Commodity-wise Domestic, International Prices and Arrivals at Different Centers

Highlights

Domestic:

- **Cash pulses market traded weak except Chana and Urad during the week under review.** Chana traded up due to festive and seed demand supported by higher quotes in international market..Supply side is tight in case of Chana.However,uptrend is unlikely to continue till the end of this month.The volume for imported chana would increase and quotes in forward months in Mumbai is hovering around Rs 5500/5600 per qtl.Besides, arrival from kharif crop would increase and consumers may shift from chana to tur,moong and urad.Yellow peas prices too have eased.Chana may trade steady to slightly firm while other pulses may stay steady to weak.
- **India imported 141844 tonne pulses during week ended 8th Oct-2016, higher by 26.61 %** from previous week.It had imported 112030 tonne pulses during week ended 02nd Oct.The highest quantity was of yellow peas out of total import during the week.India imported 117899 toone yellow peas,9750 tonne Tur and 4595 tonne chana.The rest were other pulses including kidney beans.
- **Continuous rains in chickpeas growing belts of Australia have delayed shipment** by 10 to 15 days from scheduled time and there is a concern over normal quality too.Mumbai tur opened at Rs6100,BMP opened at Rs7500 and chana opened at Rs 10000 per qtl. Burmeese tur cnf was quoted at \$865,faq \$1180 & sq \$1230 per tonne.Australian chana at Mumbai was quoted at Rs10500 per qtl.Tanzanian and Ethiopian chana were quoted at Rs10,000 and Rs 9800 per qtl. Chana prices may rule steady to firm in domestic market in the near term..
- **India imported around 213 containers pulses at Chennai & Krishnapatnam** port from 01 to 05 th Oct.-2016.Out of 213 containers share of black mapte was 50 containers, Tur whole 110 containers, yellow peas 19, green moong beans 10 and the rest were other pulses. Container size is 20*8.6'.Chickpeas share was 11 containers while 8 containers of chana dal was reported.
- **An inter-ministerial committee has taken a decision to distribute pulses through** post offices. Now post offices would sell subsidized tur, urad and chana during the festival season. The rational behind distribution through post offices is to reach remote areas of the country. Govt would continue to sell pulses from bufer stock and would attempt to ease supply and control prices. New kharif crop, continuation of import and selling from buffer stock would ease pressure on pulses price front in coming weeks.
- **As per the latest notification if retail sale price of any essential commodity is fixed** and notified by the competent authority under the Essential Commodities Act, 1955, the same will be applied on essential commodities that are sold both in loose and packaged form in retail markets.
- **The government's advisory body on farm pricing CACP has recommended a sharp** increase of up to Rs 475 per quintal in the minimum support price of pulses for the winter season.It has suggested a sharp hike in the MSP of 'masoor' and gram (chana) by up to Rs 475 to Rs 3,800, and Rs 3900 per quintal respectively for the winter season.
- **Kharif pulses area has increased by 29.14 percent to 145.84 lakh ha till 23.09.2016.**Kharif sowing has entered the last phase now.Tur area increased by 40.21 percent to 52.89 lakh ha from last year.Urad area was registered at 35.48 lakh ha ,higher by 25 .33 percent this year. Moong area increased by 32.77 percent to 33.99 lakh ha.Kulthi and other pulses area increased by 10.14 & 10.35 percent respectively to 0.76 and 22.82 lakh ha. and normal crop condition ensure bumper kharif production this year.
- **Matar Canada is being quoted at Rs2425 to Rs 2450 per qtl.Russian matar is** available at Rs Rs2301 per qtl.Massor is being quoted at Rs 5400/5550 per qtl.As the CACP has recommended to increase MSP for chana and masoor for winter season,area under pulses is likely to increase in rabi season too and it would exert pressure on price after likely bumper production in kharif.
- **Urad production too is likely to increase by 54.85 % from normal of 1.29 MMT**(5 years ave) to 2.01 MMT.It would be higher by 38.62 % from set target of 1.45 MMT.If we consider it from last year's production(1.39 MMT) it would be 42.76 % higher this year. Current uptrend is due to bad weather that may affect urad crop quality. However, once weather improves pressure may continue on urad in cash market.
- **Kharif moong production is expected to increase by 25.23 % from normal of 1.07 MMT**(5 years ave) to 1.35 MMT this season. It is higher by 10.66 % from the set target of 1.22 MMT. With increasing arrival, pressure might be seen on cash market. However, procurement on MSP would continue to lend support if prices move down to rs 5225 per qtl.Cash market may continue to trade near MSP in coming weeks.

