Domestic:

Central Government has asked all state governments to submit details of their demand for pulses and details of this year crop and availability of pulses from last year's stock. The information will help central government to analyze the situation and decide the action plan to control the increasing prices of pulses. They can meet the demand by getting additional supply from surplus states or can import from other countries. A meeting regarding pulses supply-demand situation and likely price trend is scheduled next week to take the stock of the situation.

As per latest update from market participants some forward deals of Chana from Australia have been struck at Rs4550 this week to be shipped during October-November. Masoor and Yellow peas deals too have been struck from Canada at Rs 5950-6000 and Rs 2550-2575 respectively for October-November shipment.

- Australian Chickpea is currently being planted and should be finished in the end of June. Weather condition is favorable and yield may increase this year as compare to last year. Harvest is set to begin after September. Demand and prices of Australian chickpeas increased due to crop failure in India. Australia exports around 95% of its chickpea crop where India, Bangladesh and UAE are its major export destination.
- Myanmar has launched the world's first 23x7 multi-commodity exchange for the benefit of entire value-chain participants, including traders, importers, arbitrageurs and investors. Myanmar International Commodity Exchange Ltd (MICEX), a Pearl Group initiative, offers trading in varied commodity contracts across segments, with initial focus on pulses and gold.
