**Highlights**
**Domestic:**

- Pulses market mostly witnessed range-bound movement on thin trading activities.
- **Normal 2015 Monsoon, While expected Rainfall in Next Week shall Lead to Further Damage in Rabi Crop.** According to ASSOCHAM-Skymet Weather joint study, India is likely to get normal monsoon rainfall at 102% of long-period average during June-September this year. However some pockets that might be deficient (by a narrow margin) include Himachal Pradesh, Punjab, Haryana, Uttarakhand, Marathwada, Rayalseema, South Interior Karnataka, North Tamil Nadu and parts of the North East. A devolving El Nino in Monsoon 2015 will most probably not impact it negatively as droughts seem to happen where there is an evolving El Nino episode." Thus forecast of normal monsoon this year seems well distributed uniformly throughout India. The Chance of a back to back drought is 3% (2014 was a mild meteorological drought). Besides there is still no clear signal about the emergence of an Indian Ocean Dipole (IOD) this year during monsoon. According to calculations (assuming an error margin of +/-4%) the following is Monsoon's risk spread over the four-month period:

- ✓ 6% chance of excess (seasonal rainfall that is more than 110% of LPA)
- ✓ 36% chance of above normal (seasonal rainfall that is between 105 to 110% of LPA)
- ✓ 52% chance of normal (seasonal rainfall that is between 96 to 104% of LPA)
- ✓ 4% chance of below normal (seasonal rainfall that is between 90 to 95% of LPA)
- ✓ 2% chance of drought (seasonal rainfall that is below 90% of the LPA)

Meanwhile, study also states that more wet weather was expected in April and the damage to the Rabi crop would continue. A major rainfall spell is expected in the first week of April in North India.

- **More Rainfall in the end of March-Skymet.** According to the GP Sharma of Skymet Weather Services in the next at least about a week or 10 days for north and central parts of the country including Maharashtra the weather is going to be on the softer side. But end of March, some weather occurring over northern parts of the country but not extending to parts of Maharashtra or Madhya Pradesh. In past few days, hailstorm in nearly 2,000 villages of Madhya Pradesh have taken place which have destroyed the total crop completely. Now nearly 15-20 percent crops suffer from 3-4 heavy spells of rain which have taken place during the last two months. The crops like lentils and pea suffer losses to a great extent.
- According to the consumer affairs ministry officials, Government is considering the continuation of zero import duty on pulses due to expected lower output and high demand. There is zero duty on import of pulses till March 31. India imports nearly 3-4 million tonnes of pulses annually to meet domestic demand. (Source-Economics Times)
- In a respond to a PIL on increasing farmer suicides in the country, the Ministry of Agriculture has told the Supreme Court that though the country has become self sufficient in production of cereals, it is dependent on imports to bridge the gap between domestic production and demand of edible oil and pulses. (Source-Economics Times)

- The Indian agriculture ministry has refused to bail out the agri-procurement agency National Agricultural Cooperative Marketing Federation of India (Nafed). The Nafed's negative net-worth is reported at Rs.318 crore at the end of last fiscal.
- **Agri-GDP Growth to be zero to marginal.** In an Interview to TOI, Ashok Gulati, ICRIER states that in current calendar year agriculture GDP growth would be zero to marginal. This country has to pay attention to agriculture. The last three years' average rate of growth in agriculture GDP is 2%. And in this year 1.1% is expected and that was before current rainfall. According to him, drought like situation in kharif season and recent western disturbance which has impacted quite a bit of Maharashtra, Madhya Pradesh, Rajasthan, Haryana and all the way to Punjab and even Jammu and Kashmir and UP's western part particularly.
- **Odisha Traders on Strike from April 9.** Odisha traders under the banner of the Odisha Byabasayee Mahasangha said that as the State Government showing no interest in exempting value added tax (VAT) on pulses, wheat and wheat products, the traders would stop import and sale of these items from April 9. Earlier, traders had decided to stop import and sale of pulse, wheat and wheat products from December 9 last year. But the Government assured them to look into the issues and urged to call off the agitation for three months.
