

**Pulses Domestic Fundamentals:****Today's Update:**

- **According to the Agriculture Department of Andhra Pradesh recent release, with the picks up of monsoon rains, sowing activities in the State are getting momentum and Tur sowing has been witnessed in 4,000 hectare as of 29th June, 2022, up by 100% from 2,000 hectare same time last year. Sowing target is 2.54 lakh hectare. However, Urad coverage has reduced drastically by 50% to mere 1,000 hectare from 2,000 hectare as on date while there is no report regarding Moong sowing so far. Targeted area under Urad and Moong has been set at 0.40 lakh hectare and 0.16 lakh hectare respectively.**
- **According to the Agriculture Department of Telangana recent release, pulses coverage has reached at 10,36,198 acres in the State. Under the Red Gram (Tur), around 1,66,285 acres area has been sown as on 29.06.2022, down by 45% from 305377 acres same time last year. Normal area is 8,20394 acres under Tur.**
- **Agriculture Department of Telangana recent release reveals that Green Gram (Moong) has been sown in around 18,675 acres area as on 29.06.2022, down by 60% from 47,053 acres same time last year. Normal area is 1,55,701 acres.**
- **As per the latest data by Agriculture Department of Telangana, around 11,486 acres area has been sown under the Black Gram (Urad) as on 29.06.2022, down by 34% from 17,418 acres same time last year. Normal area is 55,237 acres.**

**Previous Update**

- **Tur cash prices traded firm in various markets amidst fear of lower area coverage, delayed monsoon rains, limited and restricted supply from stockists. In Mumbai, Burma origin Tur Lemon traded up by INR 50 per quintal to INR 6,450 per quintal from INR 6,400 per quintal.**
- **As per sources, major Tur producing Districts of Gulbarga and Bijapur (Karnataka) is facing lower rains by 39% and 47% respectively. Both the Districts are main Tur producing centres contribute 60% of total area in the State. As per AgriWatch, lower rains may distract the farmers from Tur sowing to other lucrative crops like Cotton, Maize and Soybean. If rains delayed by at least 10 days, the Tur area may further decrease from our expectation.**
- **Urad cash markets traded firm due to limited arrival from the Summer/Rabi crops, the slow pace of import, improved demand amidst tight supply and the fear of lower area coverage in the Kharif season. As per sources, in May, import declined to 20,400 MT and is likely to decline more to 10,000 MT in June due to high price in Myanmar. Moreover, stocks at Chennai and Mumbai ports are at bottom level while the new crop arrivals from kharif crop would hit the market from August end. So, the supply side would remain tight in July and August too. Under the given scenario, prices of FAQ Urad in Mumbai and Chennai are likely to increase by INR 300 per quintal.**
- **Moong cash market traded slightly firm on expectation of starting of procurement in MP from first week of July, 2022. MP govt. has requested to the Centre for granting the permission for procurement of 4 lakh MT Moong against the earlier permission of 2.25 lakh MT. However, given the summer crop size of the crop, market is considering this requested volume insufficient. On the other hand, in Punjab, Moong procurement is going on but with slow pace and only 3500 MT has been procured so far. Price of Moong is likely to recover by INR 200-300 with the start of procurement in MP.**
- **As per the official data, farmers have covered around 8.7 lakh hectare area under Kharif pulses in India as on 24.06.2022, down by 36% from 13.62 lakh hectare same time last year. Tur (Arhar) coverage is reportedly**

around 2.35 lakh hectare, down by 55% from 5.21 lakh hectare same time last year while Moong sowing has been done in 3.38 lakh hectare, down by 34% from 5.13 lakh hectare. Similarly, Urad coverage reached at 0.93 lakh hectare, down by 52% from 1.94 lakh hectare. Under the other pulses, sowing acreage remain at around 2 lakh hectare, up by 53% from 1.32 lakh hectare.

- **Kharif Urad sowing continued to gain momentum in all States including Madhya Pradesh. Farmers have covered 0.93 lakh ha from 1.941 lakh hectare as on 24th June-2022. It is down by 52% from the same time last year. The major growing States are Uttar Pradesh, Rajasthan and Maharashtra.**
- **Farmers have covered 3.374 lakh ha under kharif Moong as on 24th June-2022, down by 34.09% from 5.119 lakh ha last year same time. Rajasthan is a major growing state, where sowing area was reported at 0.668 lakh ha. Other major producing States are Maharashtra, MP and Karnataka.**
- **Kharif Tur sowing continued to gain momentum in all States including Maharashtra. Farmers have covered 2.348 lakh ha as on 24th June-2022. It is down by 55% from 5.206 lakh hectare same time last year. The major growing States are Karnataka, MP, UP and Telangana.**
- **As per sources, MP Govt. has sought for permission from Centre for more Moong procurement.** Centre has already granted permission to the State Govt. for procurement of 2.25 lakh tonne Moong. If State Govt. succeeds to get permission for more Moong procurement from Centre than present granted volume, prices may get some support. Otherwise, it is likely to remain stable in coming days.
- Additionally, Punjab has procured around 3000 tonne Moong so far while the target is of 4,555 MT
- **As per official sources, National Agricultural Cooperative Marketing Federation of India Ltd. (NAFED) has procured 25,11,693 MT Chana as of 16th June, 2022. The States where procurement has been done are: Gujarat (558,627 MT, procurement closed), Maharashtra (NAFED-6,62,484 MT, procurement closed & FCI-72,466 MT), Madhya Pradesh (8,02,000 MT, procurement closed), Rajasthan (2,54,000 MT), Karnataka (73,867 MT, procurement closed), Andhra Pradesh (71,840 MT, procurement closed) and UP (16,409 MT). Chana procurement is being done at the MSP of INR 5,230 per quintal. Total procurement target is 29 lakh MT.**

### International Market Update:

- **According to the recent report by Australian Bureau of Agricultural and Resource Economics and Sciences (ABARES), Chickpea production in Australia is expected to decrease to 6.06 lakh tonne, down by around 4.6% in 2022-23 from 10.62 lakh tonne last Year. Reason for this decline in production is mainly attributed to fall in sowing area to only 4,43,000 hectare, down by 28% from 616,000 hectares.**
- **Australian Bureau of Agricultural and Resource Economics and Sciences (ABARES) recent report reveals that Pea production in Australia is expected to decrease to 2.38 lakh tonne, down by around 0.23% in 2022-23 from 2.38 lakh tonne last Year. Fall in yield is the main cause behind lower output estimate. However, Pea sowing area has increased to 2.05 lakh hectare, up by 6.7% from 1.92 lakh hectare.**
- **Australian Bureau of Agricultural and Resource Economics and Sciences (ABARES) recent report reveals that Australia is expected to witness slightly lower Lentil production to 7.88 lakh tonne, down by 0.51% in 2022-23 from 8.39 lakh tonne last year. Even though, sowing acreage has increased for Lentil here to 5.46 lakh hectare, up by % from 4.95 lakh hectare, but production is likely to remain slightly short due to fall in yield.**

- According to the recent report by Australian Bureau of Agricultural and Resource Economics and Sciences (ABARES), pulses output in the country is expected to decline to 2.67 MMT, down by 28% from 3.70 MMT while sowing area is estimated to plunge to 1.86 million hectare down by 10%. ABARES has predicted that all pulses output may remain down. Despite the higher Pea and Lentil sowing area, average yield for both the pulses is estimated to remain low.