International:

- **Chickpeas export from Russia increased around 19 percent to 72800 tonne from July to Sept-2016.** Russia had exported around 60200 tonne chickpeas in corresponding period last year. Out of total export of chickpeas from Russia Turkey brought around 60 percent while India purchased around 22 percent. As supply side is tight in India import flow of chickpeas from various origin would continue to flow in coming months.
- **According to Canadian grain commission (CGC) around 100MT of chickpeas were exported** in bulk through terminals and private elevators between September 12 and 18. Season to date exports total around 700 MT compared to 1600 MT in the previous marketing year. Around 10 percent of the crop is in the bin compared to 35 percent at the same time last year. This represents just 12000 MT of chickpeas compared to 32000 last year.
- **As per latest updates from Statistic Canada lentils production has been pegged at 2.87MMT** for 2016-17 season. It is lower than the estimate of 3.23MMT pegged in August-2016. For the latest updation satellite data and computer imaging has been used. Feedback received from farmers has been ignored to some extent.
- **As per latest update by Canadian grain commission**, season to date exports for chickpea total 600 MT, compared to 1500 MT during the previous marketing year. As on September 12, only 5 percent of the crop was in bin compared to 14 percent last year. In terms of quantity this represents almost 6000 MT of the new crop compared to 13000 MT at the same time last year. Commercial stock of chickpeas is around 8400 MT (3500 MT in Manitoba, 4600 MT in Saskatchewan, 300 MT in Alberta) and there are no chickpea in transit by rail to Canadian ports
- **Australia is heading towards bumper pulses production this year. ABARE has forecast 3.25 MMT** pulses production higher by 7.4 lakh tonne from last year. Five year's average production in Australia is 24.3 lakh tonne. Chickpeas production may touch 12.34 lakh tonne. It was around 10 lakh tonne last year. Field peas production would jump from 204,500 to 317,000 MT and lentils from 258,200 to 365,000 MT.
- **As per latest updates by USA Lentil and dry pea council pulses yields in 2016** are extremely high with excellent quality. (0% of the crop looks like US# 1 grade. Both lentils green and red were seen with very good color and size. Green peas color is excellent and a good size. This year's US crop is one of the best crops both in quality and quantity. Official data is still awaited.
- **Canada, and Stats Canada projects they could have the second largest crop on record** at 33.6 million tons. The most recent crop progress report has the Saskatchewan harvest at approximately 49% for Lentils, 63% for peas and 6% for chickpeas.
- **According to the latest Saskatchewan Agriculture's weekly Crop Report**, 40 % Lentils and 64 % Peas has already been harvested. Harvesting activities is in full swing as rain has stopped. The majority of crop damage last week was due to prolonged flooding and disease. There are some reports of bleaching of pulses in the region.
- **According to the latest report, Canadian Lentil production estimate** for 2016-17 is expected to increase by around 37% to 3.25 MMT. Last year (2015-16) estimate is 2.37 MMT. Due to higher production, exports are forecasted to reach 2.4 MMT in 2016-17 from 2.30 MMT in 2015-16. Season ending stock is expected to increase from 0.07 MMT to 0.65 MMT. Farmer's average bids are likely to decrease from \$985/1015 to \$765/795 per tones in 2016-17 due to a more normal grade distribution and record Canadian supply. Farmer's average bid fall near \$45/tonne in June as compared to May report due to higher production estimate.
- **According to the latest report, Canada Pea Production estimate** for 2016-17 is expected to increase by around 28 percent to 4.1 MMT. Canada is expected to produce 3.2 MMT in 2015-16. Due to higher production, exports are forecasted to reach 4.23 MMT in 2016-17 from 3.90 MMT in 2015-16. Farmers' bids are likely to decrease from \$360/390 to \$300-330 per tonne due to expectation of larger stock in Canada and increased world supply.
- **According to the latest ABARES report, Australian Chickpea production forecast 2016-17** is 1090 kilo tonnes which are around 8% greater than 2015-16 production estimate of 1013 kilo tonnes. Australia chickpea production forecast is higher due to increase in area and favorable weather condition till now. Australian chickpea harvesting starts from mid September and crops start hitting India market from October onwards.

Weekly Outlook: -Pulses prices are likely to stay steady to slightly weak except chana.

AGRIWATCH Agri Commodity Indices – 1st October, 2016

According to Agriwatch Commodity Indices, Pulses Index rises to 216.70 (4.4 %) on w-o-w basis.

Agriwatch has recently launched its AW Agri Commodity Indices to enable organizations access independent Indices to track and use to benchmark their purchases and sales. The Indices are based on the daily prices in the key benchmark markets for each commodity that AW has been covering for the past decade. The indices include an Aggregate Index, Category Indices and individual commodity indices. The weekly indices are free to access on our website www.agriwatch.com. The daily indices are available on subscription. Please contact for more details.

Pulses-Wise Scenario

Chana

Market Recap:

Chana prices noticed mixed tone during the week.

Current Scenario:

Chana noticed firm movement in the beginning of review week and could not sustain its firm tempo by the end of the week. Chana price traded in the range was Rs.9700-11600 per quintal at major markets. Cash market may trade steady to slightly firm due to festive demand including seed and delayed shipment. Imported chana at Mumbai is being offered at Rs 5600/5650 per qtl. for Nov delivery. Following graph illustrates the chana price movement in different markets:
