Commodity-wise Domestic, International Prices and Arrivals at Different Centers

Highlights

[\(Back to Content\)](#)

Domestic:

According to IBIS (provisional data), import of pulses in the week (15 Feb-21 Feb) was around 59 Thousand tonnes at major ports in India, around 45% lower than previous week's (08 Feb-14 Feb) import of 107 Thousand tonnes. Chana, Cow Pea, Masoor, Green Pea, Kidney Bean, Pigeon Pea and Yellow Pea were imported lower this week whereas Urad and Moong were imported higher than last week.

Tur prices have shown some firmness due to lower arrivals in the mandis and increase in CnF prices of Burmese tur. Arrivals are lower in the mandis as farmers are holding their crop in expectation of higher price in the future. At present arrivals in Amravati mandi is in the range of 3000-4000 bags per day with price range of Rs 8000-8500 per bag.

According to local trader of Jhansi region in Uttar Pradesh, pea sowing area is 20-30 % lower than last year due to lower rainfall. Arrivals of new pea crop are expected in mid March. Overall crop condition is good. At present arrivals in Jhansi mandi is in the range of 200-300 bags per day with price range of Rs 2500-2600 per bag.

According to traders of Patna region of Bihar, Masoor harvesting is expected to start in end of February or first week of March. Crop condition is considered better than last year and farmers are expecting greater yield than last year. Arrival in the mandis may start from mid March keeping pressure on the prices.

According to local traders of Dewas region of Madhya Pradesh, new chana crop quality is good. Kantewala chana production this year may be lower compared to last year due to lower area coverage. Arrivals are in the range of 200-300 bags per day with price range of Rs 4000-4200 per bag.

According to the local traders of Ganj Basoda region of Madhya Pradesh, new chana started hitting the market in small quantity. Grain quality and size is normal to good. Now arrivals of chana will continue in small quantity till 1st week of March when harvesting of irrigated land will start and arrival will take pace. Overall crop condition is good.

According to local traders of Vijayawada region of Andhra Pradesh, new harvested moong crop has started reaching the market. Moisture level of the new moong crop is around 12-13% and quality is good. Arrivals are in the range of 800-1000 bags per day with the price range of Rs 6600-6700 per bag. This year Moong area in the region was lower than last year as farmers have shifted to Urad crop due to higher market prices.

International:

USDA's Commodity Credit Corporation released purchase tender for 540 metric tonne (MT) of pulses for April-May shipment as food aid. Pulses have to be packed in 50 kg bags.

According to the latest report, Canadian Lentil production for 2015-16 has increased by around 19% to 2.4 MMT. Last year it was 1.98 MMT. Due to higher production and good demand, exports are forecasted to reach 2.4 MMT from 2.1 MMT. Season ending stock is expected to decrease from 0.36 MMT to 0.10 MMT. Farmers' average bids are likely to increase from \$585 to \$880/910 per tonne due to higher demand, less availability of good quality crop and weak Canadian dollar.

According to the latest report, Canada Chickpea Production for 2015-16 decreases by around 31 percent to 0.90 MMT. Canada had produced 1.31 MMT last year. Despite lower production, exports are forecasted to reach 0.85 MMT this year from 0.80 MMT last year due to higher demand. However, season ending stock is expected to decrease from 0.125 MMT to 0.075 MMT. Farmers bids are likely to increase from \$515 to \$685-715 per tonne.

According to the latest report, Canada Pea Production for 2015-16 decreases by around 16 percent to 3.2 MMT. Canada had produced 3.8 MMT last year. Due to lower production, exports are forecasted to reach 2.95 MMT this year from 3.04 MMT last year. Farmers' bids are likely to increase from \$260 to \$305-335 per tonne due to good demand.

According to the latest ABARES report, Australian Chickpea production forecast 2015-16 is 990 kilo tonnes around 78% greater than 2014-15 estimates of 555 kilo tonnes. Australian chickpea harvest starts from mid September and crops start hitting India market from October onwards.
