Yield Expectation 2013 -14

Harvesting of the kharif urad crop is almost 60% over in the major growing regions. Yields are likely to decline amid rainfall in the growing states of Andhra Pradesh, Uttar Pradesh, Madhya Pradesh and Karnataka during the month of October. According to first advance estimates released by the government, urad production is estimated at 1.33 million metric tonnes in 2013 -14 compared to 1.45 million metric tonnes during the previous season. Taking into account government acreage and production estimates, yield is likely to be 576 kg/Ha in 2013 -14 compared to 580 kg/Ha during the previous year. According to trade estimates, the crop is likely to be 37% damaged and production will be around 0.91 million metric tonnes in the current season.

Pigeon pea (Tur)

Market Recap:
During this period, both imported and desi tur noticed mostly weak tone.

Current Market Dynamics & Outlook:

Tur farmers in Karnataka demanded a rise in minimum support price (MSP) for the year 2013-14 due to steep rise in the cost of cultivation along with crop damage caused by Helen cyclone. Karnataka Pradesh Redgram Growers' Association requested the Central government through a memorandum to Union Railway minister Mallikarjun Kharge, who is elected from the Tur growing region of Gulbarga, to enhance the MSP to Rs 6,450 per quintal based on the recommendations of M S Swaminathan in his report of Second Indian Farmers' Commission. Gulbarga district in northern Karnataka contributes 15% of national Tur output. According to the association, the cost of cultivation per quintal of tur has reached to Rs.4500 per quintal as against the MSP of Rs.4300 per quintal. Meanwhile, the prices are currently crashed to Rs.3600-3700 per quintal. This year the prices of DAP fertilizer surged to Rs.1350 per bag as compared from Rs.530 per bag in last year.

The dull trend continued in tur on slack buying and scattered arrivals of the new crop in some parts of the country in past week. The commencement of new crop reported in Maharashtra, Karnataka and Jhabua-Dahod line of Madhya Pradesh. At Akola, commencement of tur fresh crop reported on December 27 and new crop trade high at Rs.4450 per quintal. The tur prices are likely to drop further once market witnessed full pace arrivals. The better crop prospects and arrivals of cheaper imports also weigh on the prices.
