Highlights

[\(Back to Content\)](#)

Domestic:

According to IBIS (provisional data), import of pulses in the last week (20-July-26 July) was around 96 Thousand tonnes at major ports in India, around 28% lower than previous week's (July 13-July 19), import of 134 thousand tonnes. Masoor, Urad, Green Pea, Moong and Yellow Pea were imported lower this week whereas Chana, Kidney Bean and Tur were imported higher as compared to last week.

Overall crop condition of Moong in Bikaner region of Rajasthan is good. According to local traders moong area in this region may have increased by 50% as compared to the last year. If the weather condition remains the same, bumper production seems very much in sight this year in this region.

Area under Kharif pulses throughout the country stood 82.44 lakh hectares as on 31 July this year, around 20.9% higher when compared to the area sown during corresponding period last year which was 68.15 lakh hectares, according to Ministry of Agriculture.

According to latest data released by Gujarat Agriculture Ministry, area under Kharif, pulses in Gujarat stood at 2.45 Lakh Hectares as on 27 July this year, around 23% higher compared to the area sown during corresponding period last year which was 1.99 Lakh hectares. With early start of rainfall and good sowing condition in main pulses growing belt, area coverage under Tur, Urad and Mung increased in comparison to last year till date.

Area under Kharif pulses in Andhra Pradesh stood 0.67 Lakh Hectares as on 29 July this year, around 19% lower as compared to the area sown during corresponding period last year which was 0.80 Lakh hectares. But the area of Green gram and Black gram has increased as compared to last year.

According to the Rajasthan Department of Agriculture, the production estimate of Gram in 2014-15 is only 9.10 Lakh tonnes as compared to 16.40 Lakh tonnes in 2013-14 which is around 45% lower than last year. Rajasthan is the country's second producing state and this decline in production will not make the prices to decline steeply in near term.

The Wholesale price index for Pulses for the month of June, 2015 rose to 308.9 from 284 in previous month. The Pulses annual rate of inflation based on monthly WPI, stood at 8.7% for June 2015 as compared to 7.53% in the previous month.

[\(Back to Content\)](#)

Weekly Outlook: -Pulses prices are likely to remain steady to slightly weak.

Pulses-Wise Scenario (Back to Content)

Chana (Back to Content)

Market Recap:

Chana prices noticed range bound to slightly firm movement during the week.

Current Scenario:

Chana noticed range bound movement to slightly firm during the week and price range during the week was Rs.4475-4700 per quintal at major markets. Following graph illustrates the chana price movement in different markets:
