

Pulses Monthly Research Report- August- 2018

Content**Pulses Sector-Highlights**

- Domestic
- International
- Monthly Outlook

Supply & Demand**Pulses-Wise Summary**

- Chana
- Matar
- Masoor
- Tur
- Urad
- Moong

Appendix

1. Pulses Wise Technical Outlook For Month
2. Indian Pulses- Wise Import- Monthly Analysis
3. Inflation
4. Seasonality Index
5. Indicative Pulses & Processed Pulses Prices (Domestic; Imported; Cnf) & Arrivals
6. Pulses Snapshot
7. Sowing Progress
 - India
 - Australia
 - Canada

Domestic Market Fundamentals:

- **All India kharif Pulses area is lagging behind by 3.91 % to 115.57 against 120.27 lakh ha last year as on 03rd Aug 2018.** Farmers have covered 39.89 lakh ha against 39.38 last year under Tur till date, up by 1.30 %. Normal area under Tur is 41.90 lakh ha. Even Urad area is lagging behind by 11.28 % to 32.51 against 36.65 lakh ha. Normal area of kharif Urad is 27 lakh ha. Moong area is running up by 2.53 % to 29.79 lakh ha against 29.05 lakh ha last year. Normal area under Moong is 24.93 lakh ha. Other pulses area too is lower by 14.03% than last year .It is 12.74 against 14.82 lakh ha so far against normal of 15.83 lakh ha. However, area under Kulthi has increased by 71.08 % to 0.63 lakh ha against normal of 2.27 lakh ha.
- **Nafed seems not in a hurry to sell chana immediately.** Total stock in central pool under govt. custody is said to be around 27.5 to 28 lakh tonne. Nafed may start selling chana from end Aug-Sep. As six months is left for consumption and stock in private hands is 50 to 60%lower than normal years, Nafed selling would not impact market much. Experts expect Nafed selling would start above MSP in restricted way. Arrival in Mandis has decreased to a negligible level and demand for dal is improving. It may remain supportive for Chana market in coming weeks. Govt may retain 10 lakh tonne chana for buffer. So 17 to 18 lakh tonne might be sold in next six months. So pressure is unlikely to be felt on cash market.Chana in domestic market is likely to trade in the range of Rs 4200 -4600 in August in Delhi.
- **Cash Tur market traded slightly up after commencement of normal trading activities.** Dall millers are active as demand for dal started improving just ahead of festive season. Area under kharif Tur has improved slightly and is expected to remain at same level as was seen last year(42 lakh ha). Tur market is expected to improve from current level by Rs100 to 150 per quintal in August and Gulbarga market may move up to the level of Rs 4000-4400. Higher MSP for new crop may remain supportive. However, any major spike is unlikely in the near term as selling from central pool stock continues. Myanmar offered lemon tur (new & old) at \$ 370 per tonne. Basis Indian port. Linkly too is being offered at \$370 per tonne, down by \$10 .It is cheaper and import would continue due to cheaper availability in Myanmar up to the level of 2 lakh tonne. Besides, govt would import 1.5 lakh tonne through G2G basis in ongoing MY. New season begins in December.
- **Arrival from new moong starts and it may cap uptrend in cash market to a certain extent.** Stock available in domestic market and central pool stock is ample. However, if govt. starts buying on MSP,prices are likely to move up to the level of Rs5500-6000,otherwise,it may decrease by Rs 200 -300 from current level.In Jaipur market prices are hovering at Rs5000-5200. There is good demand in cash market.For new kharif moong govt has fixed MSP at Rs 6975 per qtl.It would support market in months ahead.Traders /stockists retention may increase as there is a common view in the market that moong price is bound to move up.Buying on dip is good for stake holders.
- **Lentil market may trade steady to slightly weak this week.** Domestic demand for dal may support market to a certain extent. Uptrend in Masur market is unlikely to continue despite lower availability of imported stock in Kolkata and Mumbai. It would not allow market to go unexpectedly down. However, market should not ignore huge stock (243450.18MT)in central pool procured during the season. Other price limiting factor is lower price for Tur and it is directly affecting Masur dal consumers right now. Tur dal is still available at Rs55-60 per kg against 50 to 55 per kg for Masur. So consumers have option to shift from Masur to Tur. Govt. agencies have around 10 lakh tonne Tur stock and they would start liquidating it before Nov when new crop hits the market. It would pressurize lentil price in the months ahead.
- **Pressure continues on Urad market as arrivals have increased at improved level amid weak demand from mills and retail sectors.** As kharif area is lower, any major decline from current level in cash Urad is unlikely. Demand is expected to improve. Chennai market is being traded at Rs 3900-4000.It may trade in the range of Rs4000-4500 per qtl. As govt would procure kharif Urad at Rs5600,it would not allow market to decrease below a certain level.
- **As supply-demand side is balanced right now and chana price is ruling lower, yellow pea may trade lower by Rs 200 from current level despite restricted import.** Govt may review import restriction at the end of Sept. Yellow peas. Peas market may trade weak in August.

International Market Update:

- **World production of pea is likely to decrease by 17 lakh tonne this year and its area in Canada too has decreased.** However, Canada has been able to sell peas in recent months due to trade war between China and US. China is purchasing peas in lieu of soybean. There is good demand for green peas in global market. Despite higher sales, stock accumulated at port is still higher.
- **Overall 55% of the Saskatchewan lentil crop has been rated as good to excellent as of June 26-** experts say.. Analysts say that India will work through their stocks by the end of 2018. "If the Rabi crop comes in below expectations, traders speculate that India could be back in the market in early 2019 for small quantities. It may support global market once again.
- **Lentil Production in Turkey has been pegged down by 12% to 3.8 lakh tonne from last year.** The reason of lower production is mainly attributed to bad weather condition in parts of south eastern region. Harvesting is over by first week of July. In some particular region farmers have lost 50 % yield due to heavy rains and water lodging. However chickpeas area increased due to govt.'s support and higher return in 2018. The major chickpeas producing regions are Central Anatolia and somewhat in the Southeastern region. This year chickpeas production has been pegged at 5.5 lakh tonne, up by 15 % from last year. The GOT announced the MY 2018/19 chickpeas procurement price on June 25, 2018 at 3,250 TL/MT (around \$700/MT).
- **The Canadian Grain Commission latest update shows that Canada has 29,800 metric tons lentils through licensed facilities in June against 68,600 MT were shipped the same month last year, while movement is up from the 19,600 MT shipped the previous month.** Thus total export for the current marketing year touched to 284,600 MT against 853,100 MT during the same period last season.
- **Masur Crop condition in Canada is said to be good so far.** the latest update shows that 55% Masur crop is in good condition while 28% is in fair condition and 9% is said to be in bad condition. Harvesting of masur early sown crop may start from 2nd week of August. Canada has huge old stock of Masur (around 18-20 lakh tonne) and India being out of market, Canadian exporters may seek other buyers to consume its surplus stock. It may pressurize global masur market to some extent in coming week.
- **As per the latest market update production of Chickpeas in Australia may be around 3.09 lakh tonne.** Queensland production has been pegged at 2.17 lakh tonne. Field Pea production may touch 3.01 lakh tonne, Lentil production has been pegged at 3.47 lakh tonne. Total pulses production including Lupins and Faba beans has been pegged at 1713 lakh tonne. It is 72% lower in case of chickpeas, 9% up in case of peas,, 26% down in case of lentils when compared to 2017.
- **Global peas market traded under pressure before likely commencement of harvesting in northern hemisphere.** Major buyers like India & Pakistan are out of market right now and others are waiting for new crop pressure to build up. However, trading activities are seen in feed grade peas. Exporters in Canada have enough stock to cater the incoming demand in the weeks ahead. After harvesting pressure coming to an end ,stockists/exporters may be active once again, that may help prices to recover from mid August.
- **Canada lentil area is said to be lower than intended by one million acres to 3.77 MMT.** Agri experts expected it to be 4.05 million acres. Actually, at the time of sowing prices remained subdued and it impacted farmers to reduce area from 4.05 to 3.37 million ha. Canada had planted 4.4 million acres in 2018. Under current prevailing condition production would be only slip from last year's 2.559 million metric ton (MT) harvest to 2.495 million this year.
- **Chickpeas area in Canada & US has been registered higher than previous intention.** US farmers have planted 6.62 lakh acres against intention of 6.65 lakh acres. Farmers have covered 2.05 lakh acres under small chickpeas while Kabuli area increased from 3.46 to 4.57 lakh acres this year. Chickpeas area in Canada increased from 3.46 to 4.68 lakh acres. Unofficial Statistics Canada data suggests Canada planted 13,8000 acres of desi, 445,900 acres of kabuli and 9,200 acres of other types such as B-90.
- **Lentils production in Australia too is bound to decline from 8.3 to 4.19 lakh tonne in 2017-18.** It is almost 50 % down from last year. Lentils area was reported higher by 16 % at 3.55 lakh ha. Due to rough weather condition Lentils production, would decline to 4.19 lakh tonne. Field peas production too, is bound to decline by 32.47 % to 2.8 lakh tonne in 2017-18. Australia had produced 4.15 lakh tonne field peas in 2016-17.

