

Today's Update:

- Tur Red FAQ prices traded at INR 8200 per quintal, down by INR 50 in Gulbarga, Karnataka due to profit booking at higher prices after recent hike in prices. However, as per traders, farmers are not ready to sell their produce at lower prices in hope of remunerative prices ahead as they are aware that higher import parity amidst lower local crop and extension of timeline for import all together are supporting the prices as of now. So, Tur prices are likely to remain firm for coming week. However, Govt. intervention may have negative impact on sentiments.

Previous Update:

- C&F quotes for Lemon Tur decreased by \$15 to \$950 per MT, basis Indian port due to profit booking at higher levels after recent hike in prices. Higher import parity amidst lower local crop and extension of timeline for import all together are supporting the prices as of now. Tur prices are likely to remain firm for coming week. However, Govt. intervention may have negative impact on sentiments.

International Market Update:

- According to the Agriculture and Agri-Food Canada's (AAFC) February Outlook for the 2022-2023 crop year, Dry Peas production in the country is expected to decrease by 5% to 3.3 million tonnes during 2023-24 due to predicted decrease in seeding area as farmers are expected to attract towards other crop on better return. However, export volume during 2022-23 is likely to increase to 2.5 million tonnes on increased exports to Bangladesh.
