Pulses Sector-Highlights

Domestic:

[\(Back to Content\)](#)

- According to IBIS (provisional data), import of pulses in July was around 2.67 Lakh tonnes at major ports in India, around 23% lower than June which was around 3.45 Lakh tonnes. Urad, Chana, Masoor and Tur were imported higher this month whereas Yellow Pea and Moong were imported lower as compared to last month.
- Chana cash market has shown downward movement after middle of July as stockiest started releasing their stock and demand also lowered down at higher prices. Expectation of higher cop production in Australia and lower forward contracts offer from Australian exporter also put downward pressure on the market. According to the trade sources , at present Chana Future Contract are struck at \$750 for October-November and \$720 for December-January delivery respectively .Agriwatch expects Chana prices to show steady to weak movement in the coming month due to lower forward contracts offer and expectation of higher imports. Stockiest will also release their stock for profit booking keeping downward pressure on the market.
- As expected by Agriwatch, Tur prices had shown weak movement in the month of July due to higher imports and higher sowing area data released by government. According to latest sowing report released by Government as on 29th July 2016, Tur sowing area is recorded at 42.93 Lakh Hectares which is around 68% higher than at the same time period last year. Last year it was 25.61 Lakh hectares. Agriwatch expects Tur prices to show steady to weak movement in the coming month due to regular imports from African countries and lower demand from millers. Greater production estimate due to higher area coverage is also putting downward pressure on the market. However, weather condition in the coming month will pay a vital role in the final crop size of the crop.
- According to the trade source, at present Pea Future Contract are struck at \$355 for August-September and \$370 for September-October delivery respectively. Agriwatch expects Pea cash market to show weak movement in the coming month due to lower demand and higher availability as stockiest are releasing their stock. Relatively downward movements of Chana market are also keeping pressure on Pea cash market.
- According to latest sowing report released by Government as on 29th July 2016, Urad sowing area is recorded at 26.77 Lakh Hectares which is around 35% higher than at the corresponding period last year. Last year it was 19.78 Lakh hectares. Agriwatch expects Urad prices to show range bound to slightly weak movement in the month due to higher imports from Myanmar and lower demand. Millers/Stockiest is also doing need based buying as they are expecting higher production this year.
- India has signed a memorandum of understanding with Mozambique to import minimum 3.75 Lakh tonnes of pulses in coming 3 years. In 2016-17, 2017-18 and 2018-19 India will import minimum quantity of 1, 1.25 and 1.50 Lakh tonnes respectively. Import from Mozambique will help government to keep the prices of pulses in control and ensure regular supply.
- In order to enhance the supply in the mandi and to curb the prices, Central government asked States to remove local taxes on Pulses. They also have been requested to consider a pricing policy to set the highest selling price for pulses. This decision will help farmers to get better price for their product and regular supply for the consumer at lower rates.
- MMTC invites tender to import 20,000 MT of Chickpeas (new crop) from Canada or Australia. Shipment period is from 15th October to 15th November, 2016 and should deliver 10000 MT each at Nhava Sheav/JNPT and Kandla port. Minimum bid is of 10000 MT and last date of submission of tender is 08th August 2016 and bid should be valid till 16th August, 2016.