Pulses Supply & Demand:

| (*All quantities in Lakh tonnes) | Urad (Kha-Rabi) | | Moong (Kha-Rabi) | | Tur | | Chana | | Masur | |

Chana (Chickpeas /Bengal Gram): Fundamental Analysis and Outlook:

Market Recap:

Chana cash market traded firm by Rs25 to Rs 4250- 4300 per qtl. in Delhi market during the month under review. In Jalna market chana traded at Rs4000. As buyers are active, further downward trend is unlikely. Arrival in mandis has come down drastically and sellers are unwilling to sell at current price. As six months are still left for consumption chana is unlikely to trade lower with maximum stock being in govt.'s custody. Release mechanism from central pool stock would be price influencing factor in coming months. If govt. maintains buffer stock of 10 lakh tonne, and sells 17-18 lakh tonne in next six –seven months, price would continue to trade up. It may trade in the range of Rs 4250 to 4550 in Delhi market. Nafed may start selling chana by end August. Seasonality of chana too hints firm market beginning from Aug.

All India average price for Chana increased by 20.49 percent to Rs 4362 per qtl. in comparison to June. Australian Chana(imported crop) price increased by 26 percent to Rs 4226per 100kg. Following graph illustrates the chana price movement in different markets:

Price Dynamics:

Good demand and lower availability amid almost halted arrival in local market may lend support to cash market despite hefty stock in central pool. Chana market have started finding balance now. Prices are likely to stay steady to slightly firm in August due to:

- Improved demand and higher percentage of private retention retention.
- Halted import due to 60/70 % import duty for various origins on chana.\lower Australian crop
- Halted arrivals in mandis &
- 30% lower stock in private hands

Seasonality Index hints that Chana (gram) is likely to notice steady to slightly firm movement in the Spot market in August-2018.

Chana Future Market Analysis:

Technical Commentary:

- Decreasing price & OI hint weak market.
- RSI is moving down in neutral region, hints caution to bulls.
- Prices closed below 9 and 18 days EMAs

Strategy: Buy on dip

| Supports & Resistances | | | S1 | S2 | PCP | R1 | R2 |
|------------------------|-------|-----|------------|-------|------|------|------|
| Chana | NCDEX | Sep | 4084 | 4000 | 4218 | 4354 | 4405 |
| Monthly Trade Call* | | | Call | Entry | T1 | T2 | SL |
| Chana | NCDEX | Sep | Buy on dip | 4140 | 4250 | 4275 | 4080 |
| . | | | | | | | |

Market Outlook for August-2018

Nafed seems not in a hurry to sell chana immediately. Total stock in central pool under govt. custody is said to be around 27.5 to 28 lakh tonne. Nafed may start selling chana from end Aug-sep. As six months is left for consumption and stock in private hands is 50 to 60% lower than normal years, Nafed selling would not impact market much. Experts expect Nafed selling would start above MSP in restricted way. Arrivals in Mandis have decreased to a negligible level and demand for dal is improving. It may remain supportive for Chana market in coming weeks. Govt may retain 10 lakh tonne chana for buffer. So 17 to 18 lakh tonne might be sold in next six months. So pressure is unlikely to be felt on cash market. Chana might continue to trade in the range of Rs4250 to Rs4600 in Delhi market.

Field Pea (Matar /Dry Pea):

Fundamental Analysis and Outlook:

Market Recap:

Pea price did not sustain its higher level after smart gains in July. Actually demand got affected at higher level despite lower availability of stock at port. Prices moved up due to higher duty and import restriction till Sep. Firmness in pea market depends on govt.'s strategy for import. As stock is lower in domestic market, any unexpected decline is unlikely. Stake holders should buy on dip. If chana prices moves up ,it would support peas price too.

All India average price increased by 19 % to Rs 4450 per qtl. In Kanpur market, it traded steady at Rs 4500 per qtl. Higher import cost and lower stock in domestic market may remain supportive in the near to medium term. Import is not possible till 30th sept-2018

Price Dynamics:

In July-2018 market traded up due to import restriction and lower stock and is expected to trade firm in August due to:-

- Retention & lower stock available for green peas
- Import restriction
- Improving Chana price &
- Good demand from retail sector.

