

Today's Update:

- Most of the markets running closed as of now due to celebration of auspicious festival Holi and markets are likely to get back its normal course after celebration when Rabi Pulses like Masur, Chana and Peas arrivals would start to increase gradually.

Previous Update:

- Peas physical market prices traded steady due to lower demand from stockists and millers. Desi Peas and White Peas cash prices traded at INR 4200 per quintal and at INR 4100 per quintal in Kanpur. Peas prices are likely to firm in coming month despite the increasing arrivals in major mandis including UP and MP due to expected shortfall in Chana production especially in Rajasthan, Gujarat. Chana prices are finding support on lower crop which may increase the consumption of Peas in coming days as consumer would divert toward other cheaper substitute.

International Market Update:

- According to the Agriculture and Agri-Food Canada's (AAFC) February Outlook for the 2022-2023 crop year, Dry Peas production in the country is expected to decrease by 5% to 3.3 million tonnes during 2023-24 due to predicted decrease in seeding area as farmers are expected to attract towards other crop on better return. However, export volume during 2022-23 is likely to increase to 2.5 million tonnes on increased exports to Bangladesh.
