in Canada is estimated to decrease from 306,300 tonne to 187,000 during 2022-23 as local consumption and export demand during the Marketing Year 2020-21 remained same when yield was impacted heavily by drought.
- **As per the 'Agriculture and Agri-Food Canada (AAFC)' recent report, Lentils output in Canada is estimated to surge by 35.76%** to 25 lakh tonne in 2022-23 much higher from its last year (2021-22) production of 16.06 lakh tonne. However, it is still lower from 2020-21 crop by 14% when the production was 28.68 lakh tonne. Good return, hope of better realisation has helped the sown area to increase.
- **'Agriculture and Agri-Food Canada (AAFC)' recent report reveals, Pea output in Canada is expected to increase by 40%** to 38 lakh tonne in 2022-23 from previous year (2021-22) output of 22.58 lakh tonne. However, the production is still lower from 2020-21 output of 45.94 lakh tonne. Better realisation and hope of good return than other cash crop, helped in increasing seeded area.

- As per the 'Agriculture and Agri-Food Canada (AAFC)' recent report, Lentils output in Canada is estimated to surge by 23.80% to 21 lakh tonne in 2022-23 much higher from its last year production of 16.00 lakh tonne. However, it is still lower from 2020-21 crop by 10% when the production was 23.26 lakh tonne. Good return, hope of better realisation has helped the sown area to increase.
- Myanmar's Central bank as on dated 20th April, 2022 has exempted the some foreign entities from its controversial new exchange rules making mandatory the foreign exchange to be converted into local currency Kyat. Company approved for foreign investment, firms located in Special Economic Zones, International NGOs, diplomats, UN agencies and airlines have been given exemption from this policy. This rule had triggered a panic among corporate.
- Eurostat recent report reveals that field Pea import in Spain has increased in February compared to January. In February, Spain imported 6,245 MT Pea while combined import volume in January and February reached at 6,810 MT, down from same period last year when it had imported 28,467 MT Pea. During the mentioned period, Russia emerged as leading exporter (5,833 MT) followed by France (235 MT) and Canada (169 MT).
- Data received from Eurostat indicates, in the period of January-February, Italy imports of pea have increased by 111.19% to total 29,749 MT up from 14,86 MT during same period last year. In February, it imported 17,075 MT Pea up by 35% from January's import of 12,674 MT. Russia remained major exporter (14,241 MT) of Pea followed by Canada (409 MT).
- Data received from Australia Bureau of Statistics indicates that Chickpea export from Australia at this point in the current Marketing Year has increased rapidly during the February. During the mentioned period, Chickpea export surged by 63.7 percent to totaled at 116,796 metric tonne from 71,334 metric tonne January. To add this, total export increased to 303,607 metric tonne during the Marketing Year. However, this volume is still lower by 30% from same time last year. Bangladesh remained the top importer with buying 81,389 metric tonne followed by Pakistan and Nepal, purchasing 23,180 metric tonne and 4,496 metric tonne respectively.
