

Pulses Domestic Fundamentals:**Today's Update:**

- Moong prices remained almost steady in various markets in spite of lower arrivals pressure owing to low prices than MSP which is INR 7275 per quintal. At present, Moong is being traded at around INR 6400 to 6700 per quintal in Indore and Jaipur Markets. As per sources, MP Govt. has sought for permission from Centre for more Moong procurement. Centre has already granted permission to the State Govt. for procurement of 2.25 lakh tonne Moong. If State Govt. succeeds to get permission for more Moong procurement from Centre than present granted volume, prices may get some support. Otherwise, it is likely to remain stable in coming days.
- Additionally, Punjab has procured around 3000 tonne Moong so far while the target is of 4,555 MT
- Farmers have covered 1.896 lakh ha under kharif Moong as on 17th June-2022, down by 6.88% from 2.036 lakh ha last year same time. Rajasthan is a major growing state, where sowing area was reported at 0.014 lakh ha. Other major producing States are Maharashtra, MP and Karnataka.

Previous Update

- **Urad traded up to INR 7350 per quintal, up by INR 100 from INR 7250 per quintal and in Delhi, Desi Urad heard at INR 7400, up by INR 100 from INR 7300 per quintal on increased buying interest and higher CiF quotes in Myanmar.** CiF quotes in Myanmar for Urad moved to \$940 for FAQ while SQ quoted at \$1040 during last two working days. Uncertainty over distribution of rains is also pushing up prices right now. However, on the revival of monsoon, prices may decrease once again. Importers have restricted fresh deal on expectation of normal monsoon and higher CiF quotes by Burmese traders. Old stocks in markets like Chennai and Mumbai have exhausted to some extent. The stocks from imports have already been sold. Arrival from the new crop is about 2 to 3 months away. Under the prevailing market fundamentals, more increase may be seen.
- **As per official sources, National Agricultural Cooperative Marketing Federation of India Ltd. (NAFED) has procured 25,11,693 MT Chana as of 16th June, 2022.** The States where procurement has been done are: Gujarat (558,627 MT, procurement closed), Maharashtra (NAFED-6,62,484 MT, procurement closed & FCI-72,466 MT), Madhya Pradesh (8,02,000 MT, procurement closed), Rajasthan (2,54,000 MT), Karnataka (73,867 MT, procurement closed), Andhra Pradesh (71,840 MT, procurement closed) and UP (16,409 MT). Chana procurement is being done at the MSP of INR 5,230 per quintal. Total procurement target is 29 lakh MT.
- **At the procurement front, NAFED and other procurement agencies have already procured 25 LMT against the set target of 29 LMT for the year.** As prices are ruling down from MSP, by Rs 400-450, the target is likely to be achieved as the procurement date in M.P. has been extended till June. Improvement in Chana price is likely to continue in coming weeks. As per the market sources, around 30 to 40% stocks have been sold out at the low price while mills are active in Maharashtra and Madhya Pradesh. Chana price is likely to move up by 150-200 if buying activities by mills continue.
- **With the procurement target of 4,555 MT for Moong, Punjab Govt. has started the summer Moong procurement at the MSP of Rs 7,275 per quintal for the first time.** This year, farmers have sowed around 1

lakh acres of land under summer Moong in comparison of 50,000 acres last year. Procurement has been started in the State from 15th June, 2022 and will continue till 90 days of the commencement of procurement.

For the first time, Punjab Govt. has started the summer Moong procurement at the MSP of Rs 7,275 per quintal. This year, farmers have sowed around 1 lakh acres of land under summer Moong in comparison of 50,000 acres last year.

- Kharif Urad sowing continued to gain momentum in all States including Madhya Pradesh. Farmers have covered 0.529 lakh ha as on 17th June-2022. It is down by 28% from the same time last year. The normal area under summer Urad is 3.86 lakh ha. The major growing States are Uttar Pradesh, Rajasthan and Maharashtra.
- Kharif Tur sowing continued to gain momentum in all States including Maharashtra. Farmers have covered 1.059 lakh ha as on 17th June-2022. It is down by 8.55% from the same time last year. The major growing States are Karnataka, MP, UP and Telangana.
- **As per the sources, Chhattisgarh Govt. has bought 20,000 MT of Chana at the rate of Rs 5,400 per quintal** through a tender. This Chana will be delivered at the designated warehouse and includes all type of expenses. Moreover, two MNC's are reportedly purchasing around 50-60 thousand tonne Indian Chana for delivery to Bangladesh. The delivery cost to Bangladesh is around Rs 5,180 per quintal from India while that of from Australia will incur around Rs 5,800 per quintal. So, Chances for more export from India to Bangladesh is seen on the card till CIF difference between Indian and Australian Chana reduces.

International Market Update:

- **According to the recent report by Australian Bureau of Agricultural and Resource Economics and Sciences (ABARES),** Chickpea production in Australia is expected to decrease to 6.06 lakh tonne, down by around 4.6% in 2022-23 from 10.62 lakh tonne last Year. Reason for this decline in production is mainly attributed to fall in sowing area to only 4,43,000 hectare, down by 28% from 616,000 hectares.
- **Australian Bureau of Agricultural and Resource Economics and Sciences (ABARES) recent report reveals that** Pea production in Australia is expected to decrease to 2.38 lakh tonne, down by around 0.23% in 2022-23 from 2.38 lakh tonne last Year. Fall in yield is the main cause behind lower output estimate. However, Pea sowing area has increased to 2.05 lakh hectare, up by 6.7% from 1.92 lakh hectare.
- **Australian Bureau of Agricultural and Resource Economics and Sciences (ABARES) recent report reveals that** Australia is expected to witness slightly lower Lentil production to 7.88 lakh tonne, down by 0.51% in 2022-23 from 8.39 lakh tonne last year. Even though, sowing acreage has increased for Lentil here to 5.46 lakh hectare, up by % from 4.95 lakh hectare, but production is likely to remain slightly short due to fall in yield.
- **According to the recent report by Australian Bureau of Agricultural and Resource Economics and Sciences (ABARES),** pulses output in the country is expected to decline to 2.67 MMT, down by 28% from 3.70 MMT while sowing area is estimated to plunge to 1.86 million hectare down by 10%. ABARES has predicted that all pulses output may remain down. Despite the higher Pea and Lentil sowing area, average yield for both the pulses is estimated to remain low.
