Commodity-wise Domestic, International Prices and Arrivals at Different Centers

Highlights[\(Back to Content\)](#)**Domestic:**

According to IBIS (provisional data), import of pulses in the week (14 Mar-20 Mar) was around 78 Thousand tonnes at major ports in India, around 48% higher than previous week's (07 Mar-13 Mar) import of 53 Thousand tonnes. Cow Pea, Kidney Bean, Masoor and Pigeon Pea were imported lower this week whereas Chana, Moong, Urad Green Pea and Yellow Pea were imported higher as compared to last week.

According to the local trader of Bina region of Madhya Pradesh, Quality of new masoor is good and grain size is normal. At present arrivals are in the range of 250-300 bags per day with price range of Rs 4900-5000 per bag.

In order to create buffer stock of pulses, HAFED will Procure Chana on behalf of NAFED in Haryana. Haryana gram production estimate is around 1.05 Lakh tonnes and arrivals are expected from mid April. If prices decreases or comes around MSP, government would buy Chana paying Rs 75 per quintal over and above MSP.

In order to create buffer stock of pulses, FCI will start procuring Chana and Lentil from next week directly from farmers, at mandi rates. Government had set a target to procure one Lakh tonnes of Rabi pulses, out of which 50,000 tonnes (40,000 tonnes Chana and 10,000 tonnes Lentil) was to be done by Food Corporation of India (FCI) and the remaining by Nafed and SFAC. The government agencies have already procured 51,000 tonnes of kharif pulses.

New Urad from Burma starts reaching India in small quantity. At present Cnf prices are very high and are in the range of \$1300-1320 at Chennai port. AW expects import quantity to increase in near future and prices to show some weakness.

The WPI has fallen from 370.1 in January 2016 to 356.4 in February 2016 for pulses. There has been a considerable fall in WPI of Lentil (347.1 for January 2016 and 337.2 for February 2016) and Moong (413.6 for January 2016 and 397.4 for February 2016), whereas the fall in WPI of urad has been marginal (507.8 for January 2016 and 507.1 for February 2016).

According to the local trader of Patna region of Bihar, new masoor start hitting the market in small amounts. Size of the grain is greater than last year and moisture level is 4-5 %.Overall crop quality is good. Due to the favorable weather condition yield per acre is around 12-15 quintal per acre this year compared to 7-8 quintal per acre last year. At present arrival is around 100-150 bags per day with price range of Rs 5400-5600 per bag.

According to the local trader of Rajgarh region of Madhya Pradesh, recent rains has affected chana crop in few regions. Harvesting has been delayed and arrivals in the mandis have been lowered. However, if rains continue it may damage the crop and can also affect the quality negatively. At present arrivals in the mandi is around 500-600 bags per day with price range of Rs 4400-4450 per bag.

International:

According to the latest Statpub report, France pea export increased by 66% to 10.0 Thousand MT in January from previous month of 6.01 Thousand MT. However, it is 23% lower than 13,030 MT shipped during the same month last year. This year export of peas from France is expected to increase.

According to the latest report, Canadian Lentil production for 2015-16 has increased by around 19% to 2.4 MMT. Last year it was 1.98 MMT. Due to higher production and good demand, exports are forecasted to reach 2.4 MMT from 2.1 MMT. Season ending stock is expected to decrease from 0.36 MMT to 0.10 MMT. Farmers' average bids are likely to increase from \$585 to \$880/910 per tonne due to higher demand, less availability of good quality crop and weak Canadian dollar.

According to the latest report, Canada Chickpea Production for 2015-16 decreases by around 31 percent to 0.90 MMT. Canada had produced 1.31 MMT last year. Despite lower production, exports are forecasted to reach 0.85 MMT this year from 0.80 MMT last year due to higher demand. However, season ending stock is expected to decrease from 0.125 MMT to 0.075 MMT. Farmers' bids are likely to increase from \$515 to \$685-715 per tonne.

According to the latest report, Canada Pea Production for 2015-16 decreases by around 16 percent to 3.2 MMT. Canada had produced 3.8 MMT last year. Due to lower production, exports are forecasted to reach 2.95 MMT this year from 3.04 MMT last year. Farmers' bids are likely to increase from \$260 to \$305-335 per tonne due to good demand.

According to the latest ABARES report, Australian Chickpea production forecast 2015-16 is 1013 kilo tonnes around 82% greater than 2014-15 estimates of 555 kilo tonnes. Australian chickpea harvest starts from mid September and crops start reaching India market from October onwards.