Spread With Chana:
[\(Back to Content\)](#)

Spread between Chana and Peas, at Kanpur market decreased to around 225 per qtl owing to increased prices of peas. Spread is expected to move in the range of 150 to 250 per quintal in the coming weeks on relative movement in Chana prices. Overall outlook seems steady to slightly firm due to expected improvement in demand at current price. Chana and pea demand is increasing continuously.

Seasonality Index depicts that pea prices are likely to notice firm movement in August-2018.

Market Outlook For August- Steady to slightly firm movement is expected.

Masoor (Lentils/ Masoor):

Fundamental Analysis and Outlook:

Market Recap:

Kanpur market opened with a firm note in the beginning of the month and continued to trade firm in July too. Imposition of 30% import duty would continue to restrict import. Govt has imposed 40% duty on US origin lentil. As demand has decreased for lentil dal, any spike in lentil price is unlikely. Stock is ample to take care of three to four months need. However, at the time of sowing supply contraction might be seen. It may lend support to cash market. Right now govt has 2.45 lakh tonne lentil stock and govt. would continue to release lentil at regular intervals and it would put a cap on any expected spike. Stakeholders should buy on dip. Likely improvement in global market may push lentil price up due to lower crop size in Canada.

Price Dynamics:

In July-2018, average price in key market Kanpur was up by 7.77 % from Rs 3702 to Rs 3990 per qtl. MoM basis. Prices are likely to trade firm in August to a certain extent. Firmness is expected due to:

- Declining stock/higher retention
- Likely improvement in demand
- Higher percentage of Stockists holding &
- Costly import. lower crop size in Canada

Seasonality Index depicts range bound to slightly firm movement in August-2018.

Tur (Toor/ Arhar/Red Gram/Pigeon Pea/Aware):

Fundamental Analysis and Outlook:

Monsoon is playing truant in major producing region like Madhya Pradesh, Rajasthan, Gujarat and Maharashtra. Farmers are waiting for good rainfall. If rains are delayed by a week, it would affect Tur yield negatively and production would decrease by 10 to 20 percent. Higher temperature too remains normal growth affecting factor. Even Karnataka Tur region is facing drought like condition. Concern started surfacing regarding lower crop size. It may push up Tur price. Besides, govt has stock of over 8.0 lakh tonne (new over 7.0 lakh tonne & old around 0.5 lakh tonne) right now. Selling through auction would continue and it would not allow market to move beyond a certain level despite fear of lower area coverage this year. Around 3.5 lakh tonne import may cap uptrend.

Market Recap:

Tur market is expected to stay steady to slightly firm on the back of higher MSP(Rs5850) . Burma offered lemon tur new & old at \$380 per tonne basis Indian port. Linkely was offered at \$390 per tonne basis Indian port.

Price Dynamics:

In July-2018, average price in Mumbai market was up by around 7.75% to Rs 3700 per qtl. due to improved demand against lower supply. In August market is likely to improve due to

- Higher MSP
- Likely festive demand
- Fear of lower area coverage& and uneven rainfall in major growing region specially Maharashtra, Karnataka, Gujarat and Odisha.
- Comparatively Lower stock in mills.

Seasonality Index- depicts steady to range bound movement with firm bias in August.

Production- According to the Agriwatch estimate, Kharif Tur MY 2017-18 production is estimated at around 30 Lakh tonne against 39.19 lakh tonne in 2016-17. New crop starts now .Tur area ended with 42 lakh ha as per Agriwatch estimate.

Govt. has revised Tur production estimate slightly up from 3.99 MMT to 4.18 MMT in 3rd adv. estimate released on 23.05.2018 against set target of 4.25 MMT for 2017-18.Govt has released final production fig for last year at 4.87 MMT.

Market Outlook for August:

Tur prices are likely to trade steady to slightly firm . However, stake holders should start buying on dip. Market may move up once again to a certain extent.

Urad (Black Matpe/Black Gram)

Fundamental Analysis and Outlook:

Market Recap:

As expected by Agriwatch last week Urad market traded down by Rs 100 to Rs3800-3850 in Chennai market. As demand for Urad dal is weak, any major recovery in market is unlikely in the near term. Rangebound movement is expected this week. Pressure on market is unlikely to build up as central pool stock is coming down and it would cap downward trend. Lower kharif area may support urad price in the medium term. Higher MSP and restricted urad import may push up urad price in the medium term to a certain extent. FAQ Urad is expected to stabilize near Rs.3900/4300 per quintal.SQ may trade at Rs 5000-5500 in the near to medium term. Import is possible from Burma as it is offering Urad at much lower prices- FAQ at \$440 and SQ at \$560per tonne..

