Commodity-wise Domestic, International Prices and Arrivals at Different Centers

Highlights

Domestic:

- **Pressure continues on pulses market as trading volumes decreased considerably due to disturbance at cash front.** Besides, import flow continues amid improved Rabi sowing status. As prices are still ruling higher except moong, sowing area is expected to be higher in Rabi season too. Normal trading activities are likely to be disturbed till November. Overall outlook for pulses market remains weak.
- **Sowing of Rabi pulses started gaining momentum now. Till first week of November,** winter crops were planted in 146.85 lakh hectares compared with 81.58 lakh hectares at the end of the week ended November 4. The acreage is 16% higher than a year ago when crops covered 126.71 lakh hectares. The area under pulses—gram, lentil, field pea, kulthi, uradbean, moongbean and lathyrus—covered 49.24 lakh hectares, an increase of 32% from a year ago.
- **Higher prevailing price may encourage chana area this rabi season. The production target for chana is 9.6 million tonnes.** Weather conditions are favourable so far and its impact may be visible on prices in coming weeks. Agriwatch expects decline in chana price by 25 to 30 percent by December. Higher MSP too may encourage farmers to boost area under chana. However weather in maturity stages would remain crucial. Imported Chana in Mumbai is being offered at Rs 6150 per qtl. for Dec delivery.
- **Imported Tur in Mumbai Opened at Rs 5700/5750 per qtl. while Urad and Chana** quoted at Rs 7500 and 9500/9600 per qtl. respectively. Tur quoted in Burma At \$760 (CNF Mumbai) per tonne, FAQ \$1115 and SQ \$1175 per tonne. Lower quotes in forward delivery may pressurize Tur and Urad further. Arrival from domestic market too is bound to increase. So outlook remains weak for these pulses.
- **Price of yellow pea has plummeted to \$300 a tonne from \$380 a tonne in last three weeks.** Yellow peas from Canada, Russia and Ukraine as also new chickpea crop from Australia have begun to arrive on Indian shores says market experts. Yellow pea import in next three months including Nov may touch 15 lakh tonne. It will ease the tight supply side and augment availability. Australian chickpeas are offered at around \$850 a tonne.
- **India imported 244024 tonne pulses during 31 Oct to 6th Nov-2016, higher by 65.55 % from previous week .** It had imported 147395 tonne pulses during week ended 30th Oct. The highest quantity was of yellow peas out of total import during the week. India imported 164472 tonne yellow peas, 24382 tonne Tur, 9964 tonne Urad and 10295 tonne Chana. During this period 28696 T Lentils has been imported. The rest were other pulses including kidney beans.
- **India imported 918 containers pulses at JNPT port** as on 28th October-2016. Out of total major share was of pigeon pea. Around 624 containers of pigeon pea were landed. Chickpeas contribution was registered at 88 containers. Lentil contribution was registered at 36 containers. Besides, yellow peas, green peas and black eye beans contribution were registered at 15, 30 and at 81 containers respectively. There was no import of green Black mapte.
- **As monsoon has been favorable so far, govt has fixed 207.5 lakh tonne production target for pulses this year.** It expects 135 lakh tonne pulses production from Rabi season while kharif pulses production is expected to touch 87 lakh tonne. Production of Moong, Urad and Tur has increased considerably due to higher area coverage and congenial weather condition.
- **MP Govt has decided to end stock limit on pulses. Notification regarding this is** expected in next two-three days. Till now big traders in state can't stock 2000 qtl. of pulses. It was 1000 qtl for small traders. Due to imposition of stock limit traders were unable to participate in tenders for imported pulses by MMTC and NCF. Now participation is expected to increase.
- **As per the latest notification if retail sale price of any essential commodity is** fixed and notified by the competent authority under the Essential Commodities Act, 1955, the same will be applied on essential commodities that are sold both in loose and packaged form in retail markets.

International:

