

Today's Update:

- Due to reduced buying interest from traders, stockists, and millers, Chana traded steady to slightly weak by 1% during the week under review. The decline was attributed to the recent announcement and plans to convert 20% of the procured Chana into Dal, which will be distributed through various government schemes. NAFED has already procured over 23 lakh tonnes of Chana, with approximately 13-14 lakh tonnes still in stock. The agency's conversion plans may divert the actual demand away from the market. So, Chana is expected to trade in a range + / - INR 100-200 per quintal with slightly weak tone in coming week as traders are reportedly buying according to their requirements only. Supply side is expected to be comfortable throughout the year.
- Chana traded at INR 4800 per quintal, down by 1% while it traded flat at INR 5125 and at INR 5200 per quintal in Delhi & Indore market respectively.

Previous Update:

- As per IMD, conditions are becoming favourable for further advancement of SW-monsoon over some more parts of south Peninsular and East India and adjoining areas during 18-21st June, 2023. Weather is likely to remain dry over rest parts of the country. The progress of SW-monsoon has remained slow so far which has halted the sowing intention by growers due to reduction in residual of moisture. However, major Kharif Pulses including Tur, Moong and urad is likely to increase this year given the back ground of significantly hike in MSP couple with higher remunerative prices throughout the year.

International Market Update:

- According to the Statistics Canada, field pea exports from the country down by 70% to 2,40,467 MT in March from 2,85,403 MT in February. The biggest buyer during the March month was China followed by Pakistan and the USA accounted for 1,38,757 MT, 31,580 MT and 25,819 MT respectively.
