Commodity-wise Domestic, International Prices and Arrivals at Different Centers

Highlights

Domestic:

According to IBIS (provisional data), import of pulses in the week (23 May-29 May) was around 65.1 Thousand tonnes at major ports in India, around 31% higher than previous week's (16 May-22 May) import of 49.6 Thousand tonnes. Cow Pea, Masoor, Kidney Bean, Pigeon Pea and Moong were imported lower this week whereas Urad, Chana, Green Pea and Yellow Pea were imported higher as compared to last week.

According to IBIS, India green pea imports were around 2.28 Thousand MT tonnes in the week (23 May- 29 May) which is around 57% higher than last week (16 May- 22 May). Last week it was 1.45 Thousand MT. Canada exported around 1.89 thousand MT at an average price of \$ 400.73 Cif per tonne. At present Green Pea price in Mumbai market is going around Rs 3300-3400 per quintal.

According to IBIS (provisional data), India moth imports were around 0.47 Thousand MT tonnes in the week (23 May- 29 May) which is around 39% lower than last week (16 May- 22 May). Last week it was 0.77 Thousand MT. At present, moth price in Jaipur market is hovering around Rs 5200-5300 per quintal.

In order to increase domestic production of pulses, Government has increased the MSP of Kharif pulses. Tur MSP increase by 9% to Rs 5,050 per quintal for 2016-17 from Rs 4,625 per quintal last year, Moong support price increased by around 8% to Rs 5,225 per quintal from Rs 4,850 per quintal in the year-ago period, while that of urad increased by 9% to Rs 5,000 per quintal from Rs 4,625 in 2015-16.

In anticipation to fulfill the shortage of pulses in future, Indian government is in discussion with Myanmar for G- to- G imports for pulses. If materialized, it will help India have sufficient buffer stock of pulses and in case of unexpected uptrend; government would be able to curb it on time. It will also give signal to market participants not to drag market up.

In order to curb the rising prices of pulses, central government will provide tur at Rs 66/kg and urad at Rs 82/kg to states. States can sell these pulses in retail market at maximum price of Rs 120/kg. At present imported tur and urad at Mumbai market is hovering around Rs 84-86/kg and Rs 109-111/ kg respectively.

According to the trade source, area of tur may increase this year in comparison to last year in Maharashtra due to expected favorable condition and higher market prevailing prices. Sowing in Maharashtra will begin in June after initial rain. At present, Tur prices in Hinganghat mandi of Maharashtra is in the range of Rs 8790-8800 per bag with arrival of 2000-2300 bags per day.

There is a burning gossip in the market that area under guar and castor seed is bound to decline this year due to increased possibility of good rainfall in monsoon season and lower prevailing prices of these commodities in cash market. It may shift to pulses and other spices. Around 2 to 4 % area in Maharashtra, Rajasthan and MP under soybean may shift to other lucrative crops as soybean price is ruling 10 % lower in comparison to last year. Guar and castor farmers too would prefer to shift some area to other cash crop due to lower price.

International:

As per latest update, farmers in Canada are planning to shift their crop from wheat to peas and lentil due to higher prices and demand in India. Farmers aim to plant 5 million acres of lentils and 4.6 million acres of peas, which will lead to a fall in wheat area to 23.2 million acres.

According to latest report by USDA, farmers in the US expect to plant Chickpeas in larger area compared to last year due to strong prices and demand. The area for small chickpeas is expected to increase by 15% to 83000 acres and area for large chickpeas is expected to increase by 20% to 163000 acres in 2016.

According to latest update, carry-out stocks for Canadian Chickpeas are expected to fall from 125 thousand MT in 2014-15 to 50 thousand MT 2015-16. This fall in carry-out stocks is mainly due to increased exports and decreased production.

According to the latest Statpub report, France pea export increased by 66% to 10.0 Thousand MT in January from previous month of 6.01 Thousand MT. However, it is 23% lower than 13,030 MT shipped during the corresponding month last year. This year export of peas from France is expected to increase.

Weekly Outlook: -Pulses prices are likely to remain range bound.

AGRIWATCH Agri Commodity Indices – June 05, 2016

According to Agriwatch Commodity Indices, Pulses Index rises to 183.62 (-0.65 %) on w-o-w basis.

Agriwatch has recently launched its AW Agri Commodity Indices to enable organizations access independent Indices to track and use to benchmark their purchases and sales. The Indices are based on the daily prices in the key benchmark markets for each commodity that AW has been covering for the past decade. The indices include an Aggregate Index, Category Indices and individual commodity indices. The weekly indices are free to access on our website www.agriwatch.com. The daily indices are available on subscription. Please contact for more details.

Pulses-Wise Scenario

Chana

Market Recap:

Chana prices noticed firm movement during the week.

Current Scenario:

Chana noticed firm movement during the week and price range was Rs.5950-6500 per quintal at major markets. Following graph illustrates the chana price movement in different markets:

Weekly Chana Import In India (Country-Wise; Port-Wise) (Quantities in tonne):
