Domestic:

Government agency MMTC opened a tender to import 5000 tonnes of Tur, the offers must be of minimum 2500 tonnes and remain valid until 24th July and has to be shipped within 15 September at Mumbai or Chennai port. Tur can be imported from Myanmar, Mozambique and Malawi.

Government of India decided to include pulses after wheat and rice in BGREI to increase domestic production and reduce dependency on imports. Bringing Green Revolution to Eastern India (BGREI) is a government aided scheme in which crops like paddy and wheat are cultivated, funded by government and are grown in states like West Bengal, Odisha, Bihar, Jharkhand, Chhattisgarh, eastern UP and Assam .

Concern over the rising prices of pulses, government of Rajasthan has imposed stock limit to retailers and wholesalers. Retailers can have 25 quintals of pulses and wholesalers can have 2500 quintals of pulses at a time. This decision will help the prices of pulses to stay low as supply will increase in the market and market players will not able to hold large amount of stock.

Area under Kharif pulses throughout the country stood 11.04 lakh hectares as on 26 June this year, around 79.8% higher when compared to the area sown during corresponding period last year which was 6.14 lakh hectares, according to Ministry of Agriculture.
