

Today's Update:

- Though the India Meteorological Department (IMD) has announced the onset of SW Monsoon on June 8th, 2023 over the main land (Kerala), however, the system prevailing over the Arabian Sea is likely to affect the progress of SW Monsoon over the country. Currently over the Arabian Sea, the cyclone "Biparjoy" has strengthened into extremely severe cyclone and it is moving towards Gujarat and due to this, the movement / progress of the monsoon over India will likely be affected. Besides, there is low pressure area forming over Bay of Bengal which may turn into cyclone along with the prevailing cyclonic circulation over the eastern India. Combination of all the prevailing factors hints at a delay in progress of monsoon for a significant amount of time over the country. Besides, the temperature over the key growing states is increasing due to which the soil moisture condition is depleting fast. Thus, it is likely to affect / delay the progress of sowing.
- Meanwhile, some early planting of the Kharif pulses has already started after the pre-monsoon showers / western disturbance but now due to rising temperature and depleting soil moisture, farmers may wait for the arrival of the monsoon over their respective state to take up cultivation further.

Previous Update:

- Early planting of the Kharif pulses has already started after the pre-monsoon showers / western disturbance but now due to rising temperature and depleting soil moisture, farmers may wait for the arrival of the monsoon over their respective state to take up cultivation further.
- looking at the prices of all the Kharif pulses and significant increase in the minimum support prices of all the Kharif pulses, it is very likely that the area under all the three major Kharif pulses will increase this season.

International Market Update:

- According to the Statistics Canada, field pea exports from the country down by 70% to 2,40,467 MT in March from 2,85,403 MT in February. The biggest buyer during the March month was China followed by Pakistan and the USA accounted for 1,38,757 MT, 31,580 MT and 25,819 MT respectively.
