Commodity-wise Domestic, International Prices and Arrivals at Different Centers

Highlights[\(Back to Content\)](#)**Domestic:**

According to IBIS (provisional data), import of pulses in the week (11 Apr-17 Apr) was around 81 Thousand tonnes at major ports in India, around 7% lower than previous week's (04 Apr-10 Apr) import of 88 Thousand tonnes. Chana, Cow Pea, Moong, Yellow Pea, Green Pea, Kidney Bean and Masoor were imported lower this week whereas Urad and Pigeon Pea and were imported higher as compared to last week.

According to the third advance estimate, Rajasthan agriculture Department lowers chana production estimate to 9.99 Lakh tones which is 17% lower than targeted estimate. Targeted estimate was 12.07 Lakh tonnes. Lower production estimate and good demand has given support to chana cash market.

According to third advance estimate issued by Rajasthan agriculture department for lentils, the production is expected to be 78210 tonnes, which is higher by 14953 tonnes compared to second advance estimate. Last year Rajasthan has produced 42500 tonnes of Lentil.

According to latest market update, the import of pulses have increased by around 20 percent from 45.84 lakh tonnes for F.Y. 2014-15 to 55 lakh tonnes for F.Y. 2015-16. As compared to F.Y. 2013-14 the imports have increased by 18.46 lakh tonnes from 2015-16.

Private traders have imported 55 lakh metric tonnes of pulses which is around 22 percent higher compared to last year. Furthermore, to uplift production the MSP for Tur as well as Urad has been increased by Rs. 275 per quintal and by Rs. 250 per quintal for Moong. Government agencies have procured 50000 tonnes of pulses and have contracted for 25000 tonnes for import.

The WPI has fallen from 356.4 in February 2016 to 346.6 in March 2016 for pulses. There has been a fall in WPI of Lentil (337.2 for February 2016 to 325.5 in March 2016), Moong (397.4 for February 2016 to 390.5 in March 2016) and urad (507.1 for February 2016 to 495.6 in March 2016)

Chana wholesale prices have risen by 15%-20% in the last ten days. Even after expectation of good monsoon this year consumers might have to pay higher prices till the new Kharif crop arrives. Furthermore, arrivals in chana producing States like Rajasthan and UP have not been satisfactory. This rise in prices of chana can lead to an increase in prices of imported yellow peas, as it replaces chana in varying degree in besan.

International:

As per latest update, farmers in Canada are planning to shift their crop from wheat to peas and lentil due to higher prices and demand in India. Farmers aim to plant 5 million acres of lentils and 4.6 million acres of peas, which will lead to a fall in wheat area to 23.2 million acres.

According to latest report by USDA, farmers in the US expect to plant Chickpeas in larger area compared to last year due to strong prices and demand. The area for small chickpeas is expected to increase by 15% to 83000 acres and area for large chickpeas is expected to increase by 20% to 163000 acres in 2016.

According to latest update, carry-out stocks for Canadian Chickpeas are expected to fall from 125 thousand MT in 2014-15 to 50 thousand MT 2015-16. This fall in carry-out stocks is mainly due to increased exports and decreased production

According to the latest Statpub report, France pea export increased by 66% to 10.0 Thousand MT in January from previous month of 6.01 Thousand MT. However, it is 23% lower than 13,030 MT shipped during the same month last year. This year export of peas from France is expected to increase.