- **USA has exported 189,436 MT pulses in the month of Sept. Out of pea contribution** was recorded at 98,779 MT. It has exported total 62,400 MT Lentils, higher than record export of 41,961 MT recorded in April, 2013. Chickpea exports exploded for the month, hitting 28,257 MT, an amazing 130% higher than the prior one-month record of 12,290 MT set in October 2011.
- **India was the largest taker of green peas, yellow peas, and even split peas. Overall**, India accounted for 74,000 MT of the total of 98,000 MT exported. China was a distant second at 5,000 MT. At Lentil front India brought 19,000 MT from Canada. Canada has used US Lentil to upgrade its crop. India took 20,607 MT of US chickpeas for the month of September 2016, or 73% of our total chickpea exports.
- **News Of crop damage (Lentil) in Australia and good export demand for Canadian Lentil** have lent support to red Lentil, Laird 1S despite better production estimates. Prices of Lentil in Canada have increased 3 to 4 cent per pound to 62/63 in last one week. However, Chickpeas traded steady at current level of 53 cents a pound. Yellow peas too traded steady at 8 cents per pound. Its impact on Indian market may be felt in the weeks ahead.
- **The Canadian Grain Commission latest report based on latest sample** result says that protein content in Lentil crop is higher by 0.9 % to 26.6 % this year against 25.7 last year. The result has been concluded by surveying green and red varieties collected from two major producing states like Saskatchewan and Alberta. Higher protein content found in Lentil is encouraging and the main reason for this is attributed to better weather conditions in growing regions. Despite higher protein content steady price trend may prevail as supply side is ample.
- **Canadian government has increased its forecast for dry beans and chickpea prices** as Indian government has stepped in to control prices. In case of chickpeas, prices to farmers are expected to rise between Can\$950-\$980 per tonne for 2016-17 compared to last month estimates of Can\$790-\$820 per tonne. This forecast is also higher by around Can\$135 per tonne compared to last year. The rise in forecast is mainly due to strong export demand.
- **According to the latest update by market viewers in Australia, Lentil** crop in some parts of western Australia has been affected by severe outbreaks of botrytis grey mould. Experts say that South Australia and Victoria alone have planted 2.5 lakh ha Lentil this year and out of this 50 % is said to be affected by this botrytis grey mould. Quality and yield is expected to be affected badly and it would reduce the final size of the crop.
- **Chickpea crop in Canada is said to be affected and concern over quality has increased now.** Firm tone continued in local market and market may trade steady in coming weeks too despite expectation of more arrival in coming weeks. India and Mexican crop is far ahead and till then Australia, Canada and Ukraine/Russia have to bridge the gap. By mid October only 25% chick pea crop in Canada has been harvested. So, quality concern has increased and major portion of crop may be used for feed purpose. Currently Chickpea is being quoted at 53 cent (Canadian \$) per lb in Canada.
- **Chickpeas export from Russia increased around 19 percent to 72,800 tonne** from July to Sept-2016. Russia had exported around 60,200 tonne chickpeas in corresponding period last year. Out of total export of chickpeas from Russia Turkey brought around 60 percent while India purchased around 22 percent. As supply side is tight in India import flow of chickpeas from various origin would continue to flow in coming months.
- **As per the latest ABARE update chickpeas production in Australia may increase** to 12.34 lakh tonne in 2016-17. The production estimate for 2015-16 was 10.13 lakh tonne. Higher price of chana encouraged farmers to grow more chana and the trend may continue if prices continue to rule at higher level. Area under chickpeas is forecast to increase from 6.61 to 8.22 lakh ha in 2016-17. Lentil production too may move up from 2.58 to 3.65 lakh tonne for the same period.
- **According to the latest report, Canadian Lentil production estimate** for 2016-17 is expected to increase by around 37% to 3.25 MMT. Last year (2015-16) estimate is 2.37 MMT. Due to higher production, exports are forecasted to reach 2.4 MMT in 2016-17 from 2.30 MMT in 2015-16. Season ending stock is expected to increase from 0.07 MMT to 0.65 MMT. Farmer's average bids are likely to decrease from \$985/1015 to \$765/795 per tones in 2016-17 due to a more normal grade distribution and record Canadian supply. Farmer's average bid fell near \$45/tonne in June as compare to May report due to higher production estimate.

Weekly Outlook: -Pulses prices are likely to stay steady to slightly weak, chana may trade stable

AGRIWATCH Agri Commodity Indices – 6th November, 2016

According to Agriwatch Commodity Indices, Pulses Index decreases to 221.71 (-4.20%) on w-o-w basis.

Agriwatch has recently launched its AW Agri Commodity Indices to enable organizations access independent Indices to track and use to benchmark their purchases and sales. The Indices are based on the daily prices in the key benchmark markets for each commodity that AW has been covering for the past decade. The indices include an Aggregate Index, Category Indices and individual commodity indices. The weekly indices are free to access on our website www.agriwatch.com. The daily indices are available on subscription. Please contact for more details.

Pulses-Wise Scenario

Chana

Market Recap:

Chana prices noticed weak tone during the week under review.

Current Scenario:

Chana noticed weak momentum in the beginning of review week as expectation of higher area has increased amid continuation of import flows by the end of this month. Overall tone remains steady to weak as demand from bulk and retail buyers is diminishing. Besides, lower quotes in Australia and steady quotes in other markets are likely to restrict uptrend in coming weeks. Chana price traded in the range was Rs.9500-10000 per quintal in Delhi market. Imported chana at Mumbai is being offered at Rs 6100/6150 per qtl. for December delivery. Following graph illustrates the chana price movement in different markets:
