

Pulses Domestic Fundamentals :**Today's Update :**

- Heavy rains during July-August month had damaged the crop upto 10-15% and recent heavy falls in southern peninsula and central India has further affected standing Tur crop by 10-15% in Karnataka and 20-25% in Maharashtra while crop condition is normal in Telangana. No major losses has reported in Tur crop in Madhya Pradesh but if heavy rains further continue then some damage can be seen. Tur at Gulbarga is trading at INR 7600 per qtl.
- As per IMD, heavy rains are expected in major pulses producing states including MP, Rajasthan, Maharashtra and Karnataka for next 15 days. Therefore Moong and Urad prices may see some improvement as crop is ready to harvest and rains may badly impact the yield and quality which may support the prices.

Previous Update :

- Chana cash markets traded slightly down. Kantewala Chana traded down at INR 4,725 per quintal, down by INR 25 from INR 4,750 in Delhi. NAFED's continued selling at lower prices and Centre's decision to dispose of 15 LMT Chana under PDS schemes is keeping the sentiments under check. Due to dispose of huge volume of Chana market prices are not likely to improve as recent decision would eat up the actual demand from the market. Now, there are apprehensions that if Chana prices remains below than its MSP, farmers may divert Chana area to other lucrative crops while the Chana sowing is scheduled to start from mid-October. Govt.'s decision remains a crucial factor for price direction for the Chana cash market. Availability is good, so spike in Chana market is unlikely at this point of time.
- Agriculture Department of Telangana recent release reveals that Green Gram (Moong) has been sown in around 66,541 acres as on 07.09.2022, down by almost 50% from 1,34,829 acres same time last year. In the State, normally, 1,55,701 acres area is sown under Moong.
- As per the latest data by Agriculture Department of Telangana, around 29,256 acres area has been sown under the Black Gram (Urad) as on 7th September, 2022, down by 30% from 41,978 acres same time last year. Normally, 55,237 acres area is sown under Urad in the State.
- Agriculture Department of Telangana recent release reveals that Tur (Arhar) has been sown in around 5,57,580 acres area as on 07.09.2022, down by around 38% from 8,96,610 acres same time last year. Normally, 8,20,394 acres area is sown under Tur in the State.

International Market Update:

- According to the latest report by U.S. Department of Agriculture (USDA), US is expected to harvest around 1.2 LMT of Lentils this year which is up by 46% from around 0.82 LMT last year. Increase in sowing coverage and yield both remains main reasons behind the projected higher output. However, sowing coverage has increased by 3% to 6,70,000 acre but it is still lower by 5% from last year's coverage area. Simultaneously, yield also pegged at 766 pound, up by 160 pound from last year.
- New data released by Statistics Canada recently reveals that Chickpea production in Canada is expected to be around 1.33 lakh tonne, up by 75% from 76,000 tonne same time last year.

- As per the recent report by Statistics Canada, Dry Pea production in the country is expected to swell well by around 60% to 36.1 lakh tonne during Marketing Year 2022-23 from 22.57 lakh tonne same time last year. Agency's previous estimate was of 34 to 34.5 lakh tonne. Two major producing states like- Saskatchewan and Alberta are expected to produce 18.10 lakh tonne and 15.40 lakh tonne Dry Pea respectively.
