Pulses Sector-Highlights

Domestic:

[\(Back to Content\)](#)

- According to IBIS (provisional data), import of pulses in August was around 2.45 Lakh tonnes at major ports in India, around 8% lower than July which was around 2.67 Lakh tonnes. Yellow Pea, Chana and Masoor were imported higher this month whereas Urad, Moong and Tur were imported lower as compared to last month.
- Government has directed NAFED and other agencies to procure Moong at MSP directly from farmers. Moong was being traded lower than MSP in many mandis due to lower demand and higher production estimate for this year. The decision will help farmers to get at least MSP prices (Rs 5225) for their crop. No procurement target has been set by government. This development has lent support to cash moong market. Agriwatch expects moong cash market to show range bound to weak movement due to arrival pressure. Moong new crop arrival has been started in Maharashtra and Karnataka where crop quality is good and yield expectation is higher than last year. Rajasthan crop is expected to hit market at month end. According to latest sowing report released by Government as on 02nd September 2016, Moong sowing area is recorded at 33.05 Lakh Hectares which is around 36% higher than at the corresponding period last year. Last year it was 24.28 Lakh hectares.
- Chana prices has shown downward movement in August except in last few days as possibility of crop loss rises in Australia due to rain in chickpea growing region. Agriwatch expects Chana prices to show range bound to weak movement in coming month as imports from Australia may be arriving in small amounts from month end. Stockiest may also release their stock at higher prices for profit booking and demand will be lower at higher prices keeping downward pressure on the market.
- According to latest sowing report released by Government as on 02nd September 2016, Urad sowing area is recorded at 34.37 Lakh Hectares which is around 27% higher than at the corresponding period last year. Last year it was 27.00 Lakh hectares. Agriwatch expects Urad cash market to show weak movement in this month due to arrival of new crop. Urad crop has started arriving in few mandis in small quantity and crop quality is good and yield is also expected to be higher this year as compare to last year.
- Prices of Tur have shown downward movement in the market in the month of August except last few days as demand increase at lower levels. Regular imports and higher imports and higher sowing area data released by government has put pressure on cash market. According to latest sowing report released by Government as on 02nd September 2016, Tur sowing area is recorded at 51.78 Lakh Hectares which is around 47% higher than at the corresponding time period last year. Last year it was 35.22 Lakh hectares. Agriwatch expects Tur prices to show range bound to slightly weak movement in coming days due to regular imports from African countries and Myanmar and expectation of higher production this year.
- Pea prices have shown weak movement in the month of August due to higher imports and lower demand. However, prices have shown some firm movement in last few days due to relative movement of Chana. Agriwatch expects pea prices to show range bound to weak movement due to expectation of higher imports and stockiest may also release their old stock for profit booking.
- Indian government has decided to import 90 Thousand tonnes of pulses for buffer stock. It will consist of 40 Thousand tonnes of Masur, 20 Thousand tonnes of Tur, 20 Thousand tonnes of Desi Chana and 10 Thousand tonnes of Urad. This decision might put more pressure on downward moving prices of pulses in India.
- The WPI for Pulses has risen from 400.20 in June 2016 to 432.8 in July 2016. There has been a rise in WPI of Gram (353.0 for June 2016 and 422.9 for July 2016), Masur (343.80 for June 2016 and 345.7 for July 2016) and Urad (604.5 for June 2016 and 611 for July 2016) but Tur (394.90 for June 2016 and 394.00 for July 2016) and Moong (387.20 for June 2016 and 378.1 for July 2016) recorded decline in WPI.
