Commodity-wise Domestic, International Prices and Arrivals at Different Centers

Highlights

Domestic:

According to latest sowing report released by Government as on 02nd September, 2016, Kharif sowing of pulses reached 142.02 Lakh hectares which is around 33% higher than at the corresponding time period last year. Last year it was 106.92 Lakh hectares.

According to latest sowing report released by Government as on 02nd September 2016, Moong sowing area is recorded at 33.05 Lakh Hectares which is around 36% higher than at the corresponding period last year. Last year it was 24.28 Lakh hectares. Maharashtra Government has directed NAFED to procure Moong at MSP from farmers. At present moong is being traded lower than MSP in many mandis due to lower demand and higher production estimate for this year. The decision will help farmers to get at least MSP prices (Rs 5225) for their crop as they have switched to pulses due to increase in MSP. No procurement target has been set by government. This development has lent support to cash moong market.

Chana cash market has shown firm movement in couple of days due to possibility of crop loss in Australia due to rain in chickpea growing region. Agriwatch expects prices to show steady to firm movement in coming days due to lower availability of chana in domestic market and higher demand. Australia September shipment is expected to reach in October therefore availability will be lower in coming days.

According to latest sowing report released by Government as on 02nd September 2016, Tur sowing area is recorded at 51.78 Lakh Hectares which is around 47% higher than at the corresponding time period last year. Last year it was 35.22 Lakh hectares. Prices of Tur has shown some northward correction in the market due to good demand. Agriwatch expects prices to show range bound to slightly weak movement in coming days as regular imports arrival is expected from Sudan, Tanzania and Myanmar.

Pea prices have shown some firm movement in last few days due to good demand from stockiest at lower rates. Agriwatch expects prices to show range bound to slightly firm movement in coming days due to good demand and relatively higher prices of chana.

According to IBIS (provisional data), import of pulses in the week (22 August-28 August) was around 74.1 Thousand tonnes at major ports in India, around 39% higher than previous week's (15 August-21 August) import of 53.5 Thousand tonnes. Chickpea, Cow Pea, Lentil, Yellow Pea and Pigeon Pea were imported higher this week whereas Black Matpe, Green Pea, Kidney Bean and Green Gram were imported lower as compared to last week.

According to IBIS, India green pea imports were around 5.02 Thousand MT tonnes in the week (15 August-21 August) which is around 26% lower than last week (07 August-14 August). Last week it was 6.77 Thousand MT. Canada exported around 3.66 thousand MT.

The State Trading Corporation of India Limited, New Delhi, has floated an Expression of Interest (EOI) for empanelment of Pulses Importers for supply of pulses on long term contract basis. The EOI document is available on STC's website www.stclimited.co.in. The last date of submission of EOI documents to STC New Delhi is 1500 Hours of 19.09.2016.

International:

According to the latest report, Canadian Lentil production estimate for 2016-17 is expected to increase by around 37% to 3.25 MMT. Last year (2015-16) estimate is 2.37 MMT. Due to higher production, exports are forecasted to reach 2.4 MMT in 2016-17 from 2.30 MMT in 2015-16. Season ending stock is expected to increase from 0.07 MMT to 0.65 MMT. Farmer's average bids are likely to decrease from \$985/1015 to \$765/795 per tonnes in 2016-17 due to a more normal grade distribution and record Canadian supply. Farmer's average bid fell near \$45/tonne in June compared to May report due to higher production estimate.

According to the latest report, Canada Pea Production estimate for 2016-17 is expected to increase by around 28 percent to 4.1 MMT. Canada is expected to produce 3.2 MMT in 2015-16. Due to higher production, exports are forecasted to reach 4.23 MMT in 2016-17 from 3.90 MMT in 2015-16. Farmers' bids are likely to decrease from \$360/390 to \$300-330 per tonne due to expectation of larger stock in Canada and increased world supply.

According to the latest ABARES report, Australian Chickpea production forecast 2016-17 is 1090 kilo tonnes around 8% greater than 2015-16 production estimates of 1013 kilo tonnes. Australia chickpea production forecast is higher due to increase in area and favorable weather condition till now. Australian chickpea harvesting starts from mid September and crops start hitting India market from October onwards.

According to the apk-inform, Russia pea export during 11 months of 2015/16 MY (July-May) reached 6.95 Lakh tonnes which is around 89% higher than 2014/15 MY export of 3.68 Lakh tonnes. India imports of pea from Russia also increased to 0.70 Lakh tonnes from 0.65 Lakh tonnes.

According to the latest Statpub report, France pea export increased by 210% to 42.16 Thousand MT in month of April from previous month of 13.60 Thousand MT and it is around 106% higher than 20.51 Thousand MT shipped during the corresponding month last year. Total shipments clearance for ten months this year (July to April) is around 27.74 Lakh MT which is 105% higher than 12.06 Lakh MT shipped during the corresponding month last year. Good demand from India and lower stock in domestic market due to lower production this year would continue to lend support to cash market in France and quotes are expected to remain stable to firm in the near term.

Weekly Outlook: -Pulses prices are likely to remain range bound to slightly weak.

AGRIWATCH Agri Commodity Indices – August 28, 2016

According to Agriwatch Commodity Indices, Pulses Index rises to 184.36 (-5.90 %) on w-o-w basis.

Agriwatch has recently launched its AW Agri Commodity Indices to enable organizations access independent Indices to track and use to benchmark their purchases and sales. The Indices are based on the daily prices in the key benchmark markets for each commodity that AW has been covering for the past decade. The indices include an Aggregate Index, Category Indices and individual commodity indices. The weekly indices are free to access on our website www.agriwatch.com. The daily indices are available on subscription. Please contact for more details.

Pulses-Wise Scenario

Chana

Market Recap:

Chana prices noticed range bound movement during the week.

Current Scenario:

Chana noticed range bound movement during the week and price range was Rs.6000-7500 per quintal at major markets. Following graph illustrates the chana price movement in different markets:
