Commodity-wise Domestic, International Prices and Arrivals at Different Centers

Highlights[\(Back to Content\)](#)**Domestic:**

According to IBIS (provisional data), import of pulses in the week (18 Apr-24 Apr) was around 94.8 Thousand tonnes at major ports in India, around 16% higher than previous week's (11 Apr-17 Apr) import of 81 Thousand tonnes. There was higher import of all pulses, compared to last week.

According to IBIS, India green pea imports were around 2.08 Thousand MT in last week (18 Apr-24 Apr) Canada exported around 1.14 thousand MT at an average price of \$ 414.52 Cif per tonne and USA exported 0.66 thousand MT at an average price of \$ 676.43 Cif per tonne. At present Green Pea price in Mumbai market is around Rs 3100-3300 per quintal.

In order to curb the rising prices of pulses, the government has ask the States to put stock limit on all varieties of pulses. Further government has also asked the States to place their requirements for making allotment of tur and urad dals for retail distribution through their channels.

Maharashtra government has issued a bill to fix the maximum selling price of pulses, though the bill is yet to be signed by the President. The price of pulses which will be fixed will vary in metro cities, towns and villages. This move is likely to pressurize cash market in the short term.

According to the trade source, Rajasthan mill association has decided to provide pulses at lower rate than ongoing market rate. Retail shops will be open, in which pulses will be provided at lower rate. Tur and Urad Dal will be at Rs 120/kg while Moong Chilka at Rs 82, Chana Dal at Rs 70/kg and Pea Dal at Rs 40/kg.

As per local trader of Patna region of Bihar, arrival from new lentil crop is good and availability is normal against current weak demand. Amid this back ground government intention to pose stock limit on pulses has weakened inner tone in the market. Stockiest/millers are now unwilling to enhance stock of lentil at this point of time. It may restrict firmness in cash market in the days ahead. At present, prices of lentil in Patna mandi is around Rs 6600-6700 per quintal with arrival of 2000-2500 bags per day.

With uncertainty in the market regarding government action to curb tur prices, demand is lower than normal. Millers and stockiest are only doing need based buying. Currently prices of tur in Gulbarga mandi is around Rs 9300-9400 per quintal with arrival of 1800-2000 bags per day.

In order to boost domestic supply and check for any price rise the government will release 10000 tonnes of Tur and urad from its buffer stock. The centre has directed state governments to keep a close watch on prices and take strict actions against any hoarding of pulses. Last week, the wholesale prices of tur dal were in range of Rs 145-150 per kg and wholesale prices of urad were Rs 175 per kg.

International:

As per latest update, farmers in Canada are planning to shift their crop from wheat to peas and lentil due to higher prices and demand in India. Farmers aim to plant 5 million acres of lentils and 4.6 million acres of peas, which will lead to a fall in wheat area to 23.2 million acres.

According to latest report by USDA, farmers in the US expect to plant Chickpeas in larger area compared to last year due to strong prices and demand. The area for small chickpeas is expected to increase by 15% to 83000 acres and area for large chickpeas is expected to increase by 20% to 163000 acres in 2016.

According to latest update, carry-out stocks for Canadian Chickpeas are expected to fall from 125 thousand MT in 2014-15 to 50 thousand MT 2015-16. This fall in carry-out stocks is mainly due to increased exports and decreased production

According to the latest Statpub report, France pea export increased by 66% to 10.0 Thousand MT in January from previous month of 6.01 Thousand MT. However, it is 23% lower than 13,030 MT shipped during the same month last year. This year export of peas from France is expected to increase.