Price Dynamics:

In July, average prices in key markets including Mumbai/were up by 1.75 % percent, from 3880 to Rs 3930 per qtl. In Chennai it is being traded at Rs 4000-4050.Prices may stay steady due to

- Higher MSP
- Lower area coverage
- Lower stock in mills &

- Likely improvement in demand

Seasonality Index depicts steady to slightly firm movement in the near term to medium term.

Production:

According to the Agriwatch preliminary estimates, Kharif Urad MY 2017-18 production is estimated at 24.97 lakh tonne against 23.97 lakh tonne 2015-16. See supply and demand side. Crop condition is good.

Market Outlook for July: Prices are likely to trade steady to slightly firm.

Fundamental Analysis and Outlook For Moong:

Market Recap:

Moong market is likely to trade steady to slightly firm as private trades are unwilling to sell at this level despite continuous selling from central pool stock at various centers and new arrival from summer crop. Firstly, moong market would decrease by Rs200-300 and then would move up again. Stock in central pool is decreasing while demand for moong and moong dal is improving. Millers are active at current level and it would support market. Besides, higher MSP may push market up from current level as market expects higher procurement from kharif crop at Rs 6975 per qtl. Jaipur market may trade in the range of Rs5000 to Rs 5400 per qtl this week.

Price Dynamics:

Moong market may move up due to hike in MSP for kharif 2018-19 crop but not before correction of Rs200 to Rs300 per qtl due to summer crop. New arrival may pressurize market first, so buying at dip is good. Burma offers Moong At \$695-700 per tonne. Prices may stay steady to slightly weak due to

- Summer arrival despite massive hike in MSP
- Higher stock available in domestic market
- Higher area coverage in kharif season &
- Lower stock in mills

Seasonality Index depicts steady to slightly firm movement .

Market Outlook for August:

Steady to firm movement is expected in August

Export fig for 2017-18 is tentative

India MSP For Pulses:

| MSP (Rs/Quintal) For Crop Year From 2011-12 To 2017-18 (It includes Bonus too) | | | | | | | | |
|--|---------|---------|---------|---------|---------|---------|---------|----------|
| MSP (Rs/Quintal) | 2011-12 | 2012-13 | 2013-14 | 2014-15 | 2015-16 | 2016-17 | 2017-18 | 2018-19* |
| Tur (Arhar) | 3200 | 3850 | 4300 | 4350 | 4625 | 5050 | 5450 | 5675 |
| Moong | 3500 | 4400 | 4500 | 4600 | 4850 | 5225 | 5575 | 6975 |
| Urad | 3300 | 4300 | 4300 | 4350 | 4625 | 5000 | 5400 | 5600 |
| Gram | 2800 | 3000 | 3100 | 3175 | 3425 | 4000 | 4400 | |
| Lentil (Masur) | 2800 | 2900 | 2950 | 3075 | 3325 | 3950 | 4250 | |

Note: * recommended by CACP

- Central govt. has given approval to increase MSP for kharif 2018-19 crops and tried to fulfill its promise to ensure 1.5 times of production cost for farmers which was made in the budget. In pulses segment a hefty hike was seen in green moong price. As per the CACP estimate, production cost for moong is Rs4650 per qtl. for ensuring 50% over this price for farmers, govt. has green signaled to increase it from Rs 5575 to Rs6975 per qtl. It is higher by Rs 1400 per qtl.
- In pigeon peas case it has been increased by Rs 200 from 5450 to Rs5675 per qtl. As per govt.'s external estimate production cost for Tur is Rs3432 per qtl. On this basis of production cost the increase ensures 65.36 % of production cost for farmers.
- In case of Black Gram, it has been hiked by Rs 200 from Rs5400 to Rs 5600 per qtl. As per govt.'s external estimate production cost of black gram is Rs3438 per qtl. With increased price farmers would get 62.89% higher than actual production cost for kharif crop under planting stages now.
- Impact of this hike may disturb acreage of various pulses as farmers would grow more green garm and reduce area under pigeon pea and black gram, specially in MP, Rajasthan, Maharashtra, Gujarat, UP and Bihar. Private buying would decrease from moong and govt would have to buy more crop under price support scheme. As there would be no option for export at higher rate, govt would have to sell it in domestic market at lower price and it would distort normal market trading.
