Commodity-wise Domestic, International Prices and Arrivals at Different Centers

Highlights

Domestic:

According to latest sowing report released by Government as on 29th July, 2016, Pulses Kharif sowing reached to 110.35 Lakh hectares which is around 41% higher than at the corresponding time period last year. Last year it was 78.25 Lakh hectares. Tur, Urad and Moong sowing was recorded at 42.93, 26.77 and 26.14 Lakh hectares respectively as on 29th July 2016.

In order to enhance the supply in the mandi and to curb the prices, Central government asked States to remove local taxes on Pulses. They also have been requested to consider a pricing policy to set the highest selling price for pulses. This decision will help farmers to get better price for their product and regular supply for the consumer at lower rates.

As per latest NCDEX circular, all Chana Contracts have been closed from immediate effect. The sellers who have stocks and intending to give delivery will be allowed to do so. The delivery settlement will be communicated to the members after revision. The remaining outstanding positions after 27th July, 2016 will be closed out at the volume weighted average of futures price of August 2016 Chana Contract traded on 27th July, 2016 which was Rs 8055/quintal.

As expected by Agriwatch, Chana cash market showed weak movement last week due to lower demand. According to the trade source, at present Chana Future Contract are struck at \$805 for October-November, \$800 for November-December and \$790 for December-January delivery respectively. Stockiest are releasing their stock for profit booking, keeping downward pressure on the market. Agriwatch expects Chana prices to show slightly weak movement in the coming days due to higher availability. However, prices may show firmness if availability decrease as stockiest may not release their stock at lower prices.

According to latest sowing report released by Government as on 29th July 2016, Urad sowing area is recorded at 26.77 Lakh Hectares which is around 35% higher than at the corresponding period last year. Last year it was 19.78 Lakh hectares. Agriwatch expects Urad prices to show range bound to slightly weak movement due to higher imports from Myanmar and higher sowing data released by government. Millers are also doing need based buying at current price and stockiest are releasing their stock.

According to latest sowing report released by Government as on 29th July 2016, Tur sowing area is recorded at 42.93 Lakh Hectares which is around 68% higher than at the same time period last year. Last year it was 25.61 Lakh hectares. As expected by Agriwatch, Tur prices have shown weak movement in the last week due to higher imports and lower demand. At present, Stockiest are sidelined and millers are doing need based buying keeping prices down. Agriwatch expects Tur prices to show range bound to slightly weak movement in coming days due to higher imports.

As expected by Agriwatch Peas cash market has shown downward movement last week. Relatively downward movement of Chana prices are also keeping downward pressure on Pea cash market. Agriwatch expects Peas prices to show range bound to slightly weak movement due to lower demand and higher availability as stockiest are releasing their stock. However, prices may show slight northward movement if imports fall at present time.

According to IBIS (provisional data), import of pulses in the week (18 July-24 July) was around 101.6 Thousand tonnes at major ports in India, around 37% higher than previous week's (11 July-17 July) import of 74.2 Thousand tonnes. Chickpea, Lentil, Black Matpe, Cow Pea, Kidney Bean, and Yellow Pea were imported higher this week whereas Green Gram, Pigeon Pea and Green Pea were imported lower as compared to last week.

According to IBIS, India green pea imports were around 7.71 Thousand MT tonnes in the week (18 July-24 July) which is around 11% lower than last week (11 July-17 July). Last week it was 8.69 Thousand MT. Canada exported around 3.91 thousand MT at an average price of \$ 410.07 Cif per tonne. At present Green Pea price in Mumbai market is going around Rs 2800-2900 per quintal.

International:

According to the latest Saskatchewan Agriculture's weekly Crop Report, 66% of pulses crop are at their normal developmental stages, 26 % is ahead of normal development and 8 % is behind normal development for this time of year. Lentils and pea crop in many parts are suffering from too much moisture and some crop damage is also recorded.

According to the latest report, Canadian Lentil production estimate for 2016-17 is expected to increase by around 37% to 3.25 MMT. Last year (2015-16) estimate is 2.37 MMT. Due to higher production, exports are forecasted to reach 2.4 MMT in 2016-17 from 2.30 MMT in 2015-16. Season ending stock is expected to increase from 0.07 MMT to 0.65 MMT. Farmer's average bids are likely to decrease from \$985/1015 to \$765/795 per tonnes in 2016-17 due to a more normal grade distribution and record Canadian supply. Farmer's average bid fell near \$45/tonne in June compared to May report due to higher production estimate.

According to the latest report, Canada Pea Production estimate for 2016-17 is expected to increase by around 28 percent to 4.1 MMT. Canada is expected to produce 3.2 MMT in 2015-16. Due to higher production, exports are forecasted to reach 4.23 MMT in 2016-17 from 3.90 MMT in 2015-16. Farmers' bids are likely to decrease from \$360/390 to \$300-330 per tonne due to expectation of larger stock in Canada and increased world supply.

According to the latest ABARES report, Australian Chickpea production forecast 2016-17 is 1090 kilo tonnes around 8% greater than 2015-16 production estimates of 1013 kilo tonnes. Australia chickpea production forecast is higher due to increase in area and favorable weather condition till now. Australian chickpea harvesting starts from mid September and crops start hitting India market from October onwards.

According to the apk-inform, Russia pea export during 11 months of 2015/16 MY (July-May) reached 6.95 Lakh tonnes which is around 89 higher than 2014/15 MY export of 3.68 Lakh tonnes. India imports of pea from Russia also increased to 0.70 Lakh tonnes from 0.65 Lakh tonnes.

According to the latest Statpub report, France pea export increased by 210% to 42.16 Thousand MT in month of April from previous month of 13.60 Thousand MT and it is around 106% higher than 20.51 Thousand MT shipped during the same month last year. Total shipments clearance for ten months this year (July to April) is around 27.74 Lakh MT which is 105% higher than 12.06 Lakh MT shipped during the same month last year. Good demand from India and lower stock in domestic market due to lower production this year would continue to lend support to cash market in France and quotes are expected to remain stable to firm in the near term.

Weekly Outlook: -Pulses prices are likely to remain range bound.

AGRIWATCH Agri Commodity Indices – July 31, 2016

According to Agriwatch Commodity Indices, Pulses Index rises to 214.04 (-3.41 %) on w-o-w basis.

Agriwatch has recently launched its AW Agri Commodity Indices to enable organizations access independent Indices to track and use to benchmark their purchases and sales. The Indices are based on the daily prices in the key benchmark markets for each commodity that AW has been covering for the past decade. The indices include an Aggregate Index, Category Indices and individual commodity indices. The weekly indices are free to access on our website www.agriwatch.com. The daily indices are available on subscription. Please contact for more details.

Pulses-Wise Scenario

Chana

Market Recap:

Chana prices noticed steady to slightly weak movement during the week.

Current Scenario:

Chana noticed steady to slightly weak movement during the week and price range was Rs.8000-8800 per quintal at major markets. Following graph illustrates the chana price movement in different markets:
